with affordable desktop and benchtop CNCs written by the creator of the popular open hardware CNC the Shapeoko Accessible 3D printing introduced the masses to computer controlled additive fabrication But the flip side of that is subtractive fabrication instead of adding material to create a shape like a 3D printer does a CNC starts with a solid piece of material and takes away from it Although inexpensive 3D printers can make great things with plastic a CNC can carve highly durable pieces out of a block of aluminum wood and other materials This book covers the fundamentals of designing for and working with affordable 500 3000 CNCs **August 2022 - Surplus Record Machinery & Equipment Directory** Surplus Record,2022-08-01 SURPLUS RECORD is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more Over 1 100 businesses list with the SURPLUS RECORD August 2022 issue Vol 99 No 8
