Atlas Of Human Anatomy For The Artist Stephen Rogers Peck:

Atlas of Human Anatomy for the Artist Stephen Rogers Peck, 1951 Stephen Rogers Peck's *Atlas of Human Anatomy for the Artist* remains unsurpassed as a manual for students. It includes sections on bones, muscles, surface anatomy, proportion, equilibrium, and locomotion. Other unique features are sections on the types of human physique, anatomy from birth to old age, an orientation on racial anatomy, and an analysis of facial expressions. The wealth of information offered by the *Atlas* ensures its place as a classic for the study of the human form. *Atlas of Facial Expression* Stephen Rogers Peck, 1987 Provides a detailed guide to the complexities of facial expression. *The Notebooks of Sonny Rollins* Sonny Rollins, 2024-04-16 An illuminating selection of writings on a wide variety of topics, everything from technique, music theory, and daily routine to spirituality and systemic racism, from the personal journals of Sonny Rollins, master of the tenor saxophone and jazz's greatest living improviser. The New York Times: Sonny Rollins is one of the towering masters of American music, a virtuoso of the saxophone and an unequalled improviser whose live performances are legendary and who has reshaped modern jazz time and time again over the course of a career lasting more than sixty years. A turning point in that legendary career came in 1959 when Rollins stepped back from performing and recording to begin a new regime of musical exploration, which saw him practicing for hours, sometimes all through the night, on the Williamsburg Bridge. This was also the moment when he started the notebook that would become a trusted companion in years to come, not a diary so much as a place to ponder art and life and his own search for meaning in words and in images. At once quotidian and aphoristic, the notebooks mingle lists of chores and rehearsal routines with ruminations on nightclub culture, racism, and the conundrums of the inner life. And always there is the music: questions of embouchure, fingering, and technique; of harmony and dissonance of his own and others' art; and the art of jazz. Any definition Rollins insists which seeks to separate Johann Sebastian Bach from Miles Davis is defeating its own purpose of clarification. The *Musings of Miles* is then the *Bouncing of Bach*, both played against each other. Edited and introduced by the critic and jazz scholar Sam V. H. Reese, *The Notebooks of Sonny Rollins* provides an unequalled glimpse into the mind and workshop of a musical titan, as well as a wealth of insight and inspiration to readers. *Special Makeup Effects for Stage and Screen* Todd DeBreceni, 2013 Transforming an actor into a character for film or theater takes a great deal of skill, prowess, and creativity, and in this new edition, author Todd DeBreceni empowers you with just those qualities. From his years of film, TV, and theatrical experience, he shows you tips and techniques that will have you applying your own makeup effects like a pro in no time.
