Aisthesis Scenes From The Aesthetic Regime Of Art Jacques Ranciere:

Aisthesis Jacques Rancière, 2013-06-04 The definitive statement on aesthetics and the history of modernism from one of France's most renowned philosophers Composed of a series of scenes that defined modernism Aisthesis takes its reader from Dresden in 1764 to New York in 1941 Along the way we view the Belvedere Torso with Winckelmann accompany Hegel to the museum and Mallarmé to the Folies Bergère attend a lecture by Emerson visit exhibitions in Paris and New York factories in Berlin and film sets in Moscow and Hollywood Rancière uses these sites and events to ask what becomes art and what comes from it This incisive study provides a history of artistic modernity far removed from the conventional postures of modernism

Understanding Rancière, Understanding Modernism Patrick M. Bray, 2017-03-23 The contemporary philosopher Jacques Rancière has become over the last two decades one of the most influential voices in philosophy political theory and literary art historical and film criticism His work reexamines the divisions that have defined our understanding of modernity such as art and politics representation and abstraction and literature and philosophy Working across these divisions he engages the historical roots of modernism at the end of the eighteenth century uncovering forgotten texts in the archive that trouble our notions of intellectual history The contributors to Understanding Rancière Understanding Modernism engage with the multiplicity of Rancière's thought through close readings of his texts through comparative readings with other philosophers and through an engagement with modernist works of art and literature The final section of the volume includes an extended glossary of the most important terms used by Rancière which will be a valuable resource for experts and students alike

Decolonial Aesthetics of Blackness in Contemporary Art Nkosinkulu, Zingisa, 2024-09-13 Decolonial aesthetics of Blackness in contemporary art challenge and redefine traditional narratives offering a profound critique of historical and ongoing injustices This approach emphasizes the reclamation and celebration of Black cultural identities through innovative artistic expressions that resist colonialist frameworks and oppressive stereotypes By emphasizing the experiences and perspectives of Black artists decolonial aesthetics challenge the power structures presented in art history and highlight the significance of autonomy representation and authenticity To advance this dialogue it is crucial to support and engage with Black artists and their work ensuring that their voices are amplified and their contributions are recognized within art discourse Decolonial Aesthetics of Blackness in Contemporary Art focuses on the generative audio and visual inscription of blackness as an offering of life and beauty in contemporary art It discusses the concept of blackness related to modernity decolonial aesthetics and ontology of black life and beauty This book covers topics such as decolonization visual art and sociology and is a useful resource for art historians visual artists sociologists academicians scientists and researchers

Rancière and Literature Grace Hellyer, 2016-06-01 These 13 essays consolidate and critique Rancière's work on literature from his archival investigations of the literary efforts of 19th century workers to his engagements with specific novelists and poets and from his concept of literarity to his central positioning of the novel in his account of the three regimes of literary

practice **On Interpretive Conflict** John Frow, 2019-08-09 Interpretation is a term that encompasses both the most esoteric and the most fundamental activities of our lives from analyzing medical images to the million ways we perceive other people's actions Today we also leave interpretation to the likes of web cookies social media algorithms and automated markets But as John Frow shows in this thoughtfully argued book there is much yet to do in clarifying how we understand the social organization of interpretation On Interpretive Conflict delves into four case studies where sharply different sets of values come into play gun control anti-Semitism the religious force of images and climate change In each case Frow lays out the way these controversies unfold within interpretive regimes that establish what counts as an interpretable object and the protocols of evidence and proof that should govern it Whether applied to a Shakespeare play or a Supreme Court case interpretation he argues is at once rule governed and inherently conflictual Ambitious and provocative On Interpretive Conflict will attract readers from across the humanities and beyond **The European Avant-Garde - A Hundred Years**

Later, 2024-01-08 The title of this book The European Avant Garde A Hundred Years Later implies the European avant garde took place a century ago that it is a thing of the past However it does not aim to consolidate this position but to question it It addresses temporality as the central dimension related to the notion of the avant garde The book brings forth original revisions of the theories of the avant garde the works of the avant garde the idea of the avant garde as being the vanguard the leading force of change It addresses the returning of the avant garde during the twentieth century and today

Interventions in Contemporary Thought Gabriel Rockhill, 2016-06-01 With a critical eye Gabriel Rockhill guides you through complex debates in history politics and aesthetics giving you an overview of key issues and central figures including Foucault Derrida Castoriadis Badiou and Ranciere Rockhill also engages in a nuanced exploration of recent work that calls into question the stereotype of prominent figures and intellectual movements Far from hiding behind towering figures of the intellectual world Rockhill stakes out positions in relationship to them and formulates precise arguments in favour of a new understanding of the historical relationship between art and politics **The Missed Encounter of Radical Philosophy**

with Architecture Nadir Lahiji, 2014-04-10 The Missed Encounter of Radical Philosophy with Architecture brings together a respected team of philosophers and architecture scholars to ask what impact architecture has over today's culture and society For three decades critical philosophy has been in discourse with architecture Yet following the recent radical turn in contemporary philosophy architecture's role in contemporary culture is rarely addressed In turn the architecture discourse in academia has remained ignorant of recent developments in radical philosophy Providing the first platform for a debate between critics architects and radical philosophers this unique collection unties these two schools of thought Contributors reason for or against the claim of the missed encounter between architecture and radical philosophy They discuss why our prominent critical philosophers devote stimulating writings to the ideological impact of arts on the contemporary culture music literature cinema opera theatre without attempting a similar comprehensive analysis of architecture By critically

evaluating recent philosophy in relation to contemporary architecture The Missed Encounter of Radical Philosophy with Architecture presents a thorough understanding of the new relationship between architecture and radical philosophy

Free Indirect Timothy Bewes, 2022-07-26 Everywhere today we are urged to connect Literary critics celebrate a new honesty in contemporary fiction or call for a return to realism Yet such rhetoric is strikingly reminiscent of earlier theorizations Two of the most famous injunctions of twentieth century writing E M Forster s Only connect and Fredric Jameson s Always historicize helped establish connection as the purpose of the novel and its reconstruction as the task of criticism But what if connection was not the novel s modus operandi but the defining aesthetic ideology of our era and its most monetizable commodity What kind of thought is left for the novel when all ideas are acceptable as long as they can be fitted to a consumer profile This book develops a new theory of the novel for the twenty first century In the works of writers such as J M Coetzee Rachel Cusk James Kelman W G Sebald and Zadie Smith Timothy Bewes identifies a mode of thought that he calls free indirect in which the novel s refusal of prevailing ideologies can be found It is not situated in a character or a narrator and does not take a subjective or perceptual form Far from heralding the arrival of a new literary genre this development represents the rediscovery of a quality that has been largely ignored by theorists thought at the limits of form Free Indirect contends that this self awakening of contemporary fiction represents the most promising solution to the problem of thought today

Intervening Spaces Nycole Prowse, 2018-05-07 Intervening Spaces examines the interconnectedness between bodies time and space the oscillating and at times political impact that occurs when bodies and space engage in non conventional ways Bodies intervene with space creating place Likewise space can reconceptualise notions of the subject body Such respatialisation does not occur in a temporal vacuum The moment can be more significant than a millennia in producing new ways to see corporeal connections with space Drawing on theorists as diverse as Foucault Deleuze Guattari Heidegger Merleau Ponty Lefebvre and Grosz temporal and spatial dichotomies are dissolved disrupted and interrupted via interventions revealing new ways of inhabiting space The volume crosses disciplines contributing to the fields of Sociology Literature Performance Arts Visual Arts Architecture and Urban Design Contributors are Burcu Baykan Pelin Dursun ebi Michelle Collins Christobel Kelly Anthi Kosma Ana Carolina Lima e Ferreira Katerina Mojanchevska Clementine Monro Katsuhiko Muramoto Nycole Prowse Shelley Smith Nicolai Stein and klim Topalo lu

Ranciere and Law Monica Lopez Lerma, Julen Etxabe, 2017-11-06 This book is the first to approach Jacques Ranci re s work from a legal perspective A former student of Louis Althusser Ranci re is one of the most important contemporary French philosophers of recent decades offering an original and path breaking way to think politics democracy and aesthetics Ranci re s work has received wide and increasing critical attention but no study exists so far that reflects on the wider implications of Ranci re for law and for socio legal studies Although Ranci re does not pay much specific attention to law and there is a strong temptation to identify law with what he terms the police order much of Ranci re s historical work highlights the creative potential of law and legal

language with important legal implications and ramifications So rather than excavate the Rancian corpus for isolated statements about the law this volume reverses such a method and asks what would a Rancian inspired legal theory look like Bringing together specialists and scholars in different areas of law critical theory and philosophy this rethinking of law and socio legal studies through Rancian provides an original and important engagement with a range of contemporary legal topics including constituent power and democracy legal subjectivity human rights practices of adjudication refugees the nomos of modernity and the sensory configurations of law It will then be of considerable interest to those working in these areas

Egalitarian Strangeness Edward J. Hughes, 2021-04-15 Shortlisted for the 2022 R Gapper book prize The formulation egalitarian strangeness is a direct borrowing from Courts voyages au pays du peuple Short Voyages to the Land of the People 1990 a collection of essays by the contemporary French thinker Jacques Rancian Perhaps best known for his theory of radical equality as set out in Le Maître ignorant The Ignorant Schoolmaster 1987 Rancian reflects on ways in which a hierarchical social order based on inequality can come to be unsettled In the democracy of literature for example he argues that words and sentences serve to capture any life and to make it available to any reader The present book explores embedded forms of social and cultural apportionment in a range of modern and contemporary French texts including prose fiction socially engaged commentary and autobiography while also identifying scenes of class disturbance and egalitarian encounter Part One considers the refrain of class audible in works by Claude Simon Charles Péguy Marie Ndiaye Thierry Beinstingel and Gabriel Guany and examines how these authors practices of language connect with that refrain In Part Two Hughes analyses forms of domination and dressage with reference to Simone Weil's mid 1930s factory journal Paul Nizan's novel of class alienation Antoine Bloy from the same decade and Pierre Michon's Vies minuscules Small Lives 1984 with its focus on obscure rural lives The reflection on how these narratives draw into contiguity antagonistic identities is extended in Part Three where individual chapters on Proust and the contemporary authors François Bon and Didier Eribon demonstrate ways in which enduring forms of cultural distribution are both consolidated and contested

Philosophy of Antifascism Devin Zane Shaw, 2020-06-11 On January 20th 2017 during an interview on the streets of Washington D C white nationalist Richard Spencer was punched by an anonymous antifascist The moment was caught on video and quickly went viral and soon punching Nazis was a topic of heated public debate How might this kind of militant action be conceived of or justified philosophically Can we find a deep commitment to antifascism in the history of philosophy Through the existentialism of Simone de Beauvoir with some reference to Fanon and Sartre this book identifies the philosophical reasons for the political action being enacted by contemporary antifascists In addition using the work of Jacques Rancian it argues that the alt right and the far right aren't a kind of politics at all but rather forms of parapolitical and paramilitary mobilization aimed at re entrenching the power of the state and capital Devin Shaw argues that in order to resist fascist mobilization contemporary movements find a diversity of tactics more useful than principled nonviolence Antifascism must focus on the systemic causes

of the re emergence of fascism and thus must fight capital accumulation and the underlying white supremacism Providing new incisive interpretations of Beauvoir existentialism and Ranci re he makes the case for organizing a broader militant movement against fascism

Ranci ère and Performance Nic Fryer, Colette Conroy, 2021-02-22 Jacques Ranci re has been hugely influential in the field of political philosophy and aesthetics This edited collection is the first to investigate the points of contact between the work of Ranci re and the field of theatre and performance studies Recent scholarly works in this discipline have drawn upon concepts from Ranci re s writing from teatrocracy to emancipated spectators to investigate problems of audience participation politics and aesthetics Before these concepts and critical tools peel away from the works through which they emerged this book seeks a detailed critical assessment of the works themselves and their implications for theatre and performance studies The collection examines the critical and analytical interventions that have been made to date and looks forward towards challenges to the future uses of Ranci re s work in performance and theatre studies It also considers a wide range of performance work from a performance for the residents of a Victorian workhouse to the activist performances of Liberate Tate This collection includes work by ten scholars and is an essential resource for researchers and academics working in areas of performance and aesthetics performance and activism and performance and philosophy

Thinking Reality and Time through Film José Manuel Martins, Christine Reeh, 2017-03-07 Over the last few decades film has increasingly become an issue of philosophical reflection from an ontological and epistemological perspective and the claim doing philosophy through film has raised extensive discussion about its meaning The mechanical reproduction of reality is one of the most prominent philosophical questions raised by the emergence of film at the end of the nineteenth century inquiring into the ontological nature of both reality and film Yet the nature of this audio photographic and moving reproduction of reality constitutes an ontological puzzle which has widely been disregarded as a main line of enquiry with direct consequences for philosophy Regarding this background this volume brings together the best papers from the Lisbon Conference on Philosophy and Film Thinking Reality and Time through Film held in 2014 What they all have in common is the discussion of new aspects and approaches of how philosophy relates to film Whether by philosophizing through concrete examples of films or whether looking at film s ontological reliance on time and image or its intra active entanglement with reality or truth this book explores grasp film s nature philosophically and provides new insights for the film philosopher and the filmmaker as well as for the freshman fascinated by film for philosophical reasons

Artmaking in the Age of Global Capitalism Bryant Jan Bryant, 2019-09-11 Jan Bryant looks at the strategies visual artists and filmmakers are using to criticise the social and economic conditions shaping our historical moment She then assesses how the world is being positively re imagined through their work today Located at the intersection of practice and theory Bryant argues that an effective contemporary political aesthetics encompasses more than just analysis of a work s conceptual or aesthetic reality It should also consider the impact the artwork has at the point of reception the methods adopted by the artists and the

relationships they engender with communities *The Plant Contract* Prudence Gibson, 2018-02-12 *The Plant Contract* argues that visual and performance art can help change our perception of the vegetal world and can return us to nature and thought Via an investigation into the wasteland robotany feminist plants and nature rights this phytology love story investigates how contemporary art is mediating the effects of plant blindness caused by human disassociation from the natural world It is also a gesture of respect for the genius of vegetal life where new science proves plants can learn communicate remember make decisions and associate Art is a litmus test for how climate change affects human perception This book responds to that test by expressing plant philosophy to a wider public through an interrogation of plant art

Mallarmé Robert Boncardo, Christian R. Gelder, 2017-03-16 From the post War writings of Sartre and Blanchot to the post structuralism of Jacques Derrida and Julia Kristeva French philosophers have consistently debated the poetry of Stéphane Mallarmé almost as a rite of passage Alain Badiou Jean Claude Milner and Jacques Rancière three of the most important philosophers alive today are no exception having written extensively about the poet since the 1960s and 70s up until today This book contains a series of interviews with these three figures on Mallarmé as well as an extended introduction that places their thought on literature into dialogue Speaking about their personal and philosophical relationships with each other on methods of reading on poetry and politics and poetry and mathematics each philosopher reflects on their life long engagement with Mallarmé as well as on the different often incommensurable images of the poet their philosophies have generated As Rancière Milner and Badiou point to the past importance and future directions Mallarmé gives to thought these interviews lend credence to Barthes' remark that all we can do is repeat Mallarmé and it is good that we do so **Rancière**

and Music Joao Pedro Cachopo, 2020-04-15 This collection explores Rancière's thought along a number of music historical trajectories including Italian and German opera Romantic and modernist music Latin American and South African music jazz and contemporary popular music and sets him in dialogue with key thinkers including Adorno Althusser Badiou and Deleuze

Warhol's Working Class Anthony E. Grudin, 2017-10-20 This book explores Andy Warhol's creative engagement with social class During the 1960s as neoliberalism perpetuated the idea that fixed classes were a mirage and status an individual achievement Warhol's work appropriated images techniques and technologies that have long been described as generically American or middle class Drawing on archival and theoretical research into Warhol's contemporary cultural milieu Grudin demonstrates that these features of Warhol's work were in fact closely associated with the American working class The emergent technologies Warhol conspicuously employed to make his work home projectors tape recorders film and still cameras were advertised directly to the working class as new opportunities for cultural participation What's more some of Warhol's most iconic subjects Campbell's soup Brillo pads Coca Cola were similarly targeted since working class Americans under threat from a variety of directions were thought to desire the security and confidence offered by national brands Having propelled himself from an impoverished childhood in Pittsburgh to the heights of Madison Avenue Warhol knew both

sides of this equation the intense appeal that popular culture held for working class audiences and the ways in which the advertising industry hoped to harness this appeal in the face of growing middle class skepticism regarding manipulative marketing Warhol was fascinated by these promises of egalitarian individualism and mobility which could be profound and deceptive generative and paralyzing charged with strange forms of desire By tracing its intersections with various forms of popular culture including film music and television Grudin shows us how Warhol s work disseminated these promises while also providing a record of their intricate tensions and transformations
