Shifting Waterscapes: Explaining Basin Closure in the Lower Krishna Basin, South India Jean-Philippe Venot, Hugh Turrall, Madar Samad, François Molle, Progressive agricultural and water development in the Krishna Basin in South India has led to a rising over commitment of water resources and signs of basin closure are apparent during dry periods As human consumptive uses are approaching the limits of water availability this report focuses on the Lower Krishna Basin that bears the brunt of any intervention upstream Capturing the process of basin closure requires an understanding of

the political dimension of access to water and the scope for change As basin closure intensifies the interconnectedness of ecosystems and water users adjustments and management decisions result in spatial re appropriation of water and basin wide strategies for water management and development that start with the definition and the implementation of water allocation mechanisms are increasingly needed *Network World* ,2003-12-15 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce *Rockwood and Green's Fractures in Adults* Charles Court-Brown,James D.
