"Invaluable. . . . I am sometimes asked if there is one book
a filmgoer could read to learn more about how movies are made
and what to look for while watching them. This is the book."

Making Movies Sidney Lumet:

Making Movies Sidney Lumet, 1996 How is a movie made and what exactly does a director do This book attempts to illuminate every circumstance internal and external emotional and technical involved in the arduous process that culminates in what we see on the big screen Only the director knows the background to the scenes behind every passing frame of film and the complex series of details and decisions involved from budget considerations to divine inspiration from the earliest rehearsal to the final screening Sidney Lumet's knowledge of the art and craft of directing is considerable and here he discusses everything from art direction and wardrobe shooting and editing the verbal and mechanical soundtracks to the distribution and marketing of a film and the role of the studio

Summary of Sidney Lumet's Making Movies Everest Media, 2022-07-28T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The mixing room is where the sound tracks are assembled to make the final sound track of the movie It is a job that can be left to sound technicians but that has its dangers For example mixers can raise the audio level of a quiet scene or moment and lower the audio level of a loud scene or moment 2 The process of looping is when an actor recreates a performance and it can be done by some actors who are good at it Scenes of violence car crashes and battles can use all sixty four tracks on the board or even more 3 The Dolby process simply took all the tapes and suppressed them so that the tape hiss was lost in the upper frequencies Soon in movies because of the equalization problems between Dolby recorded music and non Dolby sound recordings we had to start using Dolby on dialogue 4 The one pleasure in a mix comes when the music is added The tedious effort seems worth it The music pumps life back into the picture
