

Detail of Stair Construction

These drawings show the skirting board and form of work. To simplify fitting the board, the length of the board is cut off at M. When the board is in place, the corner joint M, the joint S, of the truss, indicated its position by the board in dotted line at M. Then cut down the skirting board to the top of the truss and against the face. For full treatment of stair construction see Chapter on Stairs in this volume.
