Alone Together Wikis:

Wiki at War James Jay Carafano, 2012 In Wiki at War James Jay Carafano explains why these and other Internet born initiatives matter and how they are likely to affect the future face of war diplomacy and domestic politics *All Brain and No Soul?* Robert A. Hunt, 2025-02-24 All Brain and No Soul Real Humanity in an AI Age explores the profound shifts in human identity and understanding in the context of historical scientific and technological revolutions particularly the rise of artificial intelligence Beginning with the author's personal reflections on chaos and order in a changing world it delves into humanity's displacement from the cosmic center through the Copernican Revolution the evolution of modern science and the redefining of intelligence and sentience The narrative examines humanity's role within an expanding indifferent universe and the implications of Darwin's theories on our relationship with nature and other species It interrogates how technological advancements like AI and brain computer interfaces reshape human self perception and blur boundaries between machines and humans The book highlights the dangers of abstracting humanity into algorithms and idealized digital personas Through a lens of history religion and philosophy the author raises questions about what it means to be human in a world increasingly mediated by screens algorithms and artificial intelligences urging readers to reflect on the balance between technological progress and retaining authentic human connections Encyclopedia of Cyber Behavior Yan, Zheng, 2012-03-31 This book offers a complete look into the field of cyber behavior surveying case studies research frameworks techniques technologies and future developments relating to the way people interact and behave online Provided by publisher *Pet Nation* Mark Cushing, 2021-09-21 Now in paperback and with an update about pets during COVID In the last 20 years pets have gone from the backyard to sleeping on our beds then showing up in every corner of America Pet Nation tells the story of this seismic shift and the economic media legal political and social dramas springing from this cultural transformation Since 1998 the pet population in the U S has almost doubled about two thirds of the country now owns a pet No longer left to wander the neighborhood dogs and cats eat special food get individualized medical attention and even fly in the cabin As founder of the Animal Policy Group Mark Cushing provides an inside look at the rise of Pet Nation tracking the myriad ways pets are acquired a Canine Freedom Train runs south to north reporting on pet rights legislation and the unseen problems that come with elevating their status pet healthcare revealing the truth and myths about large scale breeders and discovering that despite what many organizations would have us believe there is a shortage of dogs Insightful surprising and full of great stories Pet Nation opens our eyes to the big changes happening in front of us right now It shows us not only what our love of animals says about pets it shows us what it says about ourselves **Information Ethics, Globalization and Citizenship** Toni Samek, Lynette Shultz, 2017-03-22 The boundaries of citizenship have been blurred by global information systems while the public and private spheres have been reshaped through globalization and colonialism and capitalism This collection of new essays explores information and citizenship in the digital age from a range of perspectives presenting cautionary tales

along with possibilities for decolonizing digital information and literacy Topics include Wikileaks and the dissolution of information ethical issues for teachers policy makers and librarians and creating safe spaces through ethical librarianship

Computers and Society Ronald M. Baecker, 2019-04-24 The last century has seen enormous leaps in the development of digital technologies and most aspects of modern life have changed significantly with their widespread availability and use Technology at various scales supercomputers corporate networks desktop and laptop computers the internet tablets mobile phones and processors that are hidden in everyday devices and are so small you can barely see them with the naked eye all pervade our world in a major way Computers and Society Modern Perspectives is a wide ranging and comprehensive textbook that critically assesses the global technical achievements in digital technologies and how they are applied in media education and learning medicine and health free speech democracy and government and war and peace Ronald M Baecker reviews critical ethical issues raised by computers such as digital inclusion security safety privacy automation and work and discusses social political and ethical controversies and choices now faced by society Particular attention is paid to new and exciting developments in artificial intelligence and machine learning and the issues that have arisen from our complex relationship with AI

How the era of digitalization creates alternative lifestyles](#) Lisa-Marie Wagner,2020-06-18 Bachelor Thesis from the year 2020 in the subject Business economics Business Management Corporate Governance grade 1 6 language English abstract In this paper the phenomenon of digital nomadism in permanent employment is presented In general digital nomads are characterized by their independence of location their employment in the digital space and common values Most of them are freelancers and entrepreneurs but also employees who are part of this movement want to leave the conservative concept of normal employment and break new ground First the changes in the business world and the emergence of digital nomadism were presented in this paper Due to a

lack of literature guideline based expert interviews were conducted to gain insight into the opportunities and risks of the multi local lifestyle concept for employees and companies In addition the framework conditions for companies and digital nomads required by this work and life concept were examined and presented in detail Such a framework condition can mean for example the adaptation of processes and leadership There are also differences between completely remote companies and only partially remote companies which can lead to a split company structure In this context the similarities and differences between traditional telework and digital nomadism in permanent employment were also examined These are similar for example regarding the technical prerequisites that should be created in companies and the changed communication In addition there are challenges and opportunities that arise from the travel component and the nature of digital nomadism such as negatively impaired processes due to time differences or certain characteristics and experiences that digital nomads possess or experience that can be used positively in a professional context Thus this work not only serves a scientific purpose but also provides a practical framework for employing digital nomads in traditional companies *PC Magazine* ,2003
