developed individuals Numerous books and films from the last several decades expose flaws in the criminal justice system and provide audiences with stories that raise questions about race class and actual innocence in the administration of the ultimate punishment Although most people will not read legal briefs supporting or challenging the death penalty many will see films or read novels that raise issues about its fairness Themes and images gathered through popular culture may ultimately influence whether Americans continue to believe that capital punishment conforms to their evolving standards of decency and justice Those studying justice issues corrections or capital punishment will find this an accessible and provocative work that places the stories read in novels or seen in movies in the context of the legal system that has the power of life and death

The Spectacle of Death Kristin Boudreau, 2006-04-04 In 1787 Benjamin Rush cautioned that public punishments were dangerous to the social and legal authority of the new nation For Rush irrepressible human sentiments all but guaranteed that public punishments would turn spectators against the institutions responsible for the punishments Although public executions of criminals ended early in the 19th century debate over the morality of capital punishment has continued to this day In this unique and fascinating glimpse into public reactions to prominent executions from colonial times to the 1990s Kristin Boudreau focuses on the central role of populist often ephemeral literary forms in shaping attitudes toward capital punishment Surveying popular poems ballads plays and novels she shows that at key times of social unrest in American history many Americans have felt excluded by the political and legal processes and have turned instead to inexpensive literary forms of expression in an attempt to change the course of history Among the significant capital cases that the author discusses are the Haymarket anarchist trial of 1886 the lynching of Leo Frank in 1914 the murder of Emmett Till in 1955 and its effects on the Civil Rights movement Norman Mailer's treatment of the Gary Gilmore case in the 1979 novel The Executioner's Song and the 1998 execution of Karla Faye Tucker a convicted murderer who became a born again Christian on death row In the concluding chapter Boudreau examines contemporary writers musicians actors and other artists who are using their artistic media to influence official policies of states that permit capital punishment By examining these neglected texts Boudreau brings to light a compelling story about ordinary Americans fighting an entrenched legal system at times of great national crisis
