Lloyd's Building Kenneth Powell, Richard George Rogers, Richard Rogers Partnership, 1994 This illustrated volume covers one of the best known examples of High Tech architecture the Lloyds building in London Built between 1979 and 1986 it epitomizes the concern of its architect Richard Rogers with total flexibility and overt technical imagery **Lloyd's**

Building Kenneth Powell, 1994 **Architecture and Construction in Steel** Alan Blanc, Michael McEvoy, Roger Plank, 2003-09-02 This book provides a comprehensive guide to the successful use of steel in building and will form a unique source of inspiration and reference for all those concerned with architecture in steel Structure and Architecture Angus J Macdonald, 2007-06-07 Structure and Architecture is an essential textbook for students and practitioners of architecture and structural engineering MacDonald explains the basic principles of structure and describes the ranges of structure types in current use Furthermore the book links these topics directly with the activity of architectural design and criticism An update of the first edition Structure and Architecture 2ed includes a revised opening chapter and a new section that discusses prominent buildings constructed since the last edition was published in 1994 Angus MacDonald deals with structures holistically relating detailed topics back to the whole structure and building He aims to answer the questions What are architectural structures How does one define the difference between the structure of a building and all of the other components and elements of which it consists What are the requirements of structures What is involved in their design An understanding of the concepts involved in answering these questions and an appreciation of how the structure of a building functions enhances the ability of an individual to appreciate its architectural quality This book is unique in that it discusses the structural component of architectural design in the context of visual and stylistic issues **The Details of Modern**

Architecture Edward R. Ford, 1990 Covering the period 1890 1932 this book focuses on various recognised masters explaining the detailing and construction techniques used in their buildings **Cities for the New Millennium** Marcial Echenique, Andrew Saint, 2014-04-04 Cities for the New Millennium is the outcome of a joint conference held in Salford in July 2000 by the Royal Institute of British Architects and the University of Cambridge s Department of Architecture It tackles these questions in the light of the Urban Task Force s report about the future of Britain s cities and communities but sets them in an international and historical context Professionals architects engineers and developers as well as academics from different countries and disciplines here lavish their expertise on issues of transportation density land use risk and energy saving others present urban scale buildings or landscapes that have been judged inspirational or inventive This book therefore is not just about theories of urbanism It reveals how co operation and debate between different parties and professions can illuminate the creative kind of urban development we should be aiming for Encyclopedia of Twentieth Century Architecture R. Stephen Sennott, 2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclopedic of 20th Century Architecture website

Focusing on architecture from all regions of the world this three volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries **Avery Index to**

Adventurous Vents Lucy Lavers, Judy Ovens, Suzanna

Prizeman, 2025-10-02 A beautiful tribute to some of the UK's strangest most charismatic structures and an invitation to see the world around us a little differently I've been wondering whether this book is for existing lovers of ventilation shafts or is more like proshaft propaganda for the indifferent ignorant But these huge polished steel vents in brooding oranges and blues would surely appeal to both Seb Emina Fantastic Man Magazine At the heart of the modern world lie ventilation shafts We may not notice them but wherever there are tunnels sewers mines car parks and energy stations under our feet vents will be doing vital work keeping them cool and fume free Vents come in a wonderful and inventive variety of forms This book celebrates them both in their own right as intriguing individual structures and as an innovative way to tell the story of Britain's subterranean industrial development from the eighteenth century to the present day Here are one hundred of the most interesting ventilation shafts dotted around Britain sometimes in the most surprising places You'll find them masquerading as sculptures and small buildings adorned with fine details or displaying their purpose with confidence Whether you're inspired to take off in search of them or just to admire them from your armchair vents are fabulous objects By putting them perhaps for the very first time centre stage Adventurous Vents celebrates a highly unusual but exciting architectural form **Robert**

Adam Richard John, 2010 Monica Townsend enjoyed living the quiet life of a book editor but from the moment she stepped through her office door one evening everything changed Kidnapped at gunpoint she was held hostage at an abandoned warehouse praying her life would be spared as shots rang through the air Police Officer Chase Travers was on duty when the call came in Being the first officer at the scene he didn't anticipate the sight awaiting him three dead men sprawled on the warehouse floor Upon further inspection of the premises he discovered a barely conscious Monica Townsend and stayed by her side until the paramedics arrived In the hospital later that evening supposed to be returning home to his wife and two sons Chase felt prompted to stay at Monica's bedside to ensure her safety In the still of the night a gunshot rang out in the hospital corridor Chase and Monica escape and begin running for their lives but they face an even bigger challenge as they battle an attraction to each other which intensifies as each hour passes Will they be able to withstand temptation or in the heat of the moment after one devastating phone call will they give in changing their lives forever Getting There by Design

Kenneth Allinson, 2012-09-11 There was military project management There was construction project management Then there was business project management a tool described as the wave of the future Where are architects in all this professionals whose work has always been project driven There is design management in engineering product design

graphics packaging management theory and even in politics Construction consultants talk about managing design When are architects going to become committed to managing design Getting There by Design adopts an architect's view to design and project management It sets out the fundamental principles and shows how they are applied dealing with these two topics as one indivisible subject Getting There by Design demonstrates how to make project efforts goal oriented set up a planning and monitoring basis to architectural projects put the architect's fee calculus on a rationale basis diagnose your firm's practice culture develop successful teams Put your practice onto a more effective basis Ken Allinson is an architect in private practice and principal of Architectural Dialogue He also teaches design studio and lectures on design and project management He was formerly an associate at DEGW London and the Terry Farrell Partnership He has practice experience in Europe the USA and Japan and is the author of The Wild Card of Design 1993 International Architecture Yearbook Images
