books to children at home or in the classroom with a forward by renowned children's author Judy Blume. Books matter. The American Library Association, an intellectual freedom champion, has created this illuminating and expansive guide for book lovers who hope to teach children the importance of banned literature. With a focus on modern books that have been banned along with classic literature that continues to be under attack for political or religious reasons, *Teaching Banned Books to Kids* will educate adults and children about the importance of books. First Opinions, Second Reactions Janet Alsop, Christy Wessel-Powell, 2025-07-01. *First Opinions, Second Reactions: A Collection of Innovative Online Reviews of Literature for Children and Young Adults* features selected pieces from the journal *First Opinions, Second Reactions*, which reviews children's and young adult books. The journal and this book consist of reviews of books written by scholars of children's and YA literature, followed up with responses from those who share the books with their intended audiences: children and teens. The editors have selected twelve issues classified under four thematic categories: social and political issues, diversity and inclusion, identification and empathy, and genre study, to represent the depth and breadth of publication since the journal's founding. Also included are ideas for classroom activities that engage with these works.

Exploring Identity Development and Self Leilya A. Pitre, Mike P. Cook, 2021-02-15. This book offers readers opportunities to explore the most common universal themes taught in secondary English Language Arts classrooms using contemporary young adult literature. Authors discuss adolescence and adolescent readers' young adult literature and its possibilities in the classroom and ways to teach thematic analysis. The book provides context, traditional approaches to teaching, and examples of thematic explorations of each of the chosen themes. Chapters include developed teaching/instructional units to study three universal themes: a journey of self-discovery, good vs. bad, right vs. wrong, and making difficult choices and developing positive self-perception. Each instructional unit includes rationale, essential questions, and objectives, calendar plans for up to six weeks, examples of introductory reading and discussing, and enrichment activities and assessments. The activities target academic skills for ELA curricula and create safe spaces for exploring topics of identity, struggles, and personal growth complicated by social issues, all of which adolescents face today. Each instructional chapter suggests a wide range of additional texts and resources for theme explorations.
