The Microbook Library of American Civilization Library Resources, inc,1971 **American Book Publishing Record** ,1999 **The Microbook Library of American Civilization: Subject catalog** Library Resources, inc,1972 *The South American Handbook* ,1928 *Remaking Indigeneity in the Amazon* Esteban Roza,2023-09-28 Drawing on archival and ethnographic work this book analyzes how indigeneity Christianity and state making became intertwined in the Colombian Amazon throughout the 20th century At the end of the 19th century the state gave Catholic missionaries tutelage over Indigenous groups and their territories but in the case of the Colombian Amazon this tutelage was challenged by evangelical missionaries that arrived in the region in the 1940s with different ideas of civilization and social change Indigenous conversion to evangelical Christianity caused frictions with other actors while Indigenous groups perceived conversion as way of leverage with settlers This book shows how evangelical Christianity shaped new forms of indigeneity that did not coincide entirely with the ideas of civilization or development that Catholic missionaries and the state promoted in the region Since the 1960s the state adapted development policies and programs to Indigenous realities and practices while Indigenous

societies appropriated evangelical Christianity in order to navigate the changes brought on by colonization modernity and state formation This study demonstrates that not all projects of civilization were the same in Amazonia nor was missionization of Indigenous groups always subordinate to the state or resource extraction Travel, Research and Teaching in Guatemala and Mexico Mark Curran, 2013-05-08 This book is entitled Travel Research and Teaching in Guatemala and Mexico In Search of the Pre Columbian Heritage volume II Mexico This book in its totality of two volumes has various facets it is comprised of anecdotes and thoughts on travel research and teaching in Guatemala Honduras and Mexico from 1962 to 2000 it is a reflection on important topics and concepts of pre Columbian culture and finally it is a summary of classroom guidelines and Professor Curran s notes on a major work on the civilizations of pre Columbian Guatemala Honduras and Mexico and important documentary films on the same Volume II treats Mexico An introduction and overview of the sites in Mexico is seen in text and photos from the Museo de Antropología e Historia in Mexico City the best of its kind Again volume II treats modern urban cities and rural towns near the pre Columbian sites Mexico City Oaxaca San Cristóbal de las Casas and Mérida in the Yucatán The well known pre Columbian sites in volume II are Teotihuacán Monte Albán Mitla Palenque Uxmal Chichén Itz and Tulum The book is richly illustrated with black and white travel photos by Curran

American/Medieval Gillian R. Overing, Ulrike Wiethaus, 2016-10-10 This volume offers a dialogue with and through the medieval informed by cultural categories of performativity and simultaneity in on line media architecture film poetry and social formations The articles depart from Medievalism Studies and attempt to answer questions such as How do medievalists artists writers and entertainment industries communicate replicate and evoke medieval formations How do national and transnational discursive fields relate to understandings of the medieval in its many unstable states Where are the communal memory sites and what functions do they serve for those who are associated with them Where are the medieval disjunctions and conjunctions of race ethnicity and time in a settler society And what do place nature and landscape have to do with it Along the Andes and Down the Amazon John Augustine Zahm, 1912 Underdeveloping the Amazon Stephen G. Bunker, 1988 Underdeveloping the Amazon shows how different extractive economies have periodically enriched various dominant classes but progressively impoverished the entire region by disrupting both the Amazon Basin s ecology and human communities Contending that traditional models of development based almost exclusively on the European and American experience of industrial production cannot apply to a regional economy founded on extraction Stephen G Bunker proposes a new model based on the use and depletion of energy values in natural resources as the key to understanding the disruptive forces at work in the Basin *Understanding American Icons* Arthur Asa Berger, 2016-06-16 This brief student friendly introduction to the study of semiotics uses examples from 25 iconic locations in the United States From Coney Island to Las Vegas the World Trade Center to the Grand Canyon Berger shows how semiotics offers a different lens in understanding locations taken for granted in American culture He recasts Disneyland according to Freud channels the Mall

of America through Baudrillard and sees Mount Rushmore through the lens of Gramsci A seasoned author of student texts Berger offers an entertaining non threatening way to teach theory to undergraduates and that will fit ideally in classes on cultural studies American studies social theory and tourism American Book Publishing Record Cumulative, 1876-1949 R.R.
