*The Creative Process in Music from Mozart to Kurtág* William Kinderman, 2012-09-16 Great music arouses wonder how did the composer create such an original work of art What was the artist's inspiration and how did that idea become a reality Cultural products inevitably arise from a context a submerged landscape that is often not easily accessible To bring such things to light studies of the creative process find their cutting edge by probing beyond the surface opening new perspectives on the apparently familiar In this intriguing study William Kinderman opens the door to the composer's workshop investigating not just the final outcome but the process of creative endeavor in music Focusing on the stages of composition Kinderman maintains that the most rigorous basis for the study of artistic creativity comes not from anecdotal or autobiographical reports but from original handwritten sketches drafts revised manuscripts and corrected proof sheets He

explores works of major composers from the eighteenth century to the present from Mozart's piano music and Beethoven's Piano Trio in F to Kurt's Kafka Fragments and Hommage R Sch. Other chapters examine Robert Schumann's Fantasie in C, Mahler's Fifth Symphony and Bartók's Dance Suite. Kinderman's analysis takes the form of genetic criticism tracing the genesis of these cultural works, exploring their aesthetic meaning and mapping the continuity of a central European tradition that has displayed remarkable vitality for over two centuries as accumulated legacies assumed importance for later generations. Revealing the diversity of sources, rejected passages and movements, fragmentary unfinished works and aborted projects that were absorbed into finished compositions, *The Creative Process in Music from Mozart to Kurt* illustrates the wealth of insight that can be gained through studying the creative process.

Ferruccio Busoni and the Ontology of the Musical Work  
Erinn Elizabeth Knyt, 2010. Ferruccio Busoni's conception of the musical work derives from his multiple roles as performer, aesthete, editor, composer, arranger and intellectual. Drawing on unpublished scores, manuscripts, sketches and documents from the Staatsbibliothek in Berlin, concert programs from a private collection in Berkeley, acoustic recordings, information about Busoni's intellectual interests gleaned from an auction catalogue featuring the contents of his extensive library and the published aesthetic writings, letters and compositions, the present study offers the first comprehensive account of Busoni's work concept. By establishing connections between his ideas and his musical practice, it explores and clarifies the reasoning behind his idiosyncratic compositional style, a style characterized by a blurring of boundaries between original and borrowed material. Polystylistic mixtures of the old and new and a distinctive performance style in which Busoni creatively altered and embellished existing texts exemplify his practice in an age in thrall to *Werktreue* when originality of idea was prized above all else.

aesthetic trends that played a pivotal role in his artistic development and examines his methods of composition Part II surveys Mozart's works in all of the genres in which he excelled and Part III looks at the reception of the composer and his music since his death Part IV offers insight into Mozart's career as a performer as well as theoretical and practical perspectives on historically informed performances of his music
