Handbook of Research on Promoting Social Justice for Immigrants and Refugees Through Active Citizenship and Intercultural Education Barreto, Isabel María Gómez, 2021-06-11 Migration movements have been a constant in the societies of the past as well as in postmodern society However in the past ten years the increase in political economic and religious conflict amongst nations the increase of the poverty index and many and various natural disasters

have duplicated the forced displacement of millions of people across the seven continents of the planet. This situation brings important challenges in terms of the vulnerability, inequity and discrimination that certain peoples suffer. Professionals from the fields of the social sciences, education, psychology and international law share the fact that education represents an opportunity for children and young migrants to become members with full rights in the societies they arrive in. Empirical studies show that the implementation of the right to education for migrants presents some challenges and dilemmas to the governments of host countries and more specifically to the education centers, NGOs, universities and the professionals working in them, hence the need for more research on these issues of immigration, refugees, social justice and intercultural education. The Handbook of Research on Promoting Social Justice for Immigrants and Refugees Through Active Citizenship and Intercultural Education provides visibility to issues such as the increase in migration and displacement and the difficulties in political agreements, educational contexts and in cultural issues, stigmatization, vulnerability, social exclusion, racism and hatred amongst host communities. This book gives possible solutions to this current complex situation and helps foster and promote sensitivity, perspective and critical thinking for a respectful and tolerant coexistence and promotion of equity and social justice. The chapters promote cultural diversity and inclusion in classrooms by offering knowledge, strategies and research on organizational development for educational institutions and multicultural environments. This book is essential for administrators, policymakers, leaders, teachers, practitioners, researchers, academicians and students interested in the promotion of social justice in education for immigrants and refugees.

Hybrid Learning
 Philip Tsang, Simon K.S. Cheung, Victor S.K. Lee, Ronghuai Huang, 2010-08-12. The Third International Conference on Hybrid Learning (ICHL 2010) was organized by the School of Continuing and Professional Studies of The Chinese University of Hong Kong, Beijing Normal University, Goethe Institut China, Caritas Francis Hsu College and Caritas Bianchi College of Careers. ICHL 2010 provided a platform for knowledge exchange on hybrid learning among educators, researchers and computer scientists who share a common goal to enhance the quality of learning and teaching in this fast-changing knowledge world with the support of technology innovation. Hybrid learning has been an ongoing trend for a number of years. It is not merely a simple combination of face-to-face and technology-mediated instruction but also encompasses different learning strategies for teaching and learning. It places emphasis on outcome-based teaching and learning and provides a diversified learning

environment Hybrid learning is probably the most efficient learning mode in the present age of globalization when learning has to be borderless and dynamic in order to address the diverse learning needs of students Students are given more opportunities to develop into active independent learners and to practice practical skills for work and study It was our pleasure to have three keynote speakers for the ICHL 2010 They were Rebecca Launer from Goethe Institut Germany Bebo White from Stanford University and Yan Ji Chang from Tsinghua University all of whom shared with us their valuable insights in the hybrid learning field
