must learn to look outside ourselves to find it In a world where mental health issues and loneliness are at an all time high it is more important than ever to find ways to cultivate joy community and meaning in our lives Many of us feel trapped within ourselves struggling to find a way out of our own negative thoughts and emotions Author and psychologist Richard Beck Hunting Magic Eels argues that we are struggling because our shape is currently curved inward We are self focused self absorbed ruminative We are trapped inside ourselves And we are definitely not happy or filled with joy So how do we control our egos and ambition when those drives have been useful to us in the past How do we engage our imagination and our faith In his latest book The Shape of Joy Beck offers a powerful argument for how we can break free and rediscover the transcendent and the sacred Beck argues that to find true joy and fulfillment we need to understand the importance of curving outward and moving beyond the self to encounter true lovingness Drawing from the principles of positive psychology Beck explores concepts like gratitude mindfulness ego volume and the small self to provide readers with a road map toward a healthier happier and more fulfilling life Whether you are struggling with mental health issues yearning for a deeper connection with your faith or simply seeking greater happiness and fulfillment The Shape of Joy will offer you an inspiring vision for a better future

**Sustainable Capitalism and the Pursuit of Well-Being** Neil Harrison,2013-12-17 Sustainable development is the central challenge of the 21st Century How can human civilization continue to develop without destroying the natural systems on which it depends Environmentalists tell us that capitalism is the problem because it feeds our self interest They tell us that we have to restrain ourselves and only consume what the Earth can sustain Or governments must tell us what we can and cannot buy This book uses the science of complex systems to explain why governments cannot deliver sustainability or happiness and how self interest can be used to make society sustainable Capitalism won the Cold War until the Great Recession of 2008 it seemed to be the perfect system But more of us are unhappy even as it has ravaged the planet The central problem is the paradigm on which our social systems are founded that more consumption production possessions is always better Based on research from political economy philosophy and psychology this book shows that the problem is not self interest We are unhappy because we have been taught that our interests are material and that buying stuff will make us happy Yet social pressure to consume only prevents us from satisfying our basic psychological needs and fully enjoying life For that we need to pursue our personal well being Because this also reduces our material consumption environmental sustainability comes from each of us knowing what s truly good for our selves Even without the constant economic growth that harms the planet and damages our lives capitalism also is sustainable This book will be of interest to scholars and students of sustainability civil societyactivists and social entrepreneurs thought leaders and policymakers **ThirdWay** ,2004-11 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture
