Audiences A Sociological Theory Of Performance And Imagination:

Audiences Nicholas Abercrombie, Brian J Longhurst, 1998-04-07 This book is worth reading for a number of reasons It is the first introductory work of critical audience research that suggests how we can study the connection of media consumption in general with every day life and it also goes beyond its competitors in showing how postmodern thinking can help us in the analysis of a whole way of life Journal of Communication Audiences are problematic and the study of audiences has represented a key site of activity in the social sciences and humanities Offering a timely review of the past 50 years of theoretical and methodological debate Audiences argues the case for a paradigmatic shift in audience research This shift argue the authors is necessitated by the emergence of the diffused audience Audience experience can no longer be simply classified as simple or mass for in modern advanced capitalist societies people are members of an audience all the time Being a member of an audience is no longer an exceptional event nor even an everyday event rather it is constitutive of everyday life This book offers an invaluable review of the literature and a new point of departure for audience research **Audiences** Nicholas Abercrombie, Brian J Longhurst, 1998-06-18 Audiences are problematic and the study of audiences has represented a key site of activity in the social sciences and humanities Offering a timely review of the past 50 years of theoretical and methodological debate Audiences argues the case for a paradigmatic shift in audience research This shift argue the authors is necessitated by the emergence of the diffused audience Audience experience can no longer be simply classified as simple or mass for in modern advanced capitalist societies people are members of an audience all the time Being a member of an audience is no longer an exceptional event nor even an everyday event rather it is constitutive of everyday life This book offers an invaluable rev Audiences Nicholas Abercrombie, 1998 **Valuing Historic Environments** Lisanne Gibson, John Pendlebury, 2016-02-17 This volume brings together an interdisciplinary team of leading scholars to discuss frameworks of value in relation to the preservation of historic environments Starting from the premise that heritage values are culturally and historically constructed the book examines the effects of pluralist frameworks of value on how preservation is conceived It questions the social and economic consequences of constructions of value and how to balance a responsive democratic conception of heritage with the pressure to deliver on social and economic objectives It also describes the practicalities of managing the uncertainty and fluidity of the widely varying conceptions of heritage *Real-ish* Kelsey Jacobson, 2023-02-15 In the post truth era the question of how people perceive things to be real even when they are not based in fact preoccupies us Lessons learned in the theatre about how emotion and affect produce an experience of realness are more relevant than ever Real ish draws on extensive interviews with audience members about their perceptions of realness in documentary participatory historical and immersive performances In studying these forms that make up the theatre of the real Kelsey Jacobson considers how theatrical experiences of realness not only exist as a product of their real world source material but can also unfurl as real products in their own right Using the concept of real ish ness which

captures the complex feeling that is generated by engaging with elements of reality the book examines how audiences experience the apparently real within the time and space of a performance and how it is closely tied to the immediacy and intimacy experienced in relation to others When feeling rather than fact becomes a way of knowing truths about the world understanding the cultivation and circulation of such feelings of realness is paramount In exploring this process Real ish centres audience voices and perhaps most importantly audience feelings during performance Understanding Racist Activism Kathleen M. Blee, 2017-07-20 White supremacist groups are highly secretive so their public propaganda tells us little about their operations or the people they attract To understand the world of organized racism it is necessary to study it from the inside by talking to their members and observing their groups Doing so reveals a disturbing picture of how fairly ordinary white people learn to embrace the vicious ideas and dangerous agendas of white supremacy This book takes the reader inside organized racism revealing the kind of women and men who join groups such as the Ku Klux Klan or neo Nazi skinheads and what they do in those groups The volume collects significant published works from renowned scholar Kathleen M Blee s work on racist activism alongside new essays on the theories methods and approaches of studying racist activism Discussing topics such as emotional issues in research the place of violence and hate in white supremacy and how women are involved in racial terrorism Blee makes use of a range of sources including oral histories ethnographic observations and interviews to shape her findings Written by the pioneer and leading scholar of women in racist activism this volume is essential reading for students scholars and general readers interested in the areas of social movements politics race studies and American history Performance and Performativity in German Cultural Studies Carolin Duttlinger, Lucia Ruprecht, 2003 Duttlinger German Wadham College Oxford introduces a dozen papers selected from a conference held in 2002 at the University of Cambridge that apply the critical theory concepts of performance and performativity to German cultural studies Though the German language has no single equivalent for performance English and German speaking scholar **Race and Ethnicity in Secret and Exclusive Social Orders** Matthew W. Hughey, 2015-04-10 Secret and private organizations in the form of Greek letter organizations mutual aid societies and civic orders together possess a storied and often romanticized place in popular culture While much has been made of these groups glamorous origins and influence such as the Freemasons genesis in King Solomon s temple or the belief in the Illuminati s control of modern geopolitics few have explicitly examined the role of race and ethnicity in organizing and perpetuating these cloistered orders This volume directly addresses the inattention paid to the salience of race in secret societies Through an examination of the Historically Black and White Fraternities and Sororities the Ku Klux Klan in the US the Ekpe and Abakuj secret societies of Africa and the West Indies Gypsies in the United Kingdom Black and White Temperance Lodges and African American Order of the Elks this book traces the use of racial and ethnic identity in these organizations This important contribution examines how such orders are both cause and consequence of colonization segregation and subjugation as well as their varied roles as

both catalysts and impediments to developing personal excellence creating fictive kinship ties and fostering racial uplift nationalism and cohesion This book was originally published as a special issue of *Ethnic and Racial Studies* **Media Audiences** Marie Gillespie, 2005 Visit the Understanding Media series microsite S This book provides a comprehensive up to date overview of research and debate about media audiences written by some of the leading scholars in the field It covers a wide range of media genres from TV news to soaps and reality shows as well as addressing broader issues for example to do with globalisation the social contexts of media use and the power of the media This is a state of the art textbook which provides students with the critical tools they need in order to evaluate existing research and to undertake their own David Buckingham Institute of Education London S The book is important for the broad understanding of media audiences it provides and for the richness of the learning experience available through the activities and reading extracts that guide the student experience It is an excellent introduction to the history and traditions of audience research Virginia Nightingale University of Western Sydney Australia This book offers an engaging and accessible introduction to key debates in audience studies drawing on a range of historical contemporary and cross cultural case studies The book includes chapters on different approaches to researching audiences and how they link to policy and political agendas how media technologies shape our sensory and social experience how the media address us as media publics and affect democratic processes what ethnographic approaches tell us about audiences in different parts of the world how new forms of interactivity and mobility shift the relations of power between media consumers and producers The authors take students through these and other topics using readings from key research and providing carefully designed student activities Case studies range from the sensational experiences of early twentieth century film audiences to the activities of reality TV viewers from the audiences for Indian religious epics to Israeli news viewers interpretations of news about Palestine **Schirmer Encyclopedia of Film** Barry Keith Grant, 2007 This reference source covers all aspects of the cinema including film history production national cinemas genre theory and criticism and cultural contexts **International Journal of Contemporary Sociology**, 2008 *The Representation and Perception of Roman Imperial Power* Lukas de Blois, 2003 From the days of the emperor Augustus 27 B C A D 14 the emperor and his court had a quintessential position within the Roman Empire It is therefore clear that when the Impact of the Roman Empire is analysed the impact of the emperor and those surrounding him is a central issue The study of the representation and perception of Roman imperial power is a multifaceted area of research which greatly helps our understanding of Roman society In its successive parts this volume focuses on 1 The representation and perception of Roman imperial power through particular media literary texts inscriptions coins monuments ornaments and insignia but also nicknames and death bed scenes 2 The representation and perception of Roman imperial power in the city of Rome and the various provinces 3 The representation of power by individual emperors **The Place of the Audience** Mark Jancovich, Lucy Faire, Sarah Stubbings, 2003-04-28 It has been a recurring complaint both within and against

film studies that it has largely ignored the activities of audiences This book aims to address this absence as compared to television studies and to explain its cause The authors argue that there is a social context in which the consumption of film can be understood or studied historically demonstrating that a concentration on the place of film consumption within the changing cultural politics of the city can offer a compelling and productive focus of analysis This book examines not only the different meanings of different sites of film exhibition and distribution city centre cinemas local cinemas art house cinemas multiplexes terrestrial television transmission video rental and retail and satellite cable but also the meanings of the activities of film consumption associated with these sites Through use of archival materials and ethnographic studies of the audience the book examines the meanings of film consumption from the earliest film showings up to the 21st century
