Mastering the Art of French Cooking, Volume 1 Julia Child, Louise Bertholle, Simone Beck, 1983-09-12 NEW YORK TIMES BESTSELLER The definitive cookbook on French cuisine for American readers What a cookbook should be packed with sumptuous recipes detailed instructions and precise line drawings Some of the instructions look daunting but as Child herself says in the introduction If you can read you can cook Entertainment Weekly I only wish that I had written it myself James Beard Featuring 524 delicious recipes and over 100 instructive illustrations to guide readers every step of the way Mastering the Art of French Cooking offers something for everyone from seasoned experts to beginners who love good food and long to reproduce the savory delights of French cuisine Julia Child Simone Beck and Louise Bertholle break down the classic foods of France into a logical sequence of themes and variations rather than presenting an endless and diffuse catalogue of dishes from historic Gallic masterpieces to the seemingly artless perfection of a dish of spring green peas Throughout the focus is on key recipes that form the backbone of French cookery and lend themselves to an infinite number of elaborations bound to increase anyone s culinary repertoire Julia has slowly but surely altered our way of thinking about food She has taken the fear out of the term haute cuisine She has increased gastronomic awareness a thousandfold by stressing the importance of good foundation and technique and she has elevated our consciousness to the refined pleasures of dining Thomas Keller The French Laundry

French Gastronomy in the US Thérèse Migraine-George, 2025-03-03 This book focuses on the re invention of French food in the US probing the intricate transatlantic dynamics underlying notions of cooking and eating French By looking at French gastronomy as both a symbolic formation and an exclusionary practice closely tied to power class and race this book re centers histories that have been marginalized in traditional narratives of French gastronomy Rather than focusing on food itself this book explores transatlantic foodways and the complex and changing nexus of historical socioeconomic cultural political and ideological routes and trajectories both real and imaginary that have connected France and the US around a range of gastronomical practices and representations Foregrounding the gastronationalism that subtends the idea of eating French in the US this

book also looks at how a diverse group of contemporary chefs is working to deconstruct stereotypical and constrictive representations of French food and to create new cuisines that are in turn more inviting inclusive hospitable and convivial as well as more globally sustainable Exploring the transatlantic relation between France and the US through the lens of food offers a significant point of entry into the ways in which imagined gastronomies reflect imagined communities past present and future in an ever globalizing world This book will be of great interest to students and scholars from a wide range of interdisciplinary fields of study including food studies global French and Francophone studies cultural studies media studies Black African American studies history and ethnography *Catering* Jeremiah J.
