Simple Project Evaluation Spreadsheet Model World Bank:

Rethinking World Bank Influence D. Brent Edwards Jr., 2023-04-13 Why is it so hard for international development organizations even ones as well resourced and influential as the World Bank to generate and sustain change in the way things are done in those countries where they work Despite what in many cases is decades of investment and effort why do partner governments continue to engage in those traditional patterns and styles of public service management that international development organizations have sought to supplant with methods that are supposedly more accountable efficient and effective This book provides an answer to these questions However rather than pathologizing partner governments as the source of the problem that is rather than maintaining the distinction between doctor international development organizations and patient partner governments wherein the patient is seen as unwilling to take their medicine enacting good governance practices this book instead reframes the relationship The central argument is first that the programs and projects of international organizations are introduced into and are constrained by multiple layers of ritual governance that is performative acts and cultural logics that intersect with and reinforce the political economic and social structures in and through which they operate As is shown the contextual factors that guide governance practices are largely beyond the reach of the international development organizations the relevant logics have their roots in state ideology but also extend back to the colonial logics that continue to operate at the heart of the state apparatus The second the central argument is that international aid organizations and the governments with which they work are engaged in a ritual aid dance where each actor plays a part but does not and cannot acknowledge the ways that it depends on the other for its own gain This relationship can be considered a dance because each participant responds to and needs the other and because both sides do so in ways that are carefully choreographed with the overall trajectory or contours of the dance being more or less known to the participants These arguments are based on research on the World Bank's efforts over the course of several decades to encourage through its financing projects and technical assistance the implementation of social sector reform in Indonesia related to decentralization community participation and school based management

The World Bank and the post-Washington Consensus in Vietnam and Indonesia Susan Engel, 2012-08-21 This book explores the history structure and current operations of the World Bank which despite being the largest development organisation and the largest development research body in the world with tremendous direct and indirect influence on developing economies has rarely received the critical attention its importance merits The book's unique contribution is twofold it provides an original analysis of the interaction between economic theory political practice and the Bank's development praxis as well as two detailed grounded studies of the Bank's lending practices The book starts with a detailed examination of the development theory and practice of the World Bank from its Keynesian origins to the current shift through the Washington Consensus to the so called post Washington Consensus The second part is a detailed analysis of the Bank's lending practices in two countries Vietnam

and Indonesia The case studies extensively utilise World Bank sources analysing the Project Appraisal Documents for some 113 loans They also draw on the secondary literature and on interviews with World Bank staff government officials academics and NGOs in both countries The case studies enable the development of empirically based conclusions regarding the impact of Bank policies on the economic and social development of two important Southeast Asian nations making possible an assessment of the extent to which the rhetoric of the post Washington Consensus has been incorporated into the Bank's lending practices This book will be of interest to both advanced undergraduate and graduate students as well as specialist audiences in the fields of international political economy development international organizations and Southeast Asian Studies

Human Rights, Export Credits and Development Cooperation Barbara Linder, 2019-12-27 This book analyses to what extent the current human rights system allows affected individuals to claim accountability for human rights violations resulting from bilateral development and export credit agency supported undertakings The author explores three legal pathways host state responsibility home state responsibility and corporate responsibility The book concludes with recommendations on how to strengthen human rights accountability and improve access to justice for adversely affected individuals It will be of great interest to those researching the intersection between human rights development cooperation and investment
