Mass Media Functions Knowledge And Social Control:

Media and Social Inequality John Pollock, 2014-06-11 This book is among the first to systematically explore the impact of community inequality on reporting political and social change. Although most journalism scholars are still fascinated by the impact of media on society, *Media and Social Inequality* explores the reverse perspective: the impact of society on media. Using a community structure approach and rejecting the perspective that studies of media and audiences can be reduced to the individual level of psychological phenomena, all contributions examine connections between community-level macro characteristics and variations in the coverage of critical issues. This innovative book differs from previous community structure volumes in two ways. First, contributions explore a far wider range of community characteristics by employing creative methodologies, modern archives, and databases that facilitate larger, more diverse samples, multilevel and longitudinal analyses, composite measures of both content and editorial judgment, new technologies, and social network analysis. Second, a traditional emphasis on media as instruments of political and social control is replaced by media as potential mirrors of social change, exploring bottom-up measures of vulnerability, concentrated disadvantage, and ethnic diversity/pluralism. The volume contains two original chapters: one on nationwide US coverage of the Occupy movement in the expanded introduction and another on nationwide US coverage of universal health care. This book was originally published as a special issue of *Mass Communication and Society*.

Makers of the Media Mind William David Sloan, 1990 First Published in 1990. Routledge is an imprint of Taylor & Francis, an informa company.

Communication Yearbooks Vols 6-33 Set Various, 2021-12-02 The Communication Yearbook annuals, originally published between 1977 and 2009, publish diverse state-of-the-discipline literature reviews that advance knowledge and understanding of communication systems, processes, and impacts across the discipline. Topics dealt with include: Communication as Process, Research Methodology in Communication, Communication Effects, Taxonomy of Communication, and European Communication Theory. Information Systems Division, Mass Communication Research, Mapping the Domain of Intercultural Communication, Public Relations, Feminist Scholarship, Communication Law and Policy, Visual Communication, Communication and Cross-Sex Friendships, Across the Life Cycle, Television Programming, and Sex Stereotyping. *InterCultural Communication Training, Leadership and Relationships, Media Performance Assessment, Cognitive Approaches to Communication.*

Makers of the Media Mind Wm. David Sloan, 2014-07-10 *Makers of the Media Mind* is a collection of analytical essays focusing on the most important and original ideas contributed to the field of mass communication by journalism educators. Divided into six sections representing the most prominent areas of specialization in the field, this text serves two significant purposes: first, it acquaints readers with the lives of preeminent journalism educators; second, it provides concise discussions and evaluations of the most compelling ideas those educators have to offer. The editor and contributors to this text contend that ideas cannot be appreciated fully without an understanding of the creators of those same ideas. They hope that this volume's coverage of creators, as well as

concepts will demonstrate that journalism education has played a critical role in the making of the media mind

Communication Yearbook 19 Brant R. Burleson, 2012-03-22 The Communication Yearbook annuals publish diverse state of the discipline literature reviews that advance knowledge and understanding of communication systems processes and impacts across the discipline Sponsored by the International Communication Association each volume provides a forum for the exchange of interdisciplinary and internationally diverse scholarship relating to communication in its many forms This volume re issues the yearbook from 1996 *Handbook of Science and Technology Studies* Sheila Jasanoff, Gerald E Markle, James C Peterson, Trevor Pinch, 2001-11-01 This volume represents the social constructivist turn of the field It is evident that social constructivism made a major impact on the field during the 1970s and 1980s The diverse papers included here highlight the role of ethnography in STS In addition we are exposed to new perspectives of the multicultural and gendered nature of knowledge production Science Technology and Society For the most current comprehensive resource in this rapidly evolving field look no further than the Revised Edition of the Handbook of Science and Technology Studies This masterful volume is the first resource in more than 15 years to define summarize and synthesize this complex multidisciplinary international field Tightly edited with contributions by an internationally recognized team of leading scholars this volume addresses the crucial contemporary issues both traditional and nonconventional social studies political studies and humanistic studies in this changing field Containing theoretical essays extensive literature reviews and detailed case studies this remarkable volume clearly sets the standard for the field It does nothing less than establish itself as the benchmark one that will carry the field well into the next century The long awaited Handbook of Science and Technology Studies sponsored by the Society for Social Studies of Science is a truly substantial work both in size and in the breadth of its many contributions It is a rich and valuable guide to much that is transpiring in the field of Science and Technology Studies In the editors words it is an unconventional but arresting atlas of the field at a particular moment in its history Science Technology Society This book is not only an important resource for practitioners but it also may help to spark the curiosity of those who are outside the field including scientists and engineers themselves and so pull the half seen world of science and technology studies even more fully into the light of day American Scientist The book as a whole is an impressive testimony to the vitality of a burgeoning field New Scientist It reflects the international and interdisciplinary nature of the society An excellent resource Choice **Proceedings of the National Agricultural Science Information Conference**, 1980

Macrosocial Determinants of Population Health Sandro Galea, 2007-10-24 Macrosocial Determinants of Population Health

explores social factors such as culture mass media political systems and migration that influence public health while systematically considering how we may best study these factors and use our knowledge from this study to guide public health interventions Starting from the dual premises that a population is not merely the sum of its individuals and that the improvement of population health is not at odds with the practical desire of improving the health of individuals Sandro Galea and 33 expert contributors present chapters in three sections The first section includes eleven chapters that each discuss one macrosocial determinant of population health The factors covered by these chapters encompass a broad range of intellectual concerns ranging from regulations and legal frameworks global governance patent law and policy to overarching global phenomena globalization migration urbanization the media to a specific consideration of the role of economic political and corporate policies and practices The second section considers particular methodologic issues pertinent to those interested in the study of how macrosocial factors influence the health of populations offering insights on ecological studies and causal inference and weighing how we may best study the overlapping roles of determinants at local state and national levels The third section presents a framework for interventions that aim to improve population health and innovative case studies that show this framework in action Throughout contributors emphasize the potential of population strategies to influence traditional risk factors associated with health and disease Each section ends with Galea s integrative chapters bringing the observations and conclusions from the chapters into clear usable focus **Macrosocial Determinants of Population Health** is a work of major theoretical empirical and practical interest for disciplines as varied as public health epidemiology health promotion sociology and health policy Its systematic field building approach makes it as valuable to the public health provider as to the scholars and students studying the health of populations

Public Relations Theory Carl H. Botan, 2017-10-03 Beginning with the basic premise that public relations can best be understood as a specialized type of communication the contributors to this volume establish public relations as a vital and viable realm for communication research and theory development Through the application of communication theories they attempt to explain and predict public relations practices and then use these practices to develop communication theories Their discussions fall into three distinct categories metatheory theory and examples of applications of theories An ideal volume for professionals and students in communication journalism and related fields

Research on the Communication Effects and Mass Media Credibility in China Guoming Yu, 2022-10-29 This book establishes a measurement index to quantify China s mass media public credibility based on extensive research and the encapsulation of measurement theories and approaches related to media public credibility as well as numerous empirical case studies from the international academic community over the past hundred years The investigation into the current state of Chinese mass media public credibility and discussion on practical approaches to enhancing such public credibility is highly significant in the context of research on media public credibility The book focuses on two fundamental issues i investigating the basic factors the Chinese audience values as the yardstick for

media credibility and ii formulating a media public credibility measurement scale Relying on data from investigations the authors analyze the importance of various assessment benchmarks for measuring media public credibility and the characteristics of public credibility assessment Lastly a measurement scale is created by screening and analyzing measurement indices with statistical methods such as exploratory and authenticated factor analyses and credibility and validity testing which is of high theoretical and practical scientific value
