Principles of Strategy, with Historical Illustrations William Keith Naylor, 1921 *The Way of Strategy* William A. Levinson, 1999-12. In 1831 General Carl von Clausewitz wrote that business is war. Like war, business is a competition between organizations. The Way of Strategy is the art and science of managing organizations in competitive situations. People, organizations and management systems win wars and capture market share. In business today the marketplace is the battlefield. To win, people and systems must deliver quality products and services to stay competitive. The Malcolm Baldrige National Quality Award, ISO 9000 series of quality standards and total quality management emphasize the same elements of success: people, organizations and systems. This book unites the legacies of teachers such as Sun Tzu, The Art of War, Miyamoto Musashi, The Book of Five Rings, Niccol Machiavelli, The Prince and The Art of War, Carl von Clausewitz, On War and others. It describes how their strategies and leadership principles produced military victories. Modern business examples show how these timeless principles apply to personal and organizational success. After reading the book you will have a clearer understanding of how military strategy can help you become a successful business leader, manager and tactician.

Elevate Rich Horwath, 2014-03-24. According to a study published in Chief Executive Magazine, the most valued skill in leaders today is strategic thinking. However, more than half of all companies say that strategic thinking is the skill their senior leaders most need to improve. Elevate provides leaders with a framework and toolkit for developing advanced strategic thinking capabilities. Unlike the majority of books that focus on strategy from a corporate perspective, Elevate gives the individual executive practical tools and techniques to help them become a truly strategic leader. The new framework that will enable leaders to finally integrate both strategy and innovation into a strategic approach that drives their profitable growth is the Three Disciplines of Advanced Strategic Thinking: 1. Coalesce: Fusing together insights to create an innovative business model. 2. Compete: Creating a system of strategy to achieve competitive advantage. 3. Champion: Leading others to think and act strategically to execute strategy. Every leader desperately wants to be strategic; their career depends on it. Elevate provides the roadmap to reach the strategic leadership summit.
