Abstract: A 100-page manual for parents and teachers of children with autism spectrum disorders (ASDs) is available for free download from the National Autism Center's website. The manual, titled *Practical Guidelines for the Assessment and Intervention of Autism Spectrum Disorders in Schools*, is available at <http://www.nationalautismcenter.org/publications/practicalguidelinesfortheassessmentandinterventionofautismspectrumdisordersinschools>. The manual is available in English and Spanish. The manual is a product of the National Autism Center's (NAC) National Standardized Assessment and Intervention Study (NSAIS), which was funded by the U.S. Department of Education. The NSAIS was a multi-site, multi-year study that aimed to identify the most effective assessment and intervention practices for children with ASDs in schools. The manual is a synthesis of the findings of the NSAIS and is intended to provide practical guidance to school professionals. The manual is organized into three main sections: Assessment, Intervention, and Implementation. The Assessment section provides information on the types of assessments that should be used, how to select an assessment, and how to conduct an assessment. The Intervention section provides information on the types of interventions that should be used, how to select an intervention, and how to implement an intervention. The Implementation section provides information on how to develop a plan for assessment and intervention, how to monitor progress, and how to evaluate the effectiveness of the plan. The manual is a valuable resource for school professionals who are working with children with ASDs.
