Case studies help you determine nutritional interventions in treating both acute and chronic conditions. Written by nutrition specialists Joyce Gilbert and Eleanor D. Schlenker, this book includes the latest advances in research and evidence-based practice. Strong community focus includes robust coverage of health promotion, cultural competence, patient safety, lifespan, and public health issues. Person-centered approach helps you develop practical solutions to individual problems based on the authors' personal research and clinical experience. MyPlate for Older Adults is included as developed by nutrition scientists at Tufts University and the AARP Foundation, along with the Nestlé Mini Nutritional Assessment Scale. Health Promotion sections help you with nutrition education, stressing healthy lifestyle choices and prevention as the best medicine. Case studies provide opportunities for problem solving, allowing you to apply concepts to practical situations in nutrition care. Evidence-Based Practice boxes emphasize critical thinking and summarize current research findings. Focus on Culture boxes highlight cultural competence and the nutritional deficiencies, health problems, and appropriate interventions relating to different cultural, ethnic, racial, and age groups. Focus on Food Safety boxes alert you to food safety issues related to a particular nutrient, population group, or medical condition. Complementary and Alternative Medicine boxes offer uses, contraindications, and advantages/disadvantages of common types of herbs and supplements and potential interactions with prescription or over-the-counter medications.
