La evolución del componente petrolero en el desarrollo y la transición de México Angel de la Vega Navarro, 1999

Ciencia y desarrollo, 1988

Transforming Saints Charlene Villaseñor Black, 2022-07-15 Transforming Saints explores the transformation and function of the images of holy women within wider religious social and political contexts of Old Spain and New Spain from the Spanish conquest to Mexican independence The chapters here examine the rise of the cults of the lactating Madonna St Anne St Librada St Mary Magdalene and the Suffering Virgin Concerned with holy figures presented as feminine archetypes images that came under Inquisition scrutiny as well as with cults suspected of concealing Indigenous influences Charlene Villaseñor Black argues that these images would come to reflect the empowerment and agency of women in viceregal Mexico Her close analysis of the imagery additionally demonstrates artists innovative responses to Inquisition censorship and the new artistic demands occasioned by conversion The concerns that motivated the twenty first century protests against Chicana artists Yolanda López in 2001 and Alma López in 2003 have a long history in the Hispanic world in the form of anxieties about the humanization of sacred female bodies and fears of Indigenous influences infiltrating Catholicism In this context Black also examines a number of important artists in depth including El Greco Murillo Josepe de Ribera Pedro de Mena Baltasar de Echave Ibañeta Juan Correa Cristóbal de Villalpando and Miguel Cabrera *Latin Politics, Global Media* Elizabeth Fox, Silvio Waisbord, 2009-09-15 The globalization of media industries that began during the 1980s and 1990s occurred at the same time as the establishment of or return to democratic forms of government in many Latin American countries In this volume of specially commissioned essays thirteen well known media experts examine how the intersection of globalization and democratization has transformed media systems and policies throughout Latin America Following an extensive overview by editors Elizabeth Fox and Silvio Waisbord the contributors investigate the interaction of

local politics and global media in individual Latin American countries Some of the issues they discuss include the privatization and liberalization of the media the rise of media conglomerates the impact of trade agreements on media industries the role of the state the mediatization of politics the state of public television and the role of domestic and global forces The contributors address these topics with a variety of theoretical approaches combining institutional historical economic and legal perspectives

Building Social Security Xenia Scheil-Adlung, 2017-11-30 In recent years in both the specialist press and the tabloids the idea of privatization of social security has become a shimmering catch phrase Politicians base election campaigns on promises of more or less privatization in social security Many governments introduce private business management methods into their social security systems Representatives of social security institutions and academics prepare theory papers on the possible outcomes of privatization And international financial organizations describe doomsday scenarios based on the premise of failure to privatize What is the role of privatization today in the development of national social security systems How does privatization concern the developments in different social security programs such as old age sickness unemployment accident insurance and family allowances What are the visions and effects of privatization in social security This volume provides an overview of the various positions of supporters and opponents of privatization in the main branches of social security followed by national experience of privatized or part privatized social security systems While the perspective of each of the contributors is markedly different the overall objective cuts across differences namely to develop the most efficient and cost effective system of social security protection The authors views and knowledge are derived from their firsthand experiences with social security in Africa Asia the Americas and Europe Representatives of the leading international organizations dealing with social security issues the International Labour Organization the OECD the World Bank and the World Health Organization further expand the parameters of the viewpoints and experiences expressed This multifaceted book allows the reader to learn about the challenge of privatization in the various forms of social security by assembling a set of highly up to date technically complex and legal issues based on practical analysis and actual experience It will be of interest to those concerned with national social policy in a comparative context This is the sixth volume in an ongoing series that aims to review social security in a comparative global context Xenia Scheil Adlung is program manager International Social Security Association Geneva Switzerland

Revista mexicana de sociología, 2000

High-Speed Rail and Sustainability Blas Luis Pérez Henríquez, Elizabeth Deakin, 2017-01-06 High speed rail HSR is being touted as a strategic investment for connecting people across regions while also fostering prosperity and smart urban growth However as its popularity increases its implementation has become contentious with various parties contesting the validity of socioeconomic and environmental objectives put forward as justification for investment High Speed Rail and Sustainability explores the environmental economic and social effects of developing a HSR system presenting new evaluations of the proposed system in California in the US as well as lessons from international experience Drawing upon the

accumulated experience from past HSR system development around the world leading experts present a diverse set of perspectives as well as diverse contexts of implementation Assessments of the California case as well as cases from Japan France Germany Italy Spain Taiwan China and the UK show how governments and stakeholders have bridged the gap between the vision and the realities of connecting metropolitan regions through HSR This is a valuable resource for academics researchers and policy makers in the areas of urban planning civil engineering transportation and environmental design
