The Augustinian Alternative Benjamin J. Wood, 2017-07-15 This book s central claim is that a close reading of Augustine s epistemology can help political theologians develop affirmative accounts of political liberalism This claim is set in a scholarly context that is profoundly hostile to constructive theological readings of liberal culture As a corrective to such antagonism this book suggests that far from being natural opponents Christian communities can work fruitfully with political liberals based on common principles A key component in this argument is the theological reevaluation of the ancient skeptical tradition While the ancient skeptics are habitually treated by scholars as minor characters in the story of Augustine s theological development this volume argues that they played a significant role in shaping both Augustine s theology and the subsequent character of the Augustinian tradition By placing Augustine s reading of the skeptics in dialogue with contemporary culture this book constructs a viable form of liberal Christian politics that is attentive both to his sin sensitive account of public life and his eschatological vision of the church

Constitutional Law, Religion and Equal Liberty Azin

Tadjini,2019-09-19 During the 20th century many countries embarked on a process of constitutional secularization by which the role of religion gradually became limited Yet by the late 20th century and increasingly following the end of the Cold War this development began to be challenged This book examines the return of religion in constitutions through the concept of constitutional de secularization It places this phenomenon in the context of the constitutional memory of the countries in which it has taken place and critically examines it against the development and standards of constitutionalism as the prevailing constitutional legal and political theory Central to this analysis is the impact of constitutional de secularization on the regulation of equality in liberty that is both the regulation of constitutional rights and the scope for equality of those who are granted such rights The book argues that equal liberty forms an essential part of constitutionalism as a theory and that constitutionalism therefore entails a continuous development towards expanding it The first and second part of the book presents a conceptual framework for the study of constitutional de secularization The third part presents and analyses three cases of constitutional de secularization in Afghanistan Iran and Iraq The book will be of interest to researchers and policy makers interested in constitutional history and theory and the role of religion in law and its compatibility with human rights
