Jones and Sufrin's EU Competition Law Alison Jones, B. E. Sufrin, Niamh Dunne, 2023 The Impact of the Damages Directive on the Enforcement

of EU Competition Law Kirst, Philipp, 2021-12-09 This cutting edge book provides a thorough analysis of the transposition of the rules of the EU Damages Directive examining their impact on the enforcement of competition law and the victim's right to full compensation It also studies the possible consequences of an anticipated rise in civil damages actions in Europe and how this in turn may alter the effectiveness of the enforcement system The Availability of Spatial and Environmental Data in the European Union Katleen Janssen, 2010-01-01 Because the original and essential value of spatial data data that refer to specific geographical locations or areas lies in environmental decision making such data mostly originate in the public sector and are made available to people Availability of Spatial and Environmental Data in the European Union Cristos Velasco San Martín, 2010-07-09 The Availability of Spatial and Environmental Data in the European Union **Competition Law in the ASEAN Countries** Ploykaew Porananond, 2018-06-22 Amongst other regional organisations the Association of Southeast Asian Nations ASEAN stands out for the diversity of its ten Member States stemming from their respective economic and political heritage governance systems legal institutions stages of economic development and exposure to or reliance on foreign trade and investments As of 2017 however the regional bloc has formalised its focus on economic integration and development of a regional competition law Challenging this vision are the States very different national competition law systems ongoing problems with governmental intervention in the economy and lack of effective and efficient corruption free regulatory and juridical infrastructure This book the first detailed analysis of competition law in the ASEAN countries looks at the prospects of implementation for the regional law and compares the existing systems in each Member State Opening with a thorough description of the composition and organisation of the ASEAN the analysis proceeds to an in depth evaluation of such aspects as the following persistence of the ASEAN's traditional mode of dispute resolution often referred to as the ASEAN Way economic challenges posed by intra regional growth and globalisation the strong relationship between the business and government sectors and governmental interventions as cultural practices There is detailed reference throughout to case law legislation institutional announcements relevant treaties and literature on both the ASEAN and competition law As an important critical analysis of this major new regional competition law regime this book will be welcomed by competition law practitioners multinational corporation counsel and jurists officials and academics in a variety of legal fields Although the subject is specifically the ASEAN the analysis contributes to a better understanding of competition law regimes in developing economies and to the more general literature on global competition law A comparative analysis of EU and US transnational mergers regulation Dimitris Liakopoulos, 2017-12-22 Document from the year 2017 in the subject Law Civil Private Trade Anti Trust Law Business Law grade A language English abstract The major problem associated with the regulation of transnational mergers which affect several national markets is the allocation of jurisdiction Each country concerned may wish to exert jurisdiction and apply its national competition law to regulate the anti competitive effects a merger may have in its territory However this approach may lead to risks of inconsistent decisions

regarding the legality of mergers Indeed the national competition laws applied by the regulating authorities may diverge in several aspects which raise the likelihood of inconsistency The authors advocates the creation of an international merger control framework IMCF for the regulation of transnational mergers This framework will rest on an informal and a formal pillar The former includes non legally binding competition principles Consistency of these principles with the concepts of legitimacy and efficiency as well as the presence of peer reviews and assistance programmes should lower the risk of non implementation The formal pillar includes bilateral cooperation agreements which apply to merger affecting the countries which have concluded the agreements As essential pre condition for the application of bilateral agreements the level of cooperation achieved by such agreements should be at least equal to that ensured by the informal pillar The last part of the study addresses and examines the long and complex processes in merger and acquisition M A transactions M A arbitration faces certain difficulties during the transaction Such difficulties the author seeks to underline Two main problems of arbitration in M A transactions particularly have been covered Firstly the problem of consent in consolidation of parallel proceedings during M A transactions and secondly parties consent that validate arbitration agreements clauses in assignment or succession after M A transactions have been completed The author also tries to clarify the content of consent of parties to a transaction Finally a criticism of parallel proceedings is enhanced

Review of the Legal and Institutional Framework for Market Competition in Ethiopia ,2009 **Texas Intellectual Property Law Journal** ,2014 The Boundaries of EC Competition Law Okeoghene Odudu,2006 This monograph addresses two problems surrounding the interpretation and application of Article 81 of the EC Treaty what is competition and how does Article 81 ensure that competition is protected After over 40 years of application and a period of modernisation decentralisation and reflection it is possible to understand Article 81 and what it seeks to achieve The monograph s aim is to reveal the intellectual order and rational structure underlying the law so as to enable the reader to understand Article 81 in a clear and rigorous manner This is done by breaking Article 81 down into its constituent elements and examining the function that each element serves Arguing that jurisdiction rests on a public private distinction both the substantive and the justificatory rules are cast to generate obligations appropriate for private actors to perform Actors and activities falling within the scope of Article 81 are subject to the substantive element prohibiting contrived reductions in output Since output reduction can co exist with cost reduction innovation and that these latter features are desirable cost reduction and innovation operate to justify infringement of the substantive obligation Thus this monograph argues that output cost and innovation are the only legitimate issues in an Article 81 analysis It is in this sense that the monograph is concerned with the boundaries of Article 81 EC
