A Long Goodbye Artemy M. Kalinovsky, 2011-05-16 Chronicles the Soviet Union's nine year struggle to extricate itself from Afghanistan in the 1980s and compares it to the challenges the United States may face in withdrawing from the region

Journeys Exposed Giorgia Alù, 2018-09-03 Journeys Exposed Women's Writing Photography and Mobility examines contemporary literature written by women that are all in different ways related to Italy It argues that photography provides women with a means to expose aspects of their nomadic self and of the others' mobile lives within and beyond the writing process By resorting to the visual women individualistically respond to forms of hegemonic power fragmentation

displacement loss and marginality and make these experiences key to their creative production *Soviet Russia and Tibet* Alexandre Andreyev, 2021-11-22 This is the first investigation into the little known Bolshevik foreign ministry's strenuous efforts to win Lhasa over to the Soviet cause in the 1920s Examining the history of relations between Russia tsarist Soviet and post Soviet and Tibet from the 17th century to the 1990s the author puts at the core of his narrative the previously unknown story of clandestine negotiations between the Soviet government and the 13th Dalai Lama forming part of Moscow's bitter struggle against British imperialism in Asia The book provides insight into Soviet secret diplomacy and draws important conclusions relating to the history of Anglo Russian competition for Tibet and Tibet's status prior to 1951 **A**

Slow Reckoning Vassily Klimentov, 2024-02-15 A Slow Reckoning examines the Soviet Union's and the Afghan communists' views of and policies toward Islam and Islamism during the Soviet Afghan War 1979-1989 As Vassily Klimentov demonstrates the Soviet and communist Afghan disregard for Islam was telling of the overall communist approach to reforming Afghanistan and helps explain the failure of their modernization project A Slow Reckoning reveals how during most of the conflict Babrak Karmal the ruler installed by the Soviets instrumentalized Islam in support of his rule while retaining a Marxist Leninist platform Similarly the Soviets at all levels failed to give Islam its due importance as communist ideology and military considerations dominated their decision making This approach to Islam only changed after Mikhail Gorbachev replaced Karmal by Mohammad Najibullah and prepared to withdraw Soviet forces Discarding Marxism Leninism for Islam proved the correct approach but it came too late to salvage the Soviet nation building project A Slow Reckoning also shows how Soviet leaders only started seriously paying attention to an Islamist threat from Afghanistan to Central Asia after 1986 While the Soviets had concerns related to Islamism in 1979 only the KGB believed the threat to be potent The Soviet elites never fully conceptualized Islamism continuing to see it as an ideology the United States Iran or Pakistan could instrumentalize at will They believed the Islamists had little agency and that their retrograde ideology could not find massive appeal among progressive Soviet Muslims In this they were only partly right **Afgantsy** Rodric Braithwaite, 2011-09-06

First published in Great Britain in 2011 by Profile Books T p verso *Russian Literature, 1988-1994* Norman N.

Shneidman, 1995-12-15 The collapse of the Soviet Union brought about radical changes in the Russian literary world With the

state's relinquishment of control over literary production writers acquired freedom of expression and publication State publishing houses now self-supporting enterprises stopped printing money-losing books and turned to foreign detective novels and erotic literature effecting a considerable shift in popular taste The writer no longer a producer of ideology has been recast as a struggling competitor in a free market environment Focusing on the current Russian literary scene *Russian Literature 1988-1994* examines these recent changes Beginning with a general overview of the political intellectual and social atmosphere in the country and its effect on artistic creativity Shneidman surveys the period's literature He considers the work of succeeding generations of prose fiction writers the old guard the writers of the intermediate generation and the younger authors of perestroika whose works first appeared in print after Gorbachev's ascent to power The writing of this last group is divided into three categories novels written in the style of conventional Russian realism works that combine realistic prose with modernist narrative techniques and the body of work that constitutes Russian postmodernism Exploring artistic and social issues in an integrated manner the volume will be of interest not only to students of Russian literature but also to those concerned with the culture and social life of the former Soviet Union

Russian Military Thought Gudrun Persson, 2025-11-03 Novel insights into Russian military thought from the Crimean War to the war in Ukraine The development of the Russian military's strategic thought is an understudied and thus misunderstood subject in the West Strategy in Russia encompasses the broader context of foreign and domestic policy as well as the military's ties to the country's leadership The military's strategic thought is closely linked to Russia's existence as a state and explains patterns of Russian confrontation In *Russian Military Thought* the renowned scholar Gudrun Persson offers novel insights into Russian military thought on doctrine and strategy from the Crimean War to Russia's full-scale invasion of Ukraine Persson dismantles the simplistic notion that Russian military thought is backward instead presenting a deeper analysis of the drivers that influence the changes in Russian military strategy Through archival research based on Russian language sources Persson offers a multidisciplinary perspective drawing on theoretical insights from history and political science that enable her to make a nuanced qualitative analysis This book will be essential reading for practitioners scholars and students who seek to understand the mind-set of the current Russian leadership and the constraints that shape Russia's future possibilities
