Elemental Alejandro Aravena, 2018-12-19 A spectacular visually rich monograph on one of the most visionary architecture firms of the twenty first century led by 2016 Pritzker Prize winner Alejandro Aravena Elemental based in Santiago Chile epitomizes a new generation of pioneering socially engaged architects The firm specializes in innovative powerful and humane public interest projects working on both large and small scales across Chile the United States Mexico Switzerland and China Featuring stunning images by renowned architectural photographers together with sketches and drawings from Aravena s personal notebooks this book beautifully often irreverently displays Elemental s unique working methods and philosophy Each project from iconic structures like the Anacleto Angelini UC Innovation Centre to seaside residences and pioneering reconstruction plans is accompanied by Aravena s engaging texts bringing to life his understanding of civil society and the built environment From the publisher of Snarkitecture Grafton Architects and Concrete

Architecture and Space Re-imagined Richard Bower, 2016-06-10 As with so many facets of contemporary western life architecture and space are often experienced and understood as a commodity or product The premise of this book is to offer alternatives to the practices and values of such westernised space and Architecture with a capital A by exploring the participatory and grass roots practices used in alternative development models in the Global South This process re contextualises the spaces values and relationships produced by such alternative methods of development and social agency It

asks whether such spatial practices provide concrete realisations of some key concepts of Western spatial theory questioning whether we might challenge the space and architectures of capitalist development by learning from the places and practices of others Exploring these themes offers a critical examination of alternative development practices methods in the Global South re contextualising them as architectural engagements with socio political space The comparison of such interdisciplinary contexts and discourses reveals the political social and economic resonances inherent between these previously unconnected spatial protagonists The interdependence of spatial issues of choice value and identity are revealed through a comparative study of the discourses of Henri Lefebvre John Turner Doreen Massey and Nabeel Hamdi These key protagonists offer a critical framework of discourses from which further connections to socio spatial discourses and concepts are made including post marxist theory orientalism post structural pluralism development anthropology post colonial theory hybridity difference and subalterneity By looking to the spaces and practices of alternative development in the Global South this book offers a critical reflection upon the working practices of Westernised architecture and other spatial and political practices In exploring the methodologies implications and values of such participatory development practices this book ultimately seeks to articulate the positive potential and political of learning from the difference multiplicity and otherness of development practice in order to re imagine architecture and space Architecture for the Commons Jose

Sanchez,2020-08-04 Architecture for the Commons dives into an analysis of how the tectonics of a building is fundamentally linked to the economic organizations that allow them to exist By tracing the origins and promises of current technological practices in design the book provides an alternative path one that reconsiders the means of achieving complexity through combinatorial strategies This move requires reconsidering serial production with crowdsourcing and user content in mind The ideas presented will be explored through the design research developed within Plethora Project a design practice that explores the use of video game interfaces as a mechanism for participation and user design The research work presented throughout the book seeks to align with a larger project that is currently taking place in many different fields The Construction of the Commons By developing both the ideological and physical infrastructure the project of the Commons has become an antidote to current economic practices that perpetuate inequality The mechanisms of the production and governance of the Commons are discussed inviting the reader to get involved and participate in the discussion The current political and economic landscape calls for a reformulation of our current economic practices and alternative value systems that challenge the current market monopolies This book will be of great interest not only to architects and designers studying the impact of digital technologies in the field of design but also to researchers studying novel techniques for social participation and cooperating of communities through digital networks The book connects principles of architecture economics and social sciences to provide alternatives to the current production trends Planning and Design for Future

Informal Settlements David Gouverneur,2014-08-13 This is the first book to address future informal settlements at the global

scale It argues that to foster favourable conditions for the sustainable evolution of future informal cities planners must consider the same issues that are paramount in formal urban developments such as provision of balanced land uses energy efficiency and mobility water management and food sufficiency governance and community participation productivity and competitiveness identity and sense of place Planning and Design for Future Informal Settlements makes a call for responsible action to address the urban challenges of the developing world suggesting that the vitality of informality coupled with spatial design and good management can support the efficient use of resources in better places to live The book analyses the strengths and weaknesses of informal urbanism and the challenges faced by the fast growing cities of the developing world Through case studies it demonstrates the contributions and limitations of different attempts to plan ahead for urban growth from the creation of formal housing and urban infrastructures for self built dwellings to the improvement of existing informal settlements It provides a robust framework for planners and designers policy makers NGOs and local governments working to improve living conditions in developing cities

The Quito Papers and the New Urban Agenda Un-Habitat,2018-01-19

The future is urban Indeed the battle for sustainable development will be won or lost in cities Not a moment too soon then that urbanization is suddenly at the centre of global policy making In 2015 the governments of the UN adopted the 2030 Agenda for Sustainable Development and in 2016 they adopted the New Urban Agenda However the question of how these Agendas will be pursued concretely remains Unfortunately the prevailing model is rigidly technocratic Charter of Athens from 1933 the strict functionalist separation of activities that it prescribes still dominates planning practices worldwide The purpose of The Quito Papers and the New Urban Agenda is to start a discussion that both challenges this status quo and opens up new lines of enquiry It intentionally does not propose a manifesto made up of simplistic slogans and recommendations as cities in the 21st century are more fragile and complex Its content therefore is intentionally broad ranging from architecture planning and urban design to land ownership and regulation water management and environmental philosophy This multifaceted assembly of perspectives critiques the tenets of the Charter of Athens identify new trends and propose new insights on contemporary urbanization Part One outlines the overall challenges facing cities in the 21st century and Part Two offers a number of conceptual frameworks and approaches for dealing with those challenges Each Part is also composed of a body of illustrated arguments synthesized from selectively abridged background papers from over 15 commissioned authors interspersed with in depth papers

Non-Standard Architectural Productions Sandra Karina Löschke, 2019-07-30 This book captures concepts and projects that reshape the discipline of architecture by prioritizing people over buildings In doing so it uncovers sophisticated approaches that go beyond standard architectural protocols to explore experience based aesthetics encounters action based research critical practices and social engagement If these are widely understood as singular or incompatible approaches the book reveals that they form a growing network of interrelations and generate levels of flexibility and dynamism that are reshaping the discipline The thirteen chapters analyze thought provoking projects branded museums restaged exhibitions home work spaces multi cultural spaces ageing apartment blocks abandoned homes and urban slums amongst them Together they enliven the stalled debate about a single architectural response to the complex challenges of the contemporary world by highlighting pluralistic perspectives on architecture that offer fresh solutions on how architecture can improve people's lives Featuring essays from an international range of authors this book makes a vital contribution to our understanding of the wider conditions under which and in relation to which contemporary architecture is produced

Frontiers of Creative Industries Candace Jones, Massimo Maoret, 2018-04-03 Creative industries are a growing and globally important area for both economic vitality and cultural expression of industrialized nations This volume examines their institutional categorical and structural dynamics to provide an overview of new trends and emerging issues in scholarship on this topic

The Interiors Theory Primer William Mangold, 2025-07-31 In a world where life is increasingly defined by the spaces we inhabit understanding interiors is essential to understanding ourselves The Interiors Theory Primer maps the intellectual terrain of interior design and spatial experience introducing readers to key concepts that shape how people occupy interior spaces Organized into three parts this book begins with foundational concerns such as place identity materiality and atmosphere and then examines the boundaries and expertise of the discipline before turning to critical and emerging topics like biophilia virtuality and social justice Each chapter presents a focused literature review of a major theme in interiors theory supported by key design precedents and suggestions for further reading Drawing on a wide range of scholarship The Interiors Theory Primer offers a coherent framework for understanding interiors as a distinct interdisciplinary field deeply embedded in the human condition Accessible to students useful to professionals and provocative for scholars The Interiors Theory Primer argues that the designed environments in which we live work and gather deserve greater attention not only for their

aesthetic and functional qualities but also for their powerful role in shaping contemporary life *Improvised Cities* Helen Gyger, 2019-03-12 Beginning in the 1950s an explosion in rural urban migration dramatically increased the population of cities throughout Peru leading to an acute housing shortage and the proliferation of self built shelters clustered in *barriadas* or squatter settlements *Improvised Cities* examines the history of aided self help housing or technical assistance to self builders which took on a variety of forms in Peru from 1954 to 1986 While the postwar period saw a number of trial projects in aided self help housing throughout the developing world Peru was the site of significant experiments in this field and pioneering in its efforts to enact a large scale policy of land tenure regularization in improvised unauthorized cities Gyger focuses on three interrelated themes the circumstances that made Peru a fertile site for innovation in low cost housing under a succession of very different political regimes the influences on and movements within architectural culture that prompted architects to consider self help housing as an alternative mode of practice and the context in which international development agencies came to embrace these projects as part of their larger goals during the Cold War and beyond

Architecture Form(s) Identity Greta Allegretti, Carola D'Ambros, Chiara Lionello, Enrico Miglietta, Valerio Maria Sorgini, Greta Maria Taronna, 2022-08-03 Architecture form s identity *Spaces for the absence of memory* is a collection of essays on the theme of memory its possible loss weakness ability to build individual and collective identities and on the way architecture inserts itself in this process determining different spaces of reflection These texts all arise from a common research ground which saw the editors personally involved in an inter doctoral Workshop *The Memory as Construction of the Subject Designing for the Absence of Memory* 2018 19 with a collaboration between Politecnico di Milano AUID and the Universidad de Sevilla HAC Ph D schools in which the theme of memory and the construction of a more holistic space that dialogues with it was at the center of the design reflection These contributions all built around that very rich relationship between memory and architecture have led to a necessary desire to broaden the horizons and thematic limits reached by the workshop considering them as a starting point for the collection of different perspectives able to investigate some issues in a more specific way **Enhancing Disaster Preparedness** A. Nuno Martins, Mahmood Fayazi, Faten Kikano, Liliane

Hobeica, 2020-10-07 *Enhancing Disaster Preparedness From Humanitarian Architecture to Community Resilience* relates to the fourth priority of the UNDRR s Sendai Framework for Disaster Risk Reduction 2015 2030 Taking a wide understanding of disaster preparedness the book deals with resilient responses and building capacities related to hazardous events bringing some practical experiences and theoretical insights in this regard Mostly based on field research conducted in the Global South by architects and other built environment professionals the book covers both post disaster interventions rebuilding and recovery and development related processes Its three parts address the interlinkages between humanitarian design community resilience and inclusive governance which are crucial for fostering effective disaster preparedness Part I discusses the changing roles of architects and urban designers involved in the humanitarian sphere Part II concentrates on

resilience as a socioecological capacity to enhance preparedness within community based spatial processes Focused on global dynamics Part III covers topics emphasizing the link between the management of crises whether political or economic at different levels of governance and the vulnerability of communities and structures on the national and local scales As such the book approaches rising global priorities and brings timely lessons to support building a more equitable safe and resilient environment in a rapidly urbanized world Explores Sendai s fourth priority through a spatial lens Examines the role of humanitarian design in building resilience Critically revisits concepts such as incremental housing and building back better Provides examples of methodological tools for community engagement in resilience building processes

Lessons of Informality Felix Heisel, Bisrat Kifle Woldeyessus, 2016-05-24 Informal settlements made up of corrugated iron shacks and other materials are a ubiquitous feature in the megacities of Africa Asia and Latin America In response to the enormous influx of migrants from the countryside the informal city experienced a phenomenal growth While rightly criticized for their lack of hygiene and for their low level living conditions these shelters nevertheless provide planning strategies and possibly even a roadmap to a resilient city in an emerging territory The unregistered economic activities associated with them proliferate in a similar way and basic urban services are increasingly provided informally Examples of these economic phenomena are microloans bottom up insurance or professions such as the Kur Yalew refuse collector who acts as an urban miner and thus contributes a valuable service to the community by recycling materials

Design Research in Architecture Murray Fraser, 2021-07-28 What is the role of design research in the types of insight and knowledge that architects create That is the central question raised by this book It acts as the introductory overview for Ashgate s major new series Design Research in Architecture which has been created in order to establish a firm basis for this emerging field of investigation within architecture While there have been numerous architects scholars since the Renaissance who have relied upon the interplay of drawings models textual analysis intellectual ideas and cultural insights to scrutinise the discipline nonetheless until recently there has been a reluctance within architectural culture to acknowledge and accept the role of design research as part of the discourse However in many countries around the world one of the key changes in architecture and architectural education over the last decade has been the acceptance of design as a legitimate research area in its own right and this new series provides a forum where the best proponents of architectural design research can publish their work This volume provides a broad overview on design research that supports and amplifies the different volumes coming out in the book series It brings together leading architects and academics to discuss the more general issues involved in design research At the end there is an Indicative Bibliography which alludes to a long history of architectural books which can be seen as being in the spirit of design research

Tool for Living with Uncertainty TSUBAME ARCHITECTS, Tsubame Architects a young architects unit operating with two divisions one focused on Design for creating buildings and another on Lab for establishing rules for space usage and other activities before and after architectural design This book is their first

solo publication This book documents their practice conceived and pursued to make the environments we inhabit something we can manage ourselves on six themes Includes dialogues with Yurika Kano photographer Sayaka Ogawa cultural anthropologist and Akihito Aoi architectural historian offering multifaceted perspectives on creating architecture for navigating contemporary society **Light in Gaza** Jihad Abusalim, Jennifer Bing, Mike Merryman-Lotze, 2022-08-30 Imagining the future of Gaza beyond the cruelties of occupation and Apartheid Light in Gaza is a powerful contribution to understanding Palestinian experience Gaza home to two million people continues to face suffocating conditions imposed by Israel This distinctive anthology imagines what the future of Gaza could be while reaffirming the critical role of Gaza in Palestinian identity history and struggle for liberation Light in Gaza is a seminal moving and wide ranging anthology of Palestinian writers and artists It constitutes a collective effort to organize and center Palestinian voices in the ongoing struggle As political discourse shifts toward futurism as a means of reimagining a better way of living beyond the violence and limitations of colonialism Light in Gaza is an urgent and powerful intervention into an important political moment

Post-Western Histories of Architecture Pilar Maria Guerrieri, Marco Biraghi, 2023-06-23 This book seeks to provide an alternative post Western perspective to the history of contemporary architecture It puts forward detailed critical analyses of various areas of the world including Europe Latin America Africa China Australia India and Japan where particular movements of architecture have developed as active political acts The authors focus on a broad spectrum of countries architectures and architects that have developed a design approach closely linked to the building context The concept of context is broad and includes various economic social cultural political and natural aspects In all cases the architects selected in this book have chosen to view context as an opportunity However each architect has considered certain specific aspects of context some have been very attentive to the social context others to material aspects or typological issues and still others to aspects related to political visions or economic factors The analysis critically highlights interesting creative and respectful design approaches towards local conditions such as sustainability in Nordic Europe climate conscious design in Africa and the bottom up sensitivity of India The book s main aim is to retrace through both theoretical arguments and case studies the debate that focuses on politics and the environment Thanks to its valuable examples this book strives to make a conscious contribution to establishing a bulwark against the current flattening out processes that architecture is experiencing This book will be of relevance to researchers teachers and students interested in the history of architecture architecture and planning and postcolonial studies **Cities in Global Transition** Raymond Charles Rauscher, Salim Momtaz, 2016-10-05 This book examines the planning of cities in global transition looking at Australia s Greater Sydney as a case example The focus is on metropolitan districts groups of municipalities within the Greater Sydney region The subjects of global transition and sustainable urban planning SUP are introduced in Chapter 1 How Greater Sydney approaches planning of its region and its districts is then outlined in Chapter 2 In this chapter three case study districts are selected for critiquing

planning in the face of population and new development changes The districts beyond the City of Sydney are Sydney Inner West Greater Parramatta and St George The book further outlines a methodology to assess planning practices within each of the municipalities twelve case study municipalities in all within the three districts Included here are State planning principles applying to Greater Sydney with key principals selected to apply to the case study municipalities and to each district as a unit
