Equity Visits Rachel Roegman, David Allen, Larry Leverett, Scott Thompson, Thomas Hatch, 2019-08-07 Because equity and instruction are inextricably bound Why are equity visits such a critical first step to increasing opportunity and access for our under served students Because they take instructional rounds to a new level providing a powerful lens for investigating the intersections of equity and instruction After all how can we possibly deliver equitable learning experiences opportunities and outcomes for our students without first pinpointing problems of practice That's where Equity Visits will prove absolutely indispensable to district and school administrators It details how to combine a strong focus on instruction with explicit

intentional efforts to address systemic inequities Inside you ll find A range of data collection activities and tools to target central issues of equity in your school Clear guidelines on how to investigate the ways instructional practices structures and beliefs lead to inequitable educational experiences and how these are often masked in the day to day life of schools and districts A frank discussion of how to make race and racism an explicit part of investigating and addressing educational inequities Voices of school and district leaders who have taken crucial first steps to become equity warriors Recommendations on how to develop policies initiatives and practices to confront those inequities Few dispute that instructional improvement must be a central focus of educational leadership but for too long achieving educational equity has been absent from the conversation Here is your opportunity to ensure equity occupy a central spot in data collection and analysis and be explicitly discussed at all levels of your school or district organization In short essential reading and doing for all administrators

Eight Habits of Highly Effective Math Students (and the Teachers Who Teach Them) Sue Chapman,Holly Burwell,Mary Mitchell,2025-04-01 Essential habits to build mathematical confidence and competence for all students It has been said that teachers make approximately 1 500 decisions a day Given the volume of work it is no wonder that these decisions are frequently made reflex like and in the moment By intentionally nurturing effective habits in students as well as in teachers we can make these decisions more deliberately and in so doing foster a positive relationship with mathematics that will set students on an unstoppable trajectory of math learning Eight Habits of Highly Effective Math Students and the Teachers Who Teach Them focuses on developing eight essential habits that support mathematical competence and confidence in students This resource is designed as a personalized practice based professional learning experience leading you through a wealth of professional learning and application activities to support you in growing a specific math habit in your classroom to strengthen your students math learning and build your own efficacy The book offers the chance to choose your own adventure through three teacher inquiry options focused on a specific math habit Give it a Go

An Informal Exploration of a Teaching Action and Its Impact on Student Learning Classroom Inquiry A Classroom Based Teacher Inquiry Project Focus on Equity A Teacher Inquiry to Notice and Disrupt Patterns of Inequity This book provides an actionable framework for improving math teaching and learning by Emphasizing a commitment to equity because all students are capable of learning high level mathematics when provided with access to high quality instruction Helping teachers develop mindsets and habits to consciously reflect on their instructional practice to continually strengthen teaching effectiveness and student learning outcomes Curating short readings and practice based professional learning activities that can be engaged in individually or collaboratively Highlighting the importance of celebrating growth and the role of teachers in nurturing good habits in their students Offering a guide to coaching the habit through a process called Notice Nurture Name and Nudge Eight Habits of Highly Effective Math Students and the Teachers Who Teach Them is grounded in the unwavering belief that all students are math capable and all teachers can effectively teach mathematics The book can be

used individually by elementary school teachers and education leaders at school and district levels or in collaborative professional learning settings It is an excellent companion to Holly Burwell and Sue Chapman s book Power Up Your Math Community Corwin 2024 **Pedagogies of Quiet** Monica Edwards,2024-03-12 Pedagogies of Quiet Silence and Social Justice in the Classroom started with one teacher s frustration with a room full of quiet students and shifted into exploring why and how teachers can incorporate a quiet praxis into their classrooms Mindful of students who have been historically silenced or ignored LGBTQ students and introverted students this book dives into the historical and theoretical forces that shape classroom participation Edwards takes the reader on a journey into an intersectional pedagogical praxis that sees the value of collective classroom silence providing the reader with student centered insights and practices Grounded in empirical data the book explores students feelings about verbal classroom participation The themes that emerge from student surveys are used to ground the suggested practices that shape pedagogies of quiet Given the complex realities of 21st century history and life Pedagogies of Quiet comes just in time to help respond to the impact of social media on learning the youth mental health crisis and covid era of teaching and learning
