Services Marketing Integrating Customer Focus Across The Firm 5th Edition:

Services Marketing Valarie A. Zeithaml, Mary Jo Bitner, Dwayne D. Gremler, McGraw-Hill Companies, 2012-05-01 Services Marketing 6 e is written for students and business people who recognise the vital role that services play in the economy and its future. The advanced economies of the world are now dominated by services and virtually all companies view service as critical to retaining their customers today and in the future. This edition focuses on knowledge needed to implement service strategies for competitive advantage across industries. In addition to standard marketing topics such as pricing, this text introduces students to entirely new topics that include management and measurement of service quality, service recovery, the linking of customer measurement to performance measurement, service blueprinting, customer cocreation and cross functional treatment of issues through integration of marketing with disciplines such as operations and human resources. Each of these topics represents pivotal content for tomorrow's businesses as they attempt to build strong relationships with their customers.

Services Marketing Valarie A. Zeithaml, Mary Jo Bitner, 2003 SERVICES MARKETING 3 e by Zeithaml and Bitner provides a comprehensive review and analysis of services marketing issues, practice and strategy. Utilizing the GAPS Model of Service Quality as an organizing framework, the structure of the text offers part openers that sequentially build the model gap by gap. Each part of the book includes multiple chapters with strategies for understanding and closing the critical gaps. Customer behavior, expectations and perceptions are discussed early in the text to form the basis for understanding services marketing strategy and the managerial content in the rest of the text is framed by the GAPS model. Additionally, the authors continue to refine conceptual frameworks for developing effective services marketing strategy and have incorporated more coverage of the use of technology and business to business applications in this edition. **EBOOK:**

Services Marketing: Integrating Customer Focus Across the Firm Alan Wilson, Valarie Zeithaml, Mary Jo Bitner, Dwayne Gremler, 2012-06-16 The Second European Edition of Services Marketing Integrating Customer Focus Across the Firm by Wilson, Zeithaml, Bitner and Gremler uniquely focuses on the development of customer relationships through quality service. Reflecting the increasing importance of the service economy, Services Marketing is the only text that puts the customer's experience of services at the centre of its approach. The core theories, concepts and frameworks are retained and specifically the gaps model, a popular feature of the book. The text moves from the foundations of services marketing before introducing the gaps model and demonstrating its application to services marketing. In the second edition, the book takes on more European and International contexts to reflect the needs of courses, lecturers and students. The second edition builds on the wealth of European and International examples, cases and research in the first edition, offering more integration of European content. It has also been fully updated with the latest research to ensure that it continues to be seen as the text covering the very latest services marketing thinking. In addition, the cases section has been thoroughly examined and revised to offer a range of new case studies with a European and global focus. The online resources have also been fully revised and updated.
