another decade and emphasizes diversity with insight from new contributors Paul L Anderson and Cornell Thomas A TCP Books title *Reaching People Under 40 while Keeping People over 60* Edward H Hammett, 2007-02-01 Many established churches are facing a number of challenges in today's increasingly secular culture. Such a shift in many communities creates a challenge of church growth and church health when it seems that satisfying the needs of one group creates barriers to reaching another group. So many are asking: How do you keep people over sixty years of age who often hold church culture values while at the same time reach people under forty who often hold postmodern values? If a church is interested in growing, this situation becomes a major challenge. *Reaching People under 40 while Keeping People over 60* looks at the church as it seeks to function in a new world. It looks at the differences in the generations and at postmodernism not just a generational difference but a global change. Most importantly, *Reaching People under 40 while Keeping People over 60* looks at what a church can do in this new age to help the church survive and thrive. Foreword by Bill Easum. A TCP Leadership Series title.

Racial Justice in the Age of Obama Roy L. Brooks, 2009-08-03. How America can achieve greater racial equality in the post civil rights era. With the election of Barack Obama as the first black president of the United States the issue of racial justice in America occupies center stage. Have black Americans finally achieved racial justice? Is government intervention no longer required? *Racial Justice in the Age of Obama* considers contemporary civil rights questions and theories and offers fresh insights and effective remedies for race issues in America today. While there are now unprecedented opportunities for talented African Americans, Roy Brooks shows that lingering deficiencies remain within the black community. Exploring solutions to these social ills, Brooks identifies competing civil rights theories and perspectives, organizing them into four distinct categories: traditionalism, reformism, limited separation, and critical race theory. After examining each approach, Brooks constructs the best civil rights theory for the Obama phase of the post civil rights era. Brooks supports his theoretical model with strong statistics that break down the major racial groups along such demographics as income and education. He factors in the cultural and structural explanations for the nation's racial divisions and he addresses affirmative action, the failures of integration, the negative aspects of black urban culture, and the black community's limited access to resources. The book focuses on African Americans but its lessons are relevant for other groups including Latinos, Asians, women, and gays and lesbians. *Racial Justice in the Age of Obama* maps out today's civil rights questions so that all groups can achieve equality at a time of unprecedented historical change.
