Al Burhan Fi Ulum Al Quran:

The Qur'an and its Interpretative Tradition Andrew Rippin, 2022-04-19 The position of the Qur'an as the central symbol and reference point of Islam cannot be disputed. Despite this significance, the academic study of the Qur'an has lagged far behind that of the Bible. In these studies, Andrew Rippin reflects upon both the principles and the problems of studying the Qur'an within the discipline of religious studies. He also pursues detailed investigations of the meaning of variants to the text and the history of Muslim interpretation of the text in its diversity. A newly written introduction lays out some of the general implications of these studies while extensive indexes of Qur'anic verses, books, authors, and topics make this research more readily accessible.

Logic, Rhetoric and Legal Reasoning in the Qur'an Rosalind Ward Gwynne, 2014-04-08 Muslims have always used verses from the Qur'an to support opinions on law, theology, or life in general, but almost no attention has been paid to how the Qur'an presents its own precepts as conclusions proceeding from reasoned arguments. Whether it is a question of God's powers of creation, the rationale for his acts, or how people are to think clearly about their lives and fates, Muslims have so internalized Qur'anic patterns of reasoning that many will assert that the Qur'an appeals first of all to the human powers of intellect. This book provides a new key to both the Qur'an and Islamic intellectual history. Examining Qur'anic argument by form and not content helps readers to discover the significance of passages often ignored by the scholar who compares texts and the believer who focuses upon commandments as it allows scholars of Qur'anic exegesis, Islamic theology, philosophy, and law to tie their findings in yet another way to the text that Muslims consider the speech of God.

THE RADIANT QUR'AN: KNOWLEDGE, SOCIETY AND GOOD GOVERNANCE (IIUM PRESS) Abdul Rashid Moten, 2025-05-20 The Radiant Qur'an is a comprehensive exploration of the Qur'an offering a deeper understanding of its timeless wisdom and its method of acquiring knowledge for the benefit of human life and civilisation. It explains its major themes, its intrinsic relationship with knowledge and research, and its impact on government, politics, and society. Expounding on the Qur'an's relationship with knowledge, the book explains how it encourages intellectual curiosity, critical thinking, and the pursuit of knowledge as a means to unlock the wonders of the universe and better understand divine creation. It emphasises the Qur'an's unifying force and explores how it embraces diversity, promotes inclusivity, and encourages harmonious coexistence among people of different backgrounds, cultures, and beliefs. It highlights the Qur'an's emphasis on justice, fairness, and compassion, unveils the harmony between faith and reason, and examines its teachings on social equality, human rights, and the pursuit of a just and equitable society.

Moses in the Quran and Islamic Exegesis Brannon M. Wheeler, 2002 Relating the Muslim understanding of Moses in the Qur'an to the Epic of Gilgamesh, Alexander Romances, Aramaic Targums, Rabbinic Bible exegesis, and folklore from the ancient and medieval Mediterranean, this book shows how Muslim scholars authorize and identify themselves through allusions to the Bible and Jewish tradition. Exegesis of Qur'an 18:60-82 shows how Muslim exegetes engage Biblical theology through interpretation of the ancient Israelites, their prophets,

and their Torah This Muslim use of a scripture shared with Jews and Christians suggests fresh perspectives for the history of religions Biblical studies cultural studies and Jewish Arabic studies

Islam, Context, Pluralism and Democracy Yaser Ellethy, 2014-11-20 Islam Context Pluralism and Democracy aspires to clarify the tensions and congruences between the revelational and the rational the text and the context the limits and the horizons of contextualization in Islam as these emanate from the Islamic interpretative tradition This book examines classical and modern Muslim interpretations with regard to the concepts of diachronic development pluralism and democracy based on Arabic Islamic sources and literature Focusing on the parameters of semantic changes methods of interpretation and cultural variables it shows how this interpretative tradition offers a diversity of ideas and approaches that can be utilized in contemporary debates concerning the socio political contextualization of Islamic genuine thought However within this diversity Islam presents generic principles and core values as moral paradigms that can deal with such modern challenges Based on the analysis of core Islamic texts and key terms related to the discussed issues mainly from the Quran and the Sunnah and the broader Arabic Islamic literature it explores the boundaries of the mutable and constant in the Islamic worldview Presenting classical Muslim interpretations and scholars as possible interlocutors in debates over the compatibility of Islam with challenges of modernity this book is essential reading for researchers and postgraduates interested in Islamic Studies Philosophy of Religion and Political Science

Qur'an Commentary and the Biblical Turn Samuel Ross, 2024-02-19 The Qur'an and the Bible have been called intertwined scriptures due to the Qur'an's frequent invocation of biblical narratives and figures But what is the history of Muslims exegetical engagement with the biblical text Through a comprehensive survey of more than 170 Qur'an commentaries Samuel Ross traces the longitudinal history of the Bible in tafsir Offering detailed case studies and rich in historical context Ross's narrative culminates in the remarkable late nineteenth and early twentieth century biblical turn Global in scope this development has not only generated new Muslim views of the Bible but even new interpretations of the Qur'an itself This monograph has been awarded the annual BRAIS De Gruyter Prize in the Study of Islam and the Muslim World
