Fractal Time Gregg Braden, 2009-03-15 In this compelling exploration of life Gregg Braden merges the modern discoveries of nature's patterns fractals with the ancient view of a cyclic universe The result is a powerful model of time fractal time and a realistic window into what we can expect for the mysterious year 2012 and beyond Applying fractal time to the history of the world and life he proposes that everything from the war and peace between nations to the patterns of human relationships mirror the returning cycles of our past As each cycle repeats it carries a more powerful amplified version of itself The key If you know where to look in the past you know what to expect when the same conditions return in the present and future For the first time in print the Time Code Calculator gives you the tool to do just that Through easy to understand science and step by step instructions discover for yourself How the conditions for 2012 have occurred in the past and what we can expect when they repeat The hot dates that hold the greatest threats of war and greatest opportunities for peace as well as economic cycles such as the stockmarket collapse of 2008 How Earth's location in space triggers cycles of spiritual growth for humans Your personal Time Codes for the key events of business relationships and change in your life How each cycle carries a window of opportunity a choice point that allows us to select a new outcome for the returning pattern What the 1999 ice cores from Antarctica reveal about past cycles of climate global warming Earth's protective magnetic fields and what these things mean for us today

Pure Human Gregg Braden, 2025-01-28 In an age where technologies such as AI threaten to supplant human intelligence an award winning scientist offers a radical new view of our innate human technology and what we're truly capable of There are rare moments in time when we make choices that irreversibly change the world and our lives forever Today is one of those moments Scientists engineers and philosophers alike warn us that without a radical shift in our thinking we are on track to be the last generation of pure humans that the world will know Within a single generation we will devolve into a hybrid species of synthetic bodies Artificial Intelligence AI and computer chips that limit our ability to think to love and to adapt to the conditions of the emerging world in a healthy way In doing so we will also lose our capacity for emotion empathy intimacy and forgiveness the very qualities that we value and cherish in our humanness The question that we face is simple Do we love ourselves enough to preserve the gift of our humanness Our answer is based upon the way we've been taught to think of ourselves This book is a compelling journey of self discovery that will catapult you beyond conventional thinking when it comes to your origins your limits and most importantly the abilities that have been hidden from you for centuries and the extraordinary potential that awaits as you embrace them

Deep Truth Gregg Braden, 2011-10-15 Deep Truth reveals new discoveries that change the way we think about everything from our personal relationships to civilization itself When the facts become clear our choices become obvious THE CRISIS Best selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families cultures and nations seemingly disparate issues such as war terrorism abortion genocide poverty economic

collapse climate change and nuclear threats are actually related They all stem from a worldview based upon the false assumptions of an incomplete science

THE HISTORY The obsolete beliefs of our modern worldview have brought us to the brink of disaster and the loss of all that we cherish as a civilization Our reluctance to accept new discoveries about our relationship to the earth one another and our ancient past keeps us locked into the thinking that has led to the crises threatening our lives today

THE FACTS The scientific method allows for and expects new information to be revealed and assimilated into our existing beliefs It s the updating of scientific knowledge with the new facts from new discoveries that is the key to keeping science honest current and meaningful To continue teaching science that is not supported by the new discoveries ones based upon accepted scientific methods is not in fact scientific But this is precisely what we see happening in traditional textbooks classrooms and the media today

THE OPPORTUNITY Explore for yourself the discoveries that change 150 years of scientific beliefs yet are still not reflected in mainstream thinking including evidence of advanced near ice age civilizations the origin of and reasons for war in our ancient past and why it may become obsolete in our time and the false assumptions of human evolution and of the Darwinian theory Let the strongest live and the weakest die and how this plays out in corporations societies and warfare today

The Divine Matrix Gregg Braden,2010 **THE DIVINE MATRIX** Are the miracles that we see in the quantum world actually showing us our greatest possibilities rather than our scientific limits Could the spontaneous healing of disease an instant connection with everyone and everything and even time travel be our true heritage in the universe There is a place where all things begin the place of pure energy that simply is In this quantum incubator for reality everything is possible In 1944 Max Planck the father of quantum theory shocked the world by saying that this matrix is where the birth of stars the DNA of life and everything between originates Recent discoveries reveal dramatic evidence that Planck s matrix The Divine Matrix is real It is this missing link in our understanding that provides the container for the universe the bridge between our imagination and our reality and the mirror in our world for what we create in our beliefs To unleash the power of this matrix in our lives we must understand how it works and speak the language that it recognizes For more than 20 years Gregg Braden a former senior aerospace computer systems designer has searched for the understanding to do just that From the remote monasteries of Egypt Peru and Tibet to the forgotten texts that were edited by the early Christian church the secret of the Divine Matrix was left in the coded language of our most cherished traditions It is verified in today s science In this paradigm shattering book Gregg shares what he s found Through 20 keys of conscious creation we re shown how to translate the miracles of our imagination into what is real in our lives With easy to understand science and real life stories Gregg shows us that we re limited only by our beliefs and what we once believed is about to change

0.0.0.0 Would Our Legacy Survive? Richard Graupner,2012-07-28 The exploration takes us into the realms of a global catastrophe and its aftermath Through the eyes of a now older woman we explore her journey through the many challenges tough decisions and attacks on mans moral and ethical fibre in the battle for survival in the aftermath It provokes us to explore many questions not least of which is how we ourselves might react If we were to be honest with ourselves the answers may be startling indeed Woven within this journey through time are references to aspects of life today and how in the eyes of someone in the aftermath these appear shallow and inconsequential The alternative viewpoints proposed working with wisdom seemingly lost to us in our current frenetic cluttered lifestyles will assist us in improving our free thinking evaluation of life today We explore too how the ancient civilizations and their knowledge simply vanished providing some insight into this phenomenon Could this also occur with the global civilization we have currently Surely not you might say It appears however that we may be a far more fragile species than we would like to believe with sadly a potentially very thin veneer of modern humanitarian practices

Reflections Peter James Ford,2024-03-27 Peter James Ford The Unlikely Messenger is a unique individual with a broad understanding of life from having lived life from many lifestyles Peter experienced the good the bad the ugly and then an awakening and redemption His younger years found him struggling with alcoholism and the drugs of the sixties with having learning disabilities including attention deficit disorder and growing up in a violent environment Peter turned to physical training and motorcycles and found much satisfaction in both At an early age Peter crawled into the 12 step recovery program a broken man This was the beginning of Peter s spiritual journey Over the years Peter attained the promises of the program and began living a great life Many years later Peter was initiated into a yogic path that had begun thousands of years ago by an ancient lineage of Masters Peter did not realize that his profound spiritual experience at that time was actually a powerful Kundalini Awakening within him Shortly after his awakening these mystic tales of past lives and powerful wisdom truths began flowing Peter has just completed his seventh book about his life adventures and spiritual journey Peter hopes people find something useful in his writings or at least that they will bring a smile to your face when thinking about Peter this Unlikely Messenger

Secrets of the Lost Mode of Prayer Gregg Braden,2016-07-26 Could our deepest hurts reveal the key to a powerful form of prayer that was lost 17

centuries ago What can we learn today from the great secret of our most cherished traditions There are beautiful and wild forces within us With these words the mystic St Francis described what ancient traditions believed was the most powerful force in the universe the power of prayer For more than 20 years Gregg Braden has searched for evidence of a forgotten form of prayer that was lost to the West following the biblical edits of the early Christian Church In the 1990s he found and documented this form of prayer still being used in the remote monasteries of central Tibet He also found it practiced in sacred rites throughout the high deserts of the American Southwest In this book Braden describes this ancient form of prayer that has no words or outward expressions Then for the first time in print he leads us on a journey exploring what our most intimate experiences tell us about our deepest beliefs Through case histories and personal accounts Braden explores the wisdom of these timeless secrets and the power that awaits each of us just beyond our deepest hurt *A critical review about "The Divine Matrix" by Gregg Braden* Felix Ale,2015-02-09 Literature Review from the year 2014 in the subject American Studies Literature grade A Atlantic International University course PhD JOURNALISM language English abstract Gregg Braden s book The Divine Matrix that seeks to justify and offer meaning to the origin of both the tangible and intangible things of the universe offers one of the most elusive and divisive evidence The origin of the web of energy in the universe has for many years been a bone of contention between the church and science From the time of Galileo to the modern times marked with technological advancements to carry out research humanity has failed spectacularly to comprehensively and neutrally define their origin and everything around them **Crystal Blueprint** Beatriz Singer,2019-02-05 A guide to quartz crystals from both an ancestral and scientific point of view with the mission of helping readers identify their mind patterns and wounds to reconnect with the authentic self It s estimated that 10 billion quartz crystals are used every year in electronic devices from smartphones to computers credit cards watches digital cameras TVs cars and much more When you think about it it s almost impossible to imagine life without crystals These same crystals we see in so much of our technology have been used over the course of many centuries and by many different cultures around the world for healing In fact crystal healing is alive and well today with modern day healers harnessing the energy of quartz crystals to help alleviate suffering What is it that has drawn scientists and healers around the world to crystal technology and what are the similarities between the ways these two groups have used the stones In this book crystal healer and holistic therapist Beatriz Singer answers these questions and more She takes readers on a journey to understand the many wonders of quartz crystals so that we can use their powers to bring peace and healing to ourselves and the world **The Divine Matrix by Gregg Braden. A Critical Book Analysis** Jean Cédric Obame Emame,2018-09-10 Seminar paper from the year 2016 in the subject Literature Modern Literature grade A Atlantic International University course SEMINAR PERSONAL DEVELOPMENT I language English abstract In his book Braden is referring to the universal field of energy that the father of quantum physics Max Planck a German theoretical physicist whose work on quantum theory won him the Nobel Prize in Physics in 1918 describes as a field

that connects everything He calls that field of energy the Divine Matrix Now what is the Divine Matrix According to the author the Matrix is a universal energy that affects our reality he uses quantum physics to explain it Braden 2007 p 52 mentioned that the Divine Matrix is everywhere at all time and that it is also the mind of the universe Besides the following book s review will help us understand how the Matrix works in our everyday life Equally important before the reading of this book I would experience the kind of things that I somewhat thought to be the unique person on this planet to ever experience Most importantly I was incapable of explaining them It is true that I would as well question people around me if they ever experienced some of them The answer was yes But for the other experiences I did not even dare to ask someone else The very purpose of this dissertation is to discuss some of the topics Braden tackles in his book Because he talks about many themes nevertheless I have selected those I thought to actually be highly relevant Accordingly I will discuss four 04 subjects the connection which exists between everything within the Matrix the origins of the universe is also another discussion of my dissertation In addition to that I shall debate bilocation and the power of imagination On the latter Braden 2007 p 55 talks about the bridge between imagination and reality Why do I term it as power of imagination Because the author even if he does not use the expression power conversely demonstrates that imagination in fact has a power By utilizing the term bridge he means imagination is not far from reality given that as human beings and being part of the Divine Matrix we ourselves can create our own reality The four above issues will be discussed in details

Secrets of the Lost Mode of Prayer Gregg Braden,2010-08 There are beautiful and wild forces within us With these words the mystic St Francis described what ancient traditions believed was the most powerful force in the universe the power of prayer For more than 20 years Gregg Braden has searched for evidence of a forgotten form of prayer that was lost in the West following the biblical edits of the early Christian Church In the 1990 s he found and documented this form of prayer still being used in the remote monasteries of central Tibet He also found it practiced in sacred rites throughout the high deserts of the American Southwest In this book Braden describes this ancient form of prayer that has no words or outward expressions Then for the first time in print he leads us on a journey exploring what our most intimate experiences tell us about our deepest beliefs Through case histories and personal accounts Braden explores the wisdom of these timeless secrets and the power that awaits each of us just beyond our deepest hurt

The Science of Self-Empowerment Gregg Braden,2019-03-05 New in paperback originally published as Human by Design At the cutting edge of science and spirituality New York Times best selling author Gregg Braden explains that evolution is not the whole story of humanity and offers a new understanding of our origins that can help us tap the extraordinary abilities we already have What would it mean to discover we re designed to live extraordinary lives of self healing longevity and deep intuition Is it possible that the advanced awareness achieved by monks nuns and mystics considered rare in the past is actually meant to be a normal part of our daily lives In this revelatory book now available for the first time in paperback five time New York Times best selling author and 2018 Templeton Award nominee Gregg Braden

Computer uses a language that we all have yet are only beginning to understand Life's reality code is based in the language of human emotion and focused belief Knowing that belief is our reality maker the way we think of ourselves and our world is now more important than ever For us to change the beliefs that have led to war disease and the failed careers and relationships of our past we need a reason to see things differently Our ancestors used miracles to change what they believed Today we use science The Spontaneous Healing of Belief offers us both the miracles that open the door to a powerful new way of seeing the world and the science that tells us why the miracles are possible revealing why we are not limited by the laws of physics and biology as we know them today Once we become aware of the paradigm shattering discoveries and true life miracles we must think of ourselves differently And that difference is where the spontaneous healing of belief begins
