Critical Discourse Studies in Context and Cognition

Christopher Hart, 2011-08-17 Critical Discourse Studies CDS is an exciting research enterprise in which scholars are concerned with the discursive reproduction of power and inequality However researchers in CDS are increasingly recognising the need to investigate the cognitive dimensions of discourse and context if they want to fully account for any connection between language legitimisation and social action This book presents a collection of papers in CDS concerned with various ideological discourses Analyses are firmly rooted in linguistics and cognition constitutes a major focus of attention The chapters which are written by prominent researchers in CDS come from a broad range of theoretical perspectives spanning pragmatics cognitive psychology and cognitive linguistics The book is essential reading for anyone working at the cutting edge of CDS and especially for those wishing to explore the central place that cognition must surely hold in the relationship between discourse and society

Critical Discourse Analysis and Language Cognition

Discourse, Grammar and Ideology

Christopher Hart, 2014-10-23 Researchers in critical discourse analysis CDA have often pointed to grammar as a locus of ideology in discourse This book illustrates the role that grammars as models of language and image can play in revealing ideological properties of texts and discourse in social and political contexts The book takes the reader through three distinct grammatical frameworks functional grammar multimodal grammar and cognitive grammar Using examples taken from a range of discourses relating to globalisation including discourses of immigration war corporate practice and political protests the book demonstrates the individual utility and the interconnectedness of these models inside CDA A key argument advanced is that the cognitive processes necessarily involved in making sense of language are based in visual experience This position offers new ways of understanding the ideological effects of grammatical choices in texts and suggests a reassessment of the relationship between linguistic and multimodal grammars in CDA The book will appeal to students and
