Renaissance drama Kristin Phillips Court here explores how the intertextuality of major works of Italian dramatic literature is not only poetic but also figurative She argues that not only did the painterly gaze so prevalent in fifteenth and sixteenth century devotional art portraiture and visual allegory inform humanistic theories practices and themes it also led prominent Italian intellectuals to write visually evocative works of dramatic literature whose topical plots and structures provide only a fraction of their cultural significance Through a combination of interpretive literary criticism art historical analysis and cultural and intellectual historiography Phillips Court offers detailed readings of individual plays juxtaposed with specific developments and achievements in the realm of painting Revealing more than historical connections between artists and poets such as Tasso and Giorgione Mantegna and Trissino Michelangelo and Caro or Bruno and Caravaggio the author locates the history of Renaissance art and drama securely within the history of ideas She provides us with a story about the emergence and eventual disintegration of Italian Renaissance drama as a rigorously philosophical and empirical form Considering rhetorical philosophical ethical religious political ideological and aesthetic dimensions of each of the plays she treats Kristin Phillips Court draws our attention to the intermedial conversation between the theater and painting in a culture famously dominated by art Her integrated analysis of visual and dramatic works brings to light how the lines and verses of the text reveal an ongoing dialogue with visual art that was far richer and more intellectually engaged than we might

Reclaiming Rome: Cardinals in the Fifteenth Century Carol Mary Richardson,2009-03-25 The fifteenth century was a critical juncture for the College of Cardinals They were accused of prolonging the exile in Avignon and causing the schism At the councils at the beginning of the period their very existence was questioned They rebuilt their relationship with the popes by playing a fundamental part in reclaiming Rome when the papacy returned to its city in 1420 Because their careers were usually much longer than that of an individual pope the cardinals combined to form a much more effective force for restoring Rome In this book shifting focus from the popes to the cardinals sheds new light on a relatively unknown period for Renaissance art history and the history of Rome Dr Carol M Richardson has been awarded the Philip Leverhulme Prize 2008 in the field of History of Arts

"The Religious Patronage of the Duke of Lerma, 1598?621 " LisaA. Intimate Bonds Jennifer L. Palmer, 2016-08-31 Following the stories of families who built their lives and fortunes across the Atlantic Ocean *Intimate Bonds* explores how households anchored the French empire and shaped the meanings of race slavery and gender in the early modern period As race based slavery became entrenched in French laws all household members in the French Atlantic world regardless of their status gender or race negotiated increasingly stratified legal understandings of race and gender Through her focus on household relationships Jennifer L. Palmer reveals how intimacy not only led to the seemingly immutable hierarchies of the plantation system but also caused these hierarchies to collapse even before the age of Atlantic revolutions Placing families at the center of the French Atlantic world Palmer uses the concept of intimacy to illustrate how race gender and the law intersected to form a new worldview Through analysis of personal mercantile and legal relationships *Intimate Bonds* demonstrates that even in an era of intensifying racial stratification slave owners and slaves whites and people of color men and women all adapted creatively to growing barriers thus challenging the emerging paradigm of the nuclear family This engagingly written history reveals that personal choices and family strategies shaped larger cultural and legal shifts in the meanings of race slavery family patriarchy and colonialism itself

Rethinking the High Renaissance Jill Burke, 2017-07-05 The perception that the early sixteenth century saw a culmination of the Renaissance classical revival only to degrade into mannerism shortly after Raphael's death in 1520 has been extremely tenacious but many scholars agree that this tidy narrative is deeply problematic Exploring how we can reconceptualize the High Renaissance in a way that reflects how we research and teach today this volume complicates and deepens our understanding of artistic change Focusing on Rome the paradigmatic centre of the High Renaissance narrative each essay presents a case study of a particular aspect of the culture of the city in the early sixteenth century including new analyses of Raphael's stanze
