Narratives of Resistance Ana María Manzanás Calvo, Jesús Benito Sánchez, 1999 The articles included in this collection cover a wide range of literatures and topics but most of them address the ways in which ethnic writers create themselves in opposition and resistance to the mainstream These narratives of opposition and resistance do not equate protest narratives but represent a consciously subversive effort There is agency and creativity in the confrontation for the majority of these narratives are not only demystifying an old world and order but creating a new one there narratives are not reproducing as much as producing and forging culture and literature The articles we present resist not only the politics of traditional canon formation but the politics of cultural nationalism as well they challenge the margins as well as the center With this revisionist agenda the aim of this collection is to invite readers to further their rethinking of American and Caribbean literatures

Native Shakespeares Parmita Kapadia, 2016-04-22 Explored in this essay collection is how Shakespeare is rewritten reinscribed and translated to fit within the local tradition values and languages of the world's various communities and cultures Contributors show that Shakespeare regardless of the medium theater pedagogy or literary studies is commonly rooted in the local customs of a people in ways that challenge the notion that his drama promotes a Western idealism Native Shakespeares examines how the persistent indigenization of Shakespeare complicates the traditional vision of his work as a voice of Western culture and colonial hegemony The international range of the collection and the focus on indigenous practices distinguishes Native Shakespeares from other available texts

modern diplomacy to colonial cultures and the genres of Man that they privilege In an attempt to read the diplomatic from the African postcolony the book probes the injunction at the center of the law of genre that states that genres are not to be mixed This enables it to investigate the citational recitational forms of knowledge and practices of recognition that reproduce the diplomatic and colonial order of things in the African context Through a reading of literature philosophy and a multiplicity of everyday practices in Africa and its diasporas Sam Okoth Opondo explores amateur diplomatic practices that provide a counterforce to laws that prescribe faithfulness to a norm form while proscribing the mixing of genres Foreign Accents Aimara da Cunha Resende, Thomas LaBorie Burns, 2002 Foreign Accents is formed of two parts the first one offers analyses of translations interpretations appropriations of plays and sonnets in different processes of transmutation The second comprises texts that deal with more general critical readings Shakespeare is viewed in the light of gender studies of postmodernism and of comparative studies *Tempest II* Judith Illsley Gleason, 196? **The Dialectics of Our America** José David Saldívar, 1991-10-31 Joining the current debates in American literary history José David Saldívar offers a challenging new perspective on what constitutes not only the canon in American literature but also the notion of America itself His aim is the articulation of a fresh transgeographical conception of American culture one more responsive to the geographical ties and political crosscurrents of the hemisphere than to narrow national ideologies Saldívar pursues this goal through an array of oppositional critical and creative practices He analyzes a range of North American writers of color Rolando Hinojosa Gloria Anzaldúa Arturo Islas Ntozake Shange and others and Latin American authors José Martí Roberto Fernández Retamar Gabriel García Márquez and others whose work forms a radical critique of the dominant culture its politics and its restrictive modes of expression By doing so Saldívar opens the traditional American canon to a dialog with other voices not just the voices of national minorities but those of regional cultures different from the prevalent anglocentric model The Dialectics of Our America in its project to expand the canon and define a pan American literary tradition will make a critical difference in ongoing attempts to reconceptualize American literary history
