Secessionist Rule Franziska Smolnik,2016-09-08 In this timely investigation of secessionist entities in post Soviet territories Smolnik explores how political authority is organized produced and reproduced in conditions of violent conflict Drawing on case studies of unrecognized or only partially recognized states in the South Caucasus she shows that so called low level violent conflicts may significantly influence the form and functioning of political rule and thereby have a considerable impact on the empowerment and disempowerment of local actors Offering fresh insight into the connections between violence and political power Secessionist Rule not only contributes to the political sociology of violent conflict but also adds to our knowledge of the largely understudied internal dynamics of de facto states

Rural Young Women, Education, and Socio-Spatial Mobility Wendy Geller,2015-10-08 Much of the literature on globalization has centered on the large macro level forces that influence the ways ideas people and various forms of capital move around the world From this vantage point discussions about the progressive feminization of migration in particular the feminization of out migration from rural areas indicate an intriguing trend Simultaneously the local experience of global forces is an important way of exploring how macro level processes are navigated by social actors on the ground This provides added texture to our understanding of why and how people make decisions about their lives within an increasingly interconnected social economic and political environment This volume explores whether concurrent patterns in identity development social relations and youth behaviors on the micro level might help explain similarities observable at the macro level Through a triangulated approach that balances between statistical backdrops extant quantitative research and in depth qualitative interviews this book theorizes about shifts in gender normativity efforts towards social mobility and the possible effects of an increasingly globalized society To do this it examines the decision making processes employed by high achieving young women from rural areas in Vermont and Leinster Ireland as they figured out who they wanted to become as adults and where they wanted to be those people Remaining mindful of structural constraints and using the lens of the psychic landscape Reay 2005 to view class as a reflexive practice this book peers into the ways certain types of identity evident among blue collar students seem to be carving out some potential for social and spatial mobility amidst both global and local trends

Black Greek-Letter Organizations 2.0 Matthew W. Hughey,Gregory S. Parks,2011-02-18 At the turn of the twentieth century black fraternities and sororities also known as Black Greek Letter Organizations BGLOs were an integral part of what W E B Du Bois called the talented tenth This was the top ten percent of the black community that would serve as a cadre of educated upper class motivated individuals who acquired the professional credentials skills and capital to assist the race to attain

socioeconomic parity Today however BGLOs struggle to find their place and direction in a world drastically different from the one that witnessed their genesis In recent years there has been a growing body of scholarship on BGLOs This collection of essays seeks to push those who think about BGLOs to engage in more critically and empirically based analysis This book also seeks to move BGLO members and those who work with them beyond conclusions based on hunches conventional wisdom intuition and personal experience In addition to a rich range of scholars this volume includes a kind of call and response feature between scholars and prominent members of the BGLO community

The Middle Ages in Popular Imagination Paul B. Sturtevant, 2018-02-28 It is often assumed that those outside of academia know very little about the Middle Ages But the truth is not so simple Non specialists in fact learn a great deal from the myriad medievalisms post medieval imaginings of the medieval world that pervade our everyday culture These like Lord of the Rings or Game of Thrones offer compelling if not necessarily accurate visions of the medieval world And more they have an impact on the popular imagination particularly since there are new medievalisms constantly being developed synthesised and remade But what does the public really know How do the conflicting medievalisms they consume contribute to their knowledge And why is this important In this book the first evidence based exploration of the wider public's understanding of the Middle Ages Paul B Sturtevant adapts sociological methods to answer these important questions Based on extensive focus groups the book details the ways both formal and informal that people learn about the medieval past and the many other ways that this informs and even distorts our present In the process Sturtevant also sheds light in more general terms onto the ways non specialists learn about the past and why understanding this is so important The Middle Ages in Popular Imagination will be of interest to anyone working on medieval studies medievalism memory studies medieval film studies informal learning or public history

A Cord of Three Strands Soo Hong, 2021-02-17 How can low income non English speaking parents become advocates leaders and role models in their children's schools A Cord of Three Strands offers a close study of the Logan Square Neighborhood Association a grassroots organization on the northwest side of Chicago whose work on parent engagement has drawn national attention The author identifies three elements induction integration and investment that together capture the dynamic and developmental nature of successful parent engagement Writing with both optimism and urgency author Soo Hong offers richly detailed portraits of parents experiences and addresses the complex and sometime conflicting relationships among school family and community

The Rise and Decline of the Insurgency in Pakistan's FATA Shahzad Akhtar, 2022-12-16 This book analyzes the emergence rise and decline of insurgency by the

Pakistani Taliban in Pakistan's North Western region also known as Federally Administered Tribal Areas (FATA). It provides a detailed account of the rise and decline of the FATA insurgency and also examines aftereffects of the insurgency. Offering an in-depth analysis of how insurgency in the FATA began in 2004 after Pakistan entered its military forces into the tribal areas, the author illustrates that the insurgency erupted when state repression on masses is combined with a disruption of the previous modus vivendi centered on co-optation of local elites. In the following years, the insurgency became so powerful that most of the FATA region fell under the control of the insurgents. The book further argues that a weak counterinsurgency strategy by the Pakistani government, characterised by the overzealous use of force and a failure to win the support of local communities, led the insurgency to become stronger and expand its control. Furthermore, the analysis reveals that a more robust counterinsurgency strategy, relying more on a determined and a judicious use of force and attempts to gain the trust and support of local communities adopted in the later years, led to the collapse of the insurgency. In short, this book offers an explanation of what makes an insurgency more likely to occur and how insurgency escalates and declines. In addition, this book sheds light on recent developments in FATA, including the merger of FATA with the mainstream Pakistan, the rise of the Pashtun Tahafuz Movement, a non-violent protest movement, and the resurgence of the Pakistani Taliban, especially after the Afghan Taliban capture of Kabul in the wake of US withdrawal of forces in Afghanistan. This book is a timely addition to the literature on South Asian Politics and Security Studies.
