Africa: Adventist Mission in Africa Gordon R. Doss, 2011 Africa, 2011 **Africa** Gordon R. Doss, 2011

Seventh-Day Adventism in Africa Gabriel Masfa, 2023-06-16 This book examines the complex history of Adventism in Africa situating it within the context of African traditions and culture. From a small movement with origins in the United States, the Seventh-day Adventist Church has grown worldwide. It is one of several Christian denominations present in Africa, and yet the history of Seventh-day Adventism in the global South has been largely unexplored by scholars. The book highlights the discrepancies between western traditions exhibited in the missionary enterprise and African religious systems. It also explores the intricate relation between colonialism and African Adventism in line with established studies in African Christianity. It will be of interest to scholars of religion and theology, particularly church history and mission studies, as well as African studies.

The Bible in Africa Gerald West, Musa Dube, 2021-10-01 Although the arrival of the Bible in Africa has often been a tale of terror, the Bible has become an African book. This volume explores the many ways in which Africans have made the Bible their own. The essays in this book offer a glimpse of the rich resources that constitute Africa's engagement with the Bible. Among the topics are the historical development of biblical interpretation in Africa, the relationship between African biblical scholarship and scholarship in the West, African resources for reading the Bible, the history and role of vernacular translation in particular African contexts, the ambiguity of the Bible in Africa, the power of the Bible as text and symbol, and the intersections between class, race, gender, and culture in African biblical interpretation. The book also contains an extensive bibliography of African biblical scholarship. In fact, it is one of the most comprehensive collections of African biblical scholarship available in print. This publication has also been published in paperback; please click here for details.

African Spirituality, Politics, and Knowledge Systems Toyin Falola, 2022-03-10 Focusing on the three leading religious traditions in Africa—African Traditional Religion, Islam, and Christianity—this book shows how belief in the supremacy of sacred words compels actions and influences practices in contemporary Africa. Sacred words are taken to mean holy texts, as in divination, the Quran, and the Bible. Toyin Falola evaluates how religious leaders engage with sacred words, both orally and in texts, engendering practices that reveal the expression of religious beliefs, the impact of those beliefs, and the knowledge contained in them. Attention is given to the key ideas in the words chosen by religious leaders and how they form a continuous knowledge system impacting the politics of managing society and people.

Religion and Development in Africa Ezra Chitando, Masiwa Ragies Gunda, Lovemore Togarasei, 2020-06-09 What is development? Who defines that one community/country is developed while another community/country is underdeveloped? What is the relationship between religion and development? Does religion contribute to development or underdevelopment in Africa? These and related questions elicit quite charged reactions in African studies.

development studies political science and related fields Africa's own history including the memory of marginalisation slavery and exploitation by global powers ensures that virtually every discussion on development is characterised by a lot of emotions and conflicting views In this volume scholars from various African countries and many different religions and denominations contribute to this debate

Missionaries and the Colonial State David Whitehouse, 2022-08-12 Catholic and Protestant missionaries followed their own competing agendas rather than those of the colonial state This volume unravels these agendas and challenges received wisdom on the histories of Rwanda and Burundi as well as the colonial relationship between state and mission The archives of the White Fathers Catholic missionary order in Rome and Paris are read alongside primary sources produced by the British Protestant Church Missionary Society to analyse their impact between 1900 and 1972 in Rwanda and Burundi The colonial state was weaker than often assumed and permeable by external radical influences Denominational competition between Catholic and Protestant missionaries was a key motor of this radicalism The colonial state in both kingdoms was a weak reactive agent rather than a structuring form of power This volume shows that missionaries were more committed and influential actors but

their inability to manage the mass demand for the education that they sought and delivered finally undermined the achievement of their aims Missionaries and the Colonial State is a resource for historians of Christianity Belgian Africa specialists and scholars of colonialism **History of the Church in Namibia, 1805-1990** G.
