Abramian, Igor V. Andrianov, Valery A. Gaiko, 2020-11-02 This book commemorates the 60th birthday of Dr Wim van Horssen a

specialist in nonlinear dynamic and wave processes in solids fluids and structures In honor of Dr Horssen s contributions to the field it presents papers discussing topics such as the current problems of the theory of nonlinear dynamic processes in continua and structures applications including discrete and continuous dynamic models of structures and media and problems of asymptotic approaches Mechanical Vibration Haym Benaroya,Mark Nagurka,Seon Mi Han,2022-07-15

Mechanical Vibration Analysis Uncertainty and Control presents comprehensive coverage of the fundamental principles of mechanical vibration including the theory of vibration as well as discussions and examples of the applications of these principles to practical engineering problems In dealing with the subject of vibration the engineer must also consider the effects of uncertainties in the analysis and methods for the control of vibration As such this book includes treatment of both subjects modeling of uncertainties and vibration control Many example problems with solutions are included and are been carefully chosen and are presented at strategic points enabling the reader to have a thorough understanding of the subject and to help cement core ideas the book includes compelling case studies and stories of real world applications of mechanical vibration Catalog of Copyright Entries.
