Project completion	

1. **Task 1 (10 points):** Read the text and answer the questions using the information provided.
2. **Directions:** The text contains information about global warming, climate change, and environmental protection. Answer the questions below.
3. **Global warming** is a long-term rise in the average temperature of Earth's atmosphere and oceans.
4. **Causes:** The main cause is the increase in greenhouse gases, such as carbon dioxide, from human activities like burning fossil fuels.
5. **Effects:** Global warming leads to rising sea levels, more frequent and severe weather events, and the melting of glaciers and ice sheets.
6. **Solutions:** To reduce global warming, we need to transition to renewable energy sources, improve energy efficiency, and protect forests.

11. What would be your estimate of the probability that the company will be successful in the long run?

Gcse 9 1 Mathematics Ocr:

International Reflections on the Netherlands Didactics of Mathematics Marja van den

Heuvel-Panhuizen,2019-08-13 This open access book inspired by the ICME 13 Thematic Afternoon on European Didactic Traditions takes readers on a journey with mathematics education researchers developers and educators in eighteen countries who reflect on their experiences with Realistic Mathematics Education RME the domain specific instruction theory for mathematics education developed in the Netherlands since the late 1960s Authors from outside the Netherlands discuss what aspects of RME appeal to them their criticisms of RME and their past and current RME based projects It is clear that a particular approach to mathematics education cannot simply be transplanted to another country As such in eighteen chapters the authors describe how they have adapted RME to their individual circumstances and view on mathematics education and tell their personal stories about how RME has influenced their thinking on mathematics education
