Dynamics of Knowledge Intensive Entrepreneurship Franco Malerba, Yannis Caloghirou, Maureen McKelvey, Slavo Radošević, 2015-07-24

Knowledge intensive entrepreneurship lies at the core of the structural shift necessary for the growth and development of a knowledge based economy yet research reveals that the EU has fewer young leading innovators and Europe s new firms do not adequately contribute to industrial growth This is especially true in the high R D intensive high tech sectors This structural malaise undermining Europe s growth potential is well diagnosed but poorly understood This volume fills this important gap by exploring new firms that have significant knowledge intensity in their activity and develop and exploit innovative opportunities in diverse sectors Through an evolutionary and systemic approach to entrepreneurship focusing on knowledge intensive entrepreneurship as both a micro and a macro phenomena and analyzing firms in the context of various socio economic models the authors explore firms creation and origins around the world their organization strategies and business models as well as the role of innovation systems and institutions in their formation and growth This comprehensive research text is vital reading for academics researchers and students of high tech and knowledge intensive entrepreneurship as well as those with an interest in industrial dynamics innovation management and public policy

Methodological Approaches for Workplace Research and Management Chiara Tagliaro, Marko Orel, Ying Hua, 2023-09-14 This book explores a wide range of methodological approaches to examining various forms of workplace physical environments It focuses on pressing questions regarding the relationship between the spatial component of the workplace including its progressive hybridisation with other physical and virtual places and its users be they public organisations private companies or start up businesses and solopreneurs International contributors address a range of methods that are applicable both in research and practice to confront the most cutting edge workplace related issues The assumption is that work has been changing thanks to the virtualisation of many activities and that homeworking and hybrid working modes are expected to increase significantly after Covid 19 Thus spaces hosting work need to adapt accordingly Researchers and practitioners have been struggling to determine how much space will be needed by companies what kind of space will better host different work activities which workers are more suited for working from home and which instead are more productive if they have an office based working arrangement The necessary evolution of the office should follow evidence based decisions on the abovementioned matters which are only possible through rigorous investigations This volume aims to support these investigations which call for inventive applications of qualitative and quantitative methodologies By doing so the book will

encourage solid practices and thorough research agendas in workplace design management and use Contributions come from different disciplines including facilities management real estate management psychology design architecture sociology and organisation studies Chapters highlight the importance of appropriate methodologies borrowed from different fields in addressing contemporary questions and developments in workplaces By analysing the challenges and opportunities for conducting rigorous research in different workplace settings this book will be critical reading for both academics and students as well as for decision makers and professionals who deal with workplace design and management The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
