Democratic Discipline in Learning Communities Clifford H. Edwards, 2011-01-16 This book describes in detail the attributes of learning communities and how these characteristics help students acquire a sense of moral responsibility and commitment to fellow students Clifford H Edwards provides an account of how schools fail to satisfy student needs and thus promote discipline problems Special attention is given to children's need for self direction and how empowering them can promote more responsible learning involvement There is also a focus on the factors that motivate learning and those that do not and how teachers can help their students become more intrinsically interested in school learning Constructivist learning

theory is presented as the most accepted explanation of how children learn and how it articulates with the learning community approach to education The inquiry learning strategy is given as the most effective way to apply constructivist learning theory in classrooms Appropriate relationships and effective communications are presented as essential components of learning communities and how they accentuate the effectiveness of this learning orientation Democratic discipline within learning communities is described in detail

Classroom Discipline & Management Clifford H. Edwards, 2000 Reflecting the latest research into multicultural education this popular book helps future teachers choose the discipline models that best fit their personal values and educational philosophies Through illuminating narratives and case studies the author presents nine of the most effective discipline models including proven strategies for preventing and correcting disciplinary problems

Two Concepts of Rights and the Right to Education Yuan Zheng, 2025-09-17 Most rights theories hold that the same act of a person or group cannot be driven by both a right and a duty This book introduces the theory of initial rights and derived rights demonstrating that an act is often the result of both The key idea is that individuals and collectives have the right to fulfill their duty However general rights those people are born with do not originate from any duty meaning their choices are not dictated by duties As a result access to education is a right not a duty The theory of initial and derived rights can extend beyond education to explain broader social dynamics such as the relationship between government and citizens This book applies the theory to various contexts including children's education civic and moral education school student relationships and teacher student interactions It explores how absolute rights relate to general rights how the right to education connects to the right to establish private schools and how opportunities for choice are linked to rights While this is an abstract theoretical study it offers practical insights for schools and teachers The book will be of interest to researchers and students of rights theories and the philosophy of education as well as educators

Educational Change Clifford H. Edwards, 2011-01-16 Educational Change From Traditional Education to Learning Communities outlines the transition of curriculum and instruction as well as classroom discipline historically Various discipline approaches are described that vary in their applications in terms of the degree of teacher control and student self direction Various issues are identified which impact decorum in the schools in particular the No Child Left Behind Act and associated standardized testing The need for change in the schools is detailed along with the appropriateness of moving from traditional classroom instruction to democratic discipline as applied in learning communities The nature of classroom discipline is described in connection with specific components of learning communities When learning communities are employed in school the leadership structures needs to be changed The nature of relationships between school learning communities and communities outside the school are also described This book explains how the learning community approach to education can be successfully implemented with the modifications that will be required of both teachers and students in making associated changes

From Martyrs to Murderers Robert L. Dahlgren, 2017-04-13 In From Martyrs to Murderers the author explores the connections between the

dark unflattering representations of public schools teachers and teaching in popular Hollywood films and the conservative attacks on public education that have culminated in a generation of neo liberal standards reform measures The author s analysis is based on a survey of 60 movies that feature significant interactions between public school teachers and their students This study employed a textual analysis method involving viewing the films alongside original script material which reveals that the narratives involving public schools during the late 20th century and early 21st century are distinct from those involving other types of schools or eras Rather than the romantic figures of earlier portraits such as Eve Arden s beloved Our Miss Brooks in the 1940s and 1950s radio and television serial these teachers are consistently portrayed as negative archetypes thus providing a rationale for the school reform agenda of the 1980s The sheer repetition of these damaging images in Hollywood products of the period made the American public more susceptible to the deceptive arguments outlined in A Nation at Risk the seminal 1983 report that provided the blueprint for the standards reform movement that has dominated education policy for the past generation This work thus develops upon the critical perspectives of educational historians and social studies educators who have probed this turning point in the history of American schooling It also offers an alternative means of viewing the reality of life in the nation s public institutions

Classroom Teaching Skills Susan R. Goldman, James Michael Cooper, 2006 Designed for beginning teachers this text introduces the teacher as reflective decision maker responsible for planning implementing evaluating and making management decisions in the classroom Each chapter considers a particular teaching skill first discussing the theory behind it and then presenting the reader with practice situations in which knowledge about the skill can be applied and evaluated The Eighth Edition continues to address the importance of core INTASC standards and highlights developing issues including the Digital Divide the use of personal digital assistants PDAs in and outside of the classroom cooperative learning and dealing with behavioral issues Core INTASC standards are addressed in regard to each chapter s objectives A correlation table between chapter and standard is located on the inside front cover of the text to facilitate documentation of where and how INTASC standards are addressed New Marginal notations appear throughout the text to call out key concepts and assist students with comprehension and review New Two color design helps to organize the information more clearly for students Chapter 10 focuses on assessment and includes extended discussion of rubrics with additional examples as well as a new section on electronic portfolios Chapter 9 has been revised to include a focus on cooperative learning and other strategies brought back from the Sixth Edition of Classroom Teaching Skills Chapter 8 focuses on issues of behavior management in the classroom including parental involvement and the role of record keeping in resolving behavioral issues Chapter 7 Teaching and Learning with Technology has been completely updated Among the topics covered are the Digital Divide using personal digital assistants in and outside of the classroom micro media and simulation technology and new productivity tools for teachers The opening chapters have an increased emphasis on decision making teaching models and determining one s own

teaching goals **Teaching in the Middle and Secondary Schools** Joseph F. Callahan, Leonard H.
