

# Interview phase of your semi-structure interview

1

Confirm that your participants consent to taking part in your research and agree to be recorded.

You should already have written consent, but it's best practice to confirm this at the start of the interview.

2

Set expectations for the interview, letting participants know about the format and confirming how long the interview will be, giving them a chance to exit the research if they want/need to.

3

Start the interview with a planned (easy) question to warm up the participant and build rapport.

4

As the questions proceed, remember to ask clarifying questions and probe deeper into participant responses.

However, try to stay on topic and return to your planned questions if the conversation is drifting away.

5

End the interview - while it's not a "best practice" per se, it's nice for the participant to end with a final easy question and allow them to ask any of their own.

**The Politics of Memory in the Italian Populist Radical Right** Marianna Griffini, 2023-06-19. The Politics of Memory in the Italian Populist Radical Right examines the role of colonial memory in the contemporary Italian populist radical right which includes the Lega and Fratelli d'Italia. The book originally adopts postcolonialism as an analytical framework to critically examine which roles colonial memory plays in the Italian populist radical right. Considering the timeframe between 2013 and 2021, this book suggests that the contemporary Italian populist radical right selectively shaped its memory of the colonial past, expunging the most difficult aspects from it. The fact that the Italian populist radical right parties examined do not fully acknowledge the controversial aspects of Italy's colonial past which are bracketed off discourse may contribute to the deployment of colonial discourse by these same parties when discussing immigration. From this Italian case study, broader implications can be drawn regarding the role of colonial memory in political discourse which is a topical matter across Europe. The book will be of interest to those studying populism, the radical right, Italian politics and history, colonialism and the politics of memory.

The Polyployee. On the lived experience of Polymaths' Engagement with Leadership Styles in Organisational Settings Florian Stummer, 2022-11-23. Doctoral Thesis. Dissertation from the year 2022 in the subject Business economics Business Management Corporate Governance grade 1.5 language English abstract. Build a niche. Algorithm yourself. Hyperspezialize. The work environment of the 21st century becomes a place of boxes, labels and tags with leaders on top who are far beyond the capability to direct or steer but rather react on risk scenarios, market losses and an overarching change aversion. However, as the Universe medal has two sides, by nature there is an opposing force that came to light in the last years: Generalism. Not only as a term. Through the centuries, unique individuals were able to learn faster, adapt rapidly and synthesize ideas quicker than others, namely Polymaths. These individuals are part of the working world. Unfortunately, most of them live unheard and uncared for in organisational settings around the world.
