monotheist cosmology and eschatology **A Modern Credit Rating Agency** Daniel Cash, 2023-09-22 This book aims to present a picture of one of the world's leading credit rating agencies. Credited as being the first credit rating agency, Moody's stands as the epitome of the rating sector and all that it effects. However, outside of internal and non-public histories compiled within the rating agency itself, the story of Moody's has never been told until now. However, this is not a historical book. Rather, this book paints a picture of Moody's on a wider canvas that introduces the concept of rating to you, taking into account the origins of the sector, the competitive battles that formed the modern-day oligopoly, and the characters that have each taken their turn on sculpting the industry that today is critical to the modern economy. The book is a story of personable people who provided the market with what it needed, but it is more than that. It is a story of conflict, impact, strategy, and most of all, the relationship between big business and modern society. Standing as the gatekeeper to the capital markets that form the core of modern society, Moody's represents the very best of what the marketplace can produce, but also the very worst. This story takes in economic crises in the antebellum US, the Panics of the early 1900s, the Wall Street Crash, and the Great Depression, and of course, the Global Financial Crisis. It does this because at the heart of each one was a member of the rating industry or the reporting industry that preceded it. Associated with almost any financial scandal, you may care to remember the credit rating agencies in their often uncomfortable role as gatekeepers have their fingerprints on most financial scandals and calamities. This book tells the story of the industry's founding member. The Great Devaluation Adam Baratta, 2020-07-21 1 Business Bestseller Wall Street Journal Amazon USA Today The Great Devaluation may be one of the most timely books ever written on the state of the global economy. Baratta sums it up simply enough with the following idea: What seems crazy in normal times becomes necessary in a crisis. The Great Devaluation is the 1 bestselling book that explains why the real crisis facing the world today is not the Coronavirus. The real crisis facing the world is explosive government debt and deficits. Governments are now left with no choice but to spend more than they make, borrow more than they can ever repay, and devalue their currencies to cover it all up. Former Hollywood storyteller Adam Baratta brings monetary policy to life in this follow-up to his national bestseller *Gold Is A Better Way You'll learn how and why Federal Reserve policies have facilitated an explosion in government debt and have systematically undermined the world financial system in the name of profit. The result: An out-of-control system where financial inequality has become a ticking time bomb set to blow up the global economy.*

Overwhelming Methodology of Deception Max Adam Duncan, 2022-05-04 There was a dilemma with writing this book. In order to understand the tip of the iceberg, it's necessary to understand the iceberg. Unfortunately, if you don't believe the tip of the iceberg, you're certainly not going to believe the iceberg. Jesus said, "If I tell you earthly things and you don't believe me, how can I tell you heavenly things?" It took me about ten years, but I finally made the iceberg believable and understandable to most people. The book involves government conspiracy, which is the very tip of the iceberg. The book explains the iceberg first and works its way up to conspiracy. To understand the iceberg, it was necessary to push the

envelope of the conventional realm of perceived reality and go into metaphysics galactic allies and galactic enemies The book explains how humanity is going to go through a transitional period and into a new paradigm of experience Although this book often quotes from God what we call God and Jesus it s unquestionably not a religious book **Freedom Justice**
