Agriculture Census 2010 11 Agricultural Census:

Agricultural Census, 2010-2011 N. Sridhara, Karnataka (India). Directorate of Economics and Statistics, Karnataka (India). State Agricultural Census Commissioner, 2012 **Farms, family farms, farmland distribution and farm labour: What do we know today?** Food and Agriculture Organization of the United Nations, 2019-11-22 A better and more complete understanding of family farms is urgently needed to guide policy makers efforts towards achieving a number of Sustainable Development Goals SDGs This paper takes stock of the number of farms worldwide and their distribution and that of farmland on the basis of agricultural censuses and survey data Thus it shows that there are more than 608 million farms in the world Rough estimates also indicate that more than 90 percent of these farms are family farms by our definition occupying around 70 80 percent of farmland and producing about 80 percent of the world s food in value terms We underscore the importance of not referring to family farms and small farms i e those of less than 2 hectares interchangeably the latter account for 84 percent of all farms worldwide but operate only around 12 percent of all agricultural land and produce roughly 36 percent of the world s food The largest 1 percent of farms in the world operate more than 70 percent of the world s farmland The stark differences between family farms in terms of size their share in farmland distribution and their patterns across income groups and regions make clear the importance of properly defining different types of farms and distinguishing their differences when engaging in policy discourse and decision making towards the SDGs The paper also considers evidence on labour and age provided by the censuses There is a need to improve agricultural censuses if we want to deepen our understanding of farms **Report on 9th Agricultural Census**, 2014 [Tribal Development Report](#) Mihir Shah, P.S. Vijayshankar, Bharat Rural Livelihoods Foundation, 2022-09-30 This book sheds light on the status of tribal communities in Central India with respect to livelihoods agriculture natural resources economy and migration Written by noted academics thematic experts and activists this first of its kind report by the Bharat Rural Livelihoods Foundation brings together case studies archival research and exhaustive data on key facets of the lives of Adivasis the various programs meant for their development and the policy and systems challenges to build a better understanding of the Adivasi predicament This volume Provides a broad overview of the contemporary macro economic situation of Adivasi communities with a special focus on the challenges of agriculture land energy and water use especially groundwater Highlights the need to move into a new paradigm of agro ecology based nature positive farming and sustainable water use driven by local institutions Examines the neglect faced by tribal areas in the development of infrastructure in various dimensions from irrigation to energy Shares insights on the invisibility of tribal voices in the policy processes and how political empowerment will enable socio economic changes for the Adivasis at grassroot levels Discusses the Adivasi informal sector and the state of migrant workers whose plight drew national attention during the recent Covid pandemic Companion to Tribal Development Report Human Development and Governance this book will be of great interest to scholars and researchers of indigenous studies

development studies and South Asian studies **Inclusive growth in Karnataka- Challenges in Poverty, Agriculture, Employment, and Social Sector Development** Prasanna Kumar P.S, Ranjith Kumar P.S, Prem Jose Vazhacharickal, The Indian growth story has been one of high Gross Domestic Product GDP growth but primarily driven by the growth in services sector Growth may be higher in the last two decades but inclusive growth or equitable development has been missing Inclusive growth thus seeks to broaden the flow of benefits of globalization towards the currently excluded sections Economic growth in Karnataka primarily driven by services 55 17% The Contribution of the industrial sector is smaller which contributes only 16 22 percent to overall growth compared to 30 20 percent at the All India level Economic growth particularly pro poor growth in terms of concentrating on agriculture and employment are important in order to reduce poverty However economic growth alone will not be sufficient to lift some people above poverty Despite achieving the MDG on poverty a large number of SC STs will remain poor even if the growth rate is hiked Karnataka economic growth may be improving but Karnataka is lagging behind southern states like Andhra Pradesh Tamil Nadu and Kerala Karnataka is need to operationalize a plan to accelerate growth in agriculture employment and social sector development and in reducing regional disparities for achieving inclusive growth during the 12th Five Year Plan period and beyond in Karnataka The action plan should cover the priority areas like agriculture employment and social sectors It should have a plan for removing economic and social deprivation across all regions **Annual Report** India. Populism and Power D. N. Dhanagare,2015-12-22 This book traces the entire trajectory of the farmers movement in Western India especially Maharashtra from the 1980s to the present day It reveals the fundamental contradictions between populism as an ideology and as political power within the democratic state structure The volume highlights the ideologies of the movement its emergence in the wake of a perceived agrarian crisis how it conflates economics and populism the role of leadership stages of development from grassroots agitations rooted in civil society to the attempts to create space within structures of democratic politics the eventual formation of a separate political party and consequent implications It maps the linkages between populist ideology and mass participation and their contested successes and failures in the domain of electoral politics Further the author underlines the effectiveness of the movement in addressing class and gender equations in the region Rich in primary archival sources and informed field studies this book will interest scholars and researchers of agrarian economy rural sociology and politics particularly those concerned with social movements in India

Development in Coastal Zones and Disaster Management Amita Singh,R. Lalitha S. Fernando,Nivedita P. Haran,2020-10-13 In the last two decades coastal regions have relatively endured some of the fiercest oceanic and geophysical disasters than the earlier decades Yet disaster management governance fails to match the human nonhuman and environmental calamity which is unfolding in its most frequent and unpredictable pattern Between the Asian Tsunami of 2004 to the devastating Chennai and Kerala floods of 2018 the socio industrial livelihood impact alerts governments towards a greater and more serious compliance to laws for coastal conservation The United Nations Office for Disaster Risk Reduction UNDRR in 2018 had shocking statistics to share as the deaths and damages related to only Tsunami disaster at the coasts to 251 770 and US 280 billions respectively in the last 20 years 1998 2017 as compared to 998 and US 2 7 billion in the previous 20 years 1978 1997 Coastal conservation is no more a question of casual governance but has

become a need for survival The region of South Asia which ranks much higher in its vulnerability weak resilience and relatively undersupplied governance structures ought to take this responsibility on a priority The spirit of Hyogu Declaration and the Sendai Framework for Action suggests preparedness and resilience building as key approach areas in coastal governance The book is incomparable in its holistic and transdisciplinary social science based approach to disaster management which links conservation of marine flora and fauna ecosystems and land management with decision making processes and coastal regulations These grass root findings from the subcontinent are substantiated by a section on the most powerful court battle on the Kerala Floods as a guideline for readers to discerningly identify an Act of God often used as a veil to hide lack of preparedness apathy and political greed This book becomes indispensable reading for anyone involved in research administration or any level of decision making for the mitigation and prevention of disasters New Challenges to Food Security Ian Christoplos,Adam Pain,2014-11-13 Food security is high on the political agenda Fears about societal insecurity due to food price increases and hunger grave scenarios regarding the effects of climate change and general uncertainty about the impacts of investments in biofuels and so call land grabbing on food prices and availability have meant that food security is now recognised as being a multifaceted challenge This book is unique in that it will bring together analyses of these different factors that impact on food security This volume will describe a range of different perspectives on food security with an emphasis on the various meanings that are applied to food security crisis The challenges to be reviewed include market volatility climate change and state fragility Analyses of responses to food security crises and risk will cover rural and urban contexts arenas of national policy formation and global food regimes and investment in land and productive technologies This book is unique in two respects First it takes a step back from the normative literature focused on specific factors of for example climate change agricultural production or market volatility to look instead at the dynamic interplay between these new challenges It helps readers to understand that food security is not one discourse but is rather related to how these different factors generate multiple risks and opportunities Second through the case studies the book particularly emphasises how these factors come together at local levels as farmers entrepreneurs consumers local government officials and others are making key decisions about what will be done to address food security and whose food security will be given priority The book will explore how food production and consumption is embedded in powerful political and market forces and how these influence local actions **Genetically Modified Democracy** Aniket Aga,2021-11-23 How the debate over genetically modified crops in India is transforming science and politics Genetically modified or transgenic crops are controversial across the world Advocates see such crops as crucial to feeding the world s growing population critics oppose them for pushing farmers deeper into ecological and economic distress and for shoring up the power of agribusinesses India leads the world in terms of the intensity of democratic engagement with transgenic crops Anthropologist Aniket Aga excavates the genealogy of conflicts of interest and disputes over truth that animate the ongoing debate in India around the

commercial release of transgenic food crops The debate may well transform agriculture and food irreversibly in a country already witness to widespread agrarian distress and over 300 000 suicides by farmers in the last two decades Aga illustrates how state science and agrarian capitalism interact in novel ways to transform how democracy is lived and understood and sheds light on the dynamics of technological change in populous unequal polities Groundwater Raya Marina Stephan, James E. Nickum, Philippus Wester, 2023-02-21 Groundwater is invisible but its impact is visible everywhere Everything around us relies on groundwater our drinking water and sanitation our food supply and our natural environment Yet because it is invisible information management and governance of groundwater is often poor and inadequate This book contributes to UN Water Groundwater year 2022 and to the effort of making the invisible visible Through worldwide case studies ranging from the Americas California Brazil to Asia India Iran Lao PDR Nepal Africa Malawi Tanzania South Africa and the MENA region Lebanon Morocco Yemen including cases of transboundary aquifers the chapters in this edited volume reflect important recent advances in interdisciplinary knowledge on the governance management practice and science policy interfaces of groundwater An insightful resource for researchers and planners in the field of environmental policies water laws climate change and groundwater governance this book comes with a new Introduction The other chapters were originally published in Water International *Special Report: 2024 FAO Crop and Food Supply Assessment Mission to the Federal Democratic Republic of Nepal* Food and Agriculture Organization of the United Nations, 2025-03-19 At the request of the government an FAO Crop and Food Supply Assessment Mission CFSAM visited the country from 17 to 30 November 2024 to estimate the 2024 crop production assess the impact of floods that occurred in July August and September identify other factors that influenced crop production analyse food market conditions and forecast cereals and pulses import requirements for the 2024 25 marketing year July June The Mission identified some measures to address the most urgent needs of farmers affected by climate hazards and to improve performance and resilience of the agricultural sector in line with the Agriculture Development Strategy ADS 2015 2035 In order to provide assistance to farmers affected by the floods and to strengthen agriculture resilience as well as to unlock agriculture growth potential the Mission recommends the implementation of a series of cost effective short and medium term measures aligned to the Ministry of Agriculture and Livestock Development s ADS 2015 2035 The ADS aims to transform the country from an increasingly net food importer to a net food exporter generating 0 5 percent trade surplus and to achieve an agriculture growth at a rate of 6 percent per year at the end of the policy period Multidisciplinary Research in Arts, Science & Commerce (Volume-21) Chief Editor- Biplab Audhya, Editor- Dr. Jay Prakash Rajak, Dr. Akheel Mohammed, Dr. (Mrs) Shirley Bless Agwuocha, Andriya Mallick, Dr. Sandip R.
