Bamford, Silvia Cavalieri, Giuliana Diani, 2013-10-31 This book focuses on aspects of variation and change in language use in spoken and written discourse on the basis of corpus analyses providing new descriptive insights and new methods of utilising small specialized corpora for the description of language variation and change The sixteen contributions included in this volume represent a variety of diverse views and approaches but all share the common goal of throwing light on a crucial

dimension of discourse the dialogic interactivity between the spoken and written Their foci range from papers addressing general issues related to corpus analysis of spoken dialogue to papers focusing on specific cases employing a variety of analytical tools including qualitative and quantitative analysis of small and large corpora The present volume constitutes a highly valuable tool for applied linguists and discourse analysts as well as for students instructors and language teachers

Diachronic Corpora, Genre, and Language Change Richard J. Whitt, 2018-11-15 This volume provides a state of the art overview of the intersecting fields of corpus linguistics historical linguistics and genre based studies of language usage Papers in this collection are devoted to presenting relevant methods pertinent to corpus based studies of the connection between genre and language change linguistic changes that occur in particular genres and specific diachronic phenomena that are influenced by genre factors to greater and lesser degrees Data are drawn from a number of languages and the scope of the studies presented here is both short and long term covering cases of recent change as well as more long term alterations

Applications of Pattern-driven Methods in Corpus Linguistics Joanna Kopaczyk, Jukka Tyrkkö, 2018-03-15 The use of corpora has conventionally been envisioned as being either corpus based or corpus driven While the formal definition of the latter term has been widely accepted since it was established by Tognini Bonelli 2001 it is often applied to studies that do not in fact fulfil the fundamental requirement of a theory neutral starting point This volume proposes the term pattern driven as a more precise alternative The chapters illustrate a variety of methods that fall under this broad methodology such as the extraction of lexical bundles POS grams and semantic frames and demonstrate how these approaches can uncover new understandings of both synchronic and diachronic linguistic phenomena

Exploring Language through Contrast Tomasz Fojt, Waldemar Skrzypczak, Sławomir Waciewicz, 2012-11-30 The volume portrays a panorama of recent linguistic research in Poland in terms of comparison and juxtaposition as driving forces in an attempt to grasp descriptive and explanatory aspects of linguistic use and organization The spectrum of contributions spans all the levels of language The constellation of methodological perspectives juxtaposes the generative theory and recent developments in cognitive linguistics synchronic and diachronic perspectives and a measure of freedom has also been allocated to a more traditional structurally oriented and or eclectic spirit The notions of comparison and contrast have become the major force and the common denominator for all contributions in the service of explicating the central and the focal from what appears nebulous A well documented discussion on horizontal bonds between phonological primes and a refreshing new attempt to handle the phonology of Old English i umlaut are complemented with equally illuminating topics in derivational morphology such as grinding diminutives suffix distributional preferences and compound nouns In a similar fashion drawing upon the fundamental phenomenon of dynamic alternating processes syntactic topics focus on such problems as grammatical constructions with locatum verbs the status of English NPN forms and a new typology of Old English verbs Cognitively grounded phenomena are handled with equal zest and range across the vast territory of backstage cognition from the slip of the tongue through novelty of meaning

achieved through collocation construction environment to a discussion on the emergence of metaphorical senses in Old English lexical concepts for fire and light This stage inevitably leads us to further juxtapositions championed in the volume embracing subjectification and objectification in viewing arrangement as well as dynamically anchored viewing impositions of the self of the textual narrator The contributions dealing with levels of discourse aspire to bring us closer to goals and norms in politeness and co operation strategies and also to an in depth analysis of stylistic features based on corpora The coda falls onto normative linguistics and thus closes the territory of contrast and juxtaposition It provides an insight into how a reflective thespian and a devoted linguist differ in viewing language without compromising the status and validity of their respective stances

Historical Sociolinguistics Terttu Nevalainen, Helena Raumolin-Brunberg, 2016-11-10 Historical Sociolinguistics Language Change in Tudor and Stuart England is the seminal text in the field of historical sociolinguistics Demonstrating the real world application of sociolinguistic research methodologies this book examines the social factors which promoted linguistic changes in English laying the foundation for Modern Standard English This revised edition of Nevalainen and Raumolin Brunberg s ground breaking work discusses the grammatical developments that shaped English in the early modern period presents the sociolinguistic factors affecting linguistic change in Tudor and Stuart English including gender social status and regional variation showcases the authors research into personal letters from the people who were the driving force behind these changes and demonstrates how historical linguists can make use of social and demographic history to analyse linguistic variation over an extended period of time With brand new chapters on language change and the individual and on newly developed sociolinguistic research methods Historical Sociolinguistics is essential reading for all students and researchers in this area

Advances in Corpus-based Research on Academic Writing Ute Römer, Viviana Cortes, Eric Frigal, 2020-02-15 This volume showcases some of the latest research on academic writing by leading and up and coming corpus linguists The studies included in the volume are based on a wide range of corpora spanning first and second language academic writing at different levels of writing expertise containing texts from a variety of academic disciplines and sub disciplines and of different academic registers Particularly novel aspects of the collection are the inclusion of research that combines rhetorical moves with multi dimensional analysis studies that cover both fixed and variable phraseological items lexical bundles phrase frames constructions and work that is based on corpora of English as an academic lingua franca Going beyond merely summarizing their findings the authors also discuss what their research means for academic writing practice and pedagogical settings The volume will be of interest to researchers students and teachers who would like to expand their knowledge of how academic writing functions and what it looks like in a variety of contexts

The Construction of Discourse as Verbal Interaction María de los Ángeles Gómez González, J. Lachlan Mackenzie, 2018-09-20 This edited volume showcases new work on discourse analysis by big names in the field and promising early career researchers Arising from the latest in the series of IWODA workshops in Santiago de Compostela it provides

novel insights into both the explicit and the implicit characteristics of discourse as used in verbal interaction Discourse markers as their name indicates are among the explicit signals of coherence while discourse relations may be either explicit or implicit Similarly the discourse used for purposes of evaluation stance taking and interpersonal engagement is either overt or covert as is also true of the expression of emotions and empathy This in general terms is the challenging terrain into which the contributors to this volume have ventured The book combines theoretical issues with a practical orientation comparing languages analysing different registers studying the openings of Skype conversations and much more besides it will prove highly relevant for postgraduate and advanced practitioners of discourse analysis interaction studies semantics and pragmatics

Pragmatic Perspectives on Language and Linguistics Volume II Iwona Witczak-Plisiecka, 2013-01-16 Pragmatics of Semantically Restricted Domains the second volume of Pragmatic Perspectives on Language and Linguistics edited by Iwona Witczak-Plisiecka gathers papers which partly complement and develop the first volume Speech Actions in Theory and Applied Studies Cambridge Scholars Publishing 2010 Most of the texts collected in this book representative of advanced independent research and that of an informed exercise in the application of a pragmatic framework result from the Fourth Symposium on New Developments in Linguistic Pragmatics organized at the University of d Poland in May 2008 Accepting the inevitable failure of any attempt to pose a strict and clear cut division between the research area of semantics and that of pragmatics the volume focuses on pragmatics oriented analyses of data which are best described as semantically limited While Volume One concentrated on speech as a type of action the present volume without denying the inherently actional nature of language use concentrates on limited contexts Pragmatic phenomena in semantically restricted domains are addressed from a variety of both theoretical and applied perspectives The book is divided in three parts Part One Pragmatics Politics and Ideology gathers seven papers centered on issues pertaining to political linguistics In Part Two The Pragmatics of Humour Power and the Media there are eight papers which explore issues of politeness and modesty pragmatic aspects of mediated and gendered discourse or dynamicity of power relation in interaction Part Three Focus on Textual Properties concentrates on text excluding political discourse It integrates discussions of equivalence and specialized translation intertextual properties and pragmatically motivated lexical choices in business communication in law and in science

Multiple Perspectives on Learner Interaction William J. Crawford, 2021-09-07 In the field of Second Language Studies shared datasets provide a valuable contribution to second language research as many variables are held constant e g participants tasks research context thus allowing for an evaluation of theoretical and or methodological perspectives that may not otherwise be comparable This edited volume includes a wide range of studies using a common dataset the Corpus of Collaborative Oral Tasks The corpus includes 820 spoken tasks 268 927 words carried out by dyads of L2 English speakers primarily Chinese and Arabic learners Studies included in the book are categorized into three main traditions learner corpus research Task Based Language Teaching and assessment Because the corpus contains text and

sound files both lexico grammatical and phonological analyses are included Intended for researchers in the field of Second Language Studies with an interest in oral interaction research this book provides a collection of methodological pedagogical and assessment studies using a common dataset **Corpus Linguistics and African Englishes** Alexandra U.

Esimaje,Ulrike Gut,Bassey E. Antia,2019-02-15 Corpus linguistics has become one of the most widely used methodologies across the different linguistic subdisciplines especially the study of world wide varieties of English uses corpus based investigations as one of the chief methodologies This volume comprises descriptions of the many new corpus initiatives both within and outside Africa that aim to compile various corpora of African Englishes Moreover it contains cutting edge corpus based research on African Englishes and the use of corpora in pedagogic contexts within African institutions This volume thus serves both as a practical introduction to corpus compilation Part I of the book corpus based research Part II and the application of corpora in language teaching Part III and is intended both for those researchers not yet familiar with corpus linguistics and as a reference work for all international researchers investigating the linguistic properties of African Englishes **Current Trends in Greek Linguistics** Georgia Fragaki,Thanasios Georgakopoulos,Charalambos

Themistocleous,2012-11-15 Current Trends in Greek Linguistics is a collection of fifteen papers written by junior researchers of Greek linguistics aiming to highlight the ongoing linguistic research on Greek The collected papers present original research from a fresh perspective and bring to the fore aspects of the Greek language that have not been extensively examined so far The authors provide a concise overview of their field and address problems in a variety of theoretical frameworks including cognitive linguistics formal linguistics corpus linguistics variational sociolinguistics and critical discourse analysis The volume comprises four sections Aspects of Meaning Textual and Sociolinguistic Approaches Phonetics and Phonology and Clinical Linguistics and Language Teaching The first section includes chapters exploring lexical temporal expressions the conceptualisation of time and the semantic properties of the subjunctive mood The second section discusses issues relating to adjective evaluation strategies of verbal humour the role of social variables media and political discourse The section on phonetics and phonology includes three experimental studies that explore segmental and supra segmental phenomena The last section of the volume combines papers from two different fields dealing with aphasic speech and the teaching of idioms This collection of papers will appeal to researchers students of linguistics and educators who are interested in Greek and or the implications of its study for other languages and linguistic theory *New Methods in*

Historical Corpora Paul Durrell, Martin Scheible, Silke Whitt, Richard J. Bennett,2013-09-22 Investigating the history of a language depends on fragmentary sources but electronic corpora offer the possibility of alleviating the problem of bad data But they cannot overcome it totally and questions arise of the optimal architecture for a corpus and its representativeness of actual language use and how a historical corpus can best be annotated to maximize its usefulness Immense strides have been made in recent years in addressing these questions with exciting new methods and technological advances The papers in this

volume which were presented at a conference on New Methods in Historical Corpora Manchester 2011 exemplify the wide range of these recent developments **Longman Student Grammar of Spoken and Written English Arab Ou Edition**
