American Egyptologist The Life Of James Henry Breasted And The Creation Of His Oriental Institute:

American Egyptologist Jeffrey Abt, 2011 James Henry Breasted 1865 1935 had a career that epitomizes our popular image of the archaeologist In this work Abt weaves together the disparate strands of Breasted's life from his small town origins following the Civil War to his evolution into the father of American Egyptology *American Egyptologist* Jeffrey

Abt, 2012-05-01 James Henry Breasted 1865 1935 had a career that epitomizes our popular image of the archaeologist Daring handsome and charismatic he traveled on expeditions to remote and politically unstable corners of the Middle East helped identify the tomb of King Tut and was on the cover of Time magazine But Breasted was more than an Indiana Jones he was an accomplished scholar academic entrepreneur and talented author who brought ancient history to life not just for students but for such notables as Teddy Roosevelt and Sigmund Freud In *American Egyptologist* Jeffrey Abt weaves together the disparate strands of Breasted's life from his small town origins following the Civil War to his evolution into the father of American Egyptology and the founder of the Oriental Institute in the early years of the University of Chicago Abt explores the scholarly philanthropic diplomatic and religious contexts of his ideas and projects providing insight into the origins of America's most prominent center for Near Eastern archaeology An illuminating portrait of the nearly forgotten man who demystified ancient Egypt for the general public *American Egyptologist* restores James Henry Breasted to the world and puts forward a brilliant case for his place as one of the most important scholars of modern times **Life-writing in the History of Archaeology**

Gabriel Moshenska, Clare Lewis, 2023-07-10 Life writing is a vital part of the history of archaeology and a growing field of scholarship within the discipline The lives of archaeologists are entangled with histories of museums and collections developments in science and scholarship and narratives of nationalism and colonialism into the present In recent years life writing has played an important role in the surge of new research in the history of archaeology including ground breaking studies of discipline formation institutionalisation and social and intellectual networks Sources such as diaries wills film and the growing body of digital records are powerful tools for highlighting the contributions of hitherto marginalised archaeological lives including many pioneering women hired labourers and other hidden hands This book brings together critical perspectives on life writing in the history of archaeology from leading figures in the field These include studies of archive formation and use the concept of dig writing as a distinctive genre of archaeological creativity and reviews of new sources for already well known lives Several chapters reflect on the experience of life writing review the historiography of the field and assess the intellectual value and significance of life writing as a genre Together they work to problematise underlying assumptions about this genre foregrounding methodology social theory ethics and other practice focused frameworks in conscious tension with previous practices **Egyptology from the First World War to the Third Reich**

Thomas Schneider, Peter Raulwing, 2012-11-08 Only recently has Egyptology begun to critically examine its history in the first half of the 20th century This book presents major contributions that analyze the interplay of personal biographies and

political history ideologies and academic scholarship between the First World War and the Third Reich Peter Raulwing and Thomas Gertzen study the political activism of Friedrich Wilhelm Freiherr von Bissing professor of Egyptology at the University of Munich and art collector during and after the First World War Thomas Schneider's contribution is the first comprehensive treatment of the biographies of German and Austrian Egyptologists in the time of National Socialism and their careers after 1945 with remarks on the relationship between Egyptological scholarship and Nazi ideology Lindsay Ambridge analyzes the scholarship of James Henry Breasted the patron of North American Egyptology in the context of racial ideologies of the early 20th century A concluding chapter by Peter Raulwing added after the death of Manfred Mayrhofer patron of the study of Indo Aryans in the Ancient Near East reflects on the 20th century ideological and academic interest in the question of Indo Aryans in the Ancient Near East In the introductory chapter Edmund Meltzer places these studies and their significance in the wider context of Egyptological and historiographical scholarship this book makes a significant contribution to exploring a dark chapter in Egyptology's history as a discipline and an important step in understanding the effect that period had on the academic community Edward Mushett Cole University of Birmingham

Scientific History Elena Aronova, 2021-04-02 Increasingly scholars in the humanities are calling for a reengagement with the natural sciences Taking their cues from recent breakthroughs in genetics and the neurosciences advocates of big history are reassessing long held assumptions about the very definition of history its methods and its evidentiary base In Scientific History Elena Aronova maps out historians continuous engagement with the methods tools values and scale of the natural sciences by examining several waves of their experimentation that surged highest at perceived times of trouble from the crisis ridden decades of the early twentieth century to the ruptures of the Cold War The book explores the intertwined trajectories of six intellectuals and the larger programs they set in motion Henri Berr 1863 1954 Nikolai Bukharin 1888 1938 Lucien Febvre 1878 1956 Nikolai Vavilov 1887 1943 Julian Huxley 1887 1975 and John

Desmond Bernal 1901 1971 Though they held different political views spoke different languages and pursued different goals these thinkers are representative of a larger motley crew who joined the techniques approaches and values of science with the writing of history and who created powerful institutions and networks to support their projects In tracing these submerged stories Aronova reveals encounters that profoundly shaped our knowledge of the past reminding us that it is often the forgotten parts of history that are the most revealing **The Material World of Ancient Egypt** William H.

Peck,2013-08-12 The Material World of Ancient Egypt examines the objects and artifacts the representations in art and the examples of documentation that together reveal the day to day physical substance of life in ancient Egypt This book investigates how people dressed what they ate the houses they built the games they played and the tools they used among many other aspects of daily life paying great attention to the change and development of each area within the conservative Egyptian society More than any other ancient civilization the ancient Egyptians have left us with a wealth of evidence about their daily lives in the form of perishable objects from leather sandals to feather fans detailed depictions of trades and crafts on the walls of tombs and a wide range of documentary evidence from temple inventories to personal laundry lists Drawing on these diverse sources and richly illustrating his account with nearly one hundred images William H Peck illuminates the culture of the ancient Egyptians from the standpoint of the basic materials they employed to make life possible and perhaps even enjoyable **The Betrayal of the Humanities** Bernard M. Levinson,Robert P. Ericksen,2022-09-06 How did the

academy react to the rise dominance and ultimate fall of Germany s Third Reich Did German professors of the humanities have to tell themselves lies about their regime s activities or its victims to sleep at night Did they endorse the regime Or did they look the other way whether out of deliberate denial or out of fear for their own personal safety The Betrayal of the Humanities The University during the Third Reich is a collection of groundbreaking essays that shed light on this previously overlooked piece of history The Betrayal of the Humanities accepts the regrettable news that academics and intellectuals in Nazi Germany betrayed the humanities and explores what went wrong what occurred at the universities and what happened to the major disciplines of the humanities under National Socialism The Betrayal of the Humanities details not only how individual scholars particular departments and even entire universities collaborated with the Nazi regime but also examines the legacy of this era on higher education in Germany In particular it looks at the peculiar position of many German scholars in the post war world having to defend their own work or the work of their mentors while simultaneously not appearing to accept Nazism **Finding Antiquity, Making the Modern Middle East** Guillemette Crouzet,Eva Miller,2025-06-12 This

volume presents innovative studies of how the emerging disciplines of archaeology and ancient history shaped the modern Middle East and how they were in turn shaped by competing visions and agendas of empires and new nations The Middle East was a region constructed through its putatively unique relationship to the whole world s past and its special relevance for the destiny of empires and nations Over the course of the nineteenth and early twentieth centuries European empires

fought for influence and control over this cradle of civilization empire and monuments and local powers and people in the Middle East worked with and against these historical and heritage frameworks in their own quests for self determination In this volume contributors from the fields of history archaeology and heritage explore how historical consciousness about the Middle East was contested in the nineteenth and early twentieth century through excavation and interpretation of the past Chapters span West Asia and North Africa covering Turkey Iraq Iran Syria Lebanon Israel Palestine Egypt and Tunisia and the imperial history of Britain France Germany and the Ottoman Empire The result is an original contribution to our understanding of the origins and influence of Middle Eastern archaeology which resonates today in contemporary discussions on heritage discourses and practices

Building Ideas Jay Pridmore, 2013-07-22 Many books have been written about the University of Chicago over its 120 year history but most of them focus on the intellectual environment favoring its great thinkers and their many breakthroughs Yet for the students and scholars who live and work here the physical university its stately buildings and beautiful grounds forms an important part of its character Building Ideas An Architectural Guide to the University of Chicago explores the environment that has supported more than a century of exceptional thinkers This photographic guide traces the evolution of campus architecture from the university's founding in 1890 to its plans for the twenty first century When William Rainey Harper the university's first president and the trustees decided to build a set of Gothic quadrangles they created a visual link to European precursors and made a bold statement about the future of higher education in the United States Since then the university has regularly commissioned forward thinking architects to design buildings that expand or explode traditional ideals while redefining the contemporary campus Full of panoramic photographs and exquisite details Building Ideas features the work of architects such as Frank Lloyd Wright Henry Ives Cobb Holabird Roche Eero Saarinen Ludwig Mies van der Rohe Walter Netsch Ricardo Legorreta Rafael Viñoly Cesar Pelli Helmut Jahn and Tod Williams Billie Tsien Architects The guide also includes guest commentaries by prominent architects and other notable public figures It is the perfect collection for Chicago alumni and students Hyde Park residents and visitors and anyone inspired by the institutional ideas and aspirations of architecture

a historical phenomenon and part six looks at seven historical processes Religion is studied in various ways by many disciplines and this Handbook shows that the study of religion is an academic discipline in its own right The disciplinary profile of this volume is reflected in part seven which considers the history of the discipline and its relevance Each chapter in the Handbook references at least two different religions to provide fresh and innovative perspectives on key issues in the field This authoritative collection will advance the state of the discipline and is an invaluable reference for students and scholars

Our Indigenous Ancestors Carolyn R. Larson, 2015-08-13 Our Indigenous Ancestors complicates the history of the erasure of native cultures and the perceived domination of white European heritage in Argentina through a study of anthropology museums in the late nineteenth and early twentieth centuries Carolyn Larson demonstrates how scientists collectors the press and the public engaged with Argentina's native American artifacts and remains and sometimes living peoples in the process of constructing an authentic national heritage She explores the founding and functioning of three museums in Argentina as well as the origins and consolidation of Argentine archaeology and the professional lives of a handful of dynamic curators and archaeologists using these institutions and individuals as a window onto nation building modernization urban rural tensions and problems of race and ethnicity in turn of the century Argentina Museums and archaeology she argues allowed Argentine elites to build a modern national identity distinct from the country's indigenous past even as it rested on a celebrated extinct version of that past As Larson shows contrary to widespread belief elements of Argentina's native American past were reshaped and integrated into the construction of Argentine national identity as white and European at the turn of the century Our Indigenous Ancestors provides a unique look at the folklore movement nation building science institutional change and the divide between elite scientific and popular culture in Argentina and the Americas at a time of rapid sweeping changes in Latin American culture and society

Dura-Europos Jennifer Baird, 2018-06-14 Dura Europos is one of Syria's most important archaeological sites Situated on the edge of the Euphrates river it was the subject of extensive excavations in the 1920s and 30s by teams from Yale University and the Académie des Inscriptions et Belles Lettres Controlled variously by Seleucid Parthian and Roman powers the site was one of impressive religious and linguistic diversity it was home to at least nineteen sanctuaries amongst them a Synagogue and a Christian building and many languages including Greek Latin Persian Palmyrene and Hebrew which were excavated on inscriptions parchments and graffiti Based on the author's work excavating at the site with the Mission Franco-Syrienne de Dura and extensive archival research this book provides an overview of the site and its history and traces the story of its investigation from archaeological discovery to contemporary destruction

Who Was Who in Egyptology Morris L. Bierbrier, 2021-12-31 The civilization of ancient Egypt has been a source of fascination for explorers and scholars for centuries and has occupied a special place in the imagination of the public ever since early travellers descriptions and illustrations of the strange culture of temples tombs and hieroglyphs began to circulate around the world The story of

Egyptology from a hobby for the educated and wealthy to a highly formalized academic discipline provides the key to understanding how and why we know what we know about ancient Egypt This biographical dictionary tells the stories of the most important contributors and will be an indispensable reference tool for scholars and enthusiasts alike Who Was Who in Egyptology remains one of the most important reference works for understanding the characters that contributed to the field of Egyptology and Egyptian archaeology from the Napoleonic invasion of Egypt through to the present day The fifth edition brings entries up to 2019 and is expected to be the last volume produced in print Digging Up Armageddon Eric H. Cline, 2022-05-17 A vivid portrait of the early years of biblical archaeology from the acclaimed author of 1177 B C The Year Civilization Collapsed In 1925 famed Egyptologist James Henry Breasted sent a team of archaeologists to the Holy Land to excavate the ancient site of Megiddo Armageddon in the New Testament which the Bible says was fortified by King Solomon Their excavations made headlines around the world and shed light on one of the most legendary cities of biblical times yet little has been written about what happened behind the scenes Digging Up Armageddon brings to life one of the most important archaeological expeditions ever undertaken describing the stunning discoveries that were made there and providing an up close look at the internal workings of a dig in the early years of biblical archaeology Photographing Tutankhamun Christina Riggs, 2020-09-19 They are among the most famous and compelling photographs ever made in archaeology Howard Carter kneeling before the burial shrines of Tutankhamun life size statues of the boy king on guard beside a doorway tantalizingly sealed in his tomb or a solid gold coffin still draped with flowers cut more than 3 300 years ago Yet until now no study has explored the ways in which photography helped mythologize the tomb of Tutankhamun nor the role photography played in shaping archaeological methods and interpretations both in and beyond the field This book undertakes the first critical analysis of the photographic archive formed during the ten year clearance of the tomb and in doing so explores the interface between photography and archaeology at a pivotal time for both Photographing Tutankhamun foregrounds photography as a material technical and social process in early 20th century archaeology in order to question how the photograph made and remade ancient Egypt in the waning age of colonial order *Initiation into the Mysteries of the Ancient World* Jan N. Bremmer, 2014-07-28 The ancient Mysteries have long attracted the interest of scholars an interest that goes back at least to the time of the Reformation After a period of interest around the turn of the twentieth century recent decades have seen an important study of Walter Burkert 1987 Yet his thematic approach makes it hard to see how the actual initiation into the Mysteries took place To do precisely that is the aim of this book It gives a thick description of the major Mysteries not only of the famous Eleusinian Mysteries but also those located at the interface of Greece and Anatolia the Mysteries of Samothrace Imbros and Lemnos as well as those of the Corybants It then proceeds to look at the Orphic Bacchic Mysteries which have become increasingly better understood due to the many discoveries of new texts in the recent times Having looked at classical Greece we move on to the Roman Empire where we study not only the lesser Mysteries

which we know especially from Pausanias but also the new ones of Isis and Mithras We conclude our book with a discussion of the possible influence of the Mysteries on emerging Christianity Its detailed references and up to date bibliography will make this book indispensable for any scholar interested in the Mysteries and ancient religion but also for those scholars who work on initiation or esoteric rituals which were often inspired by the ancient Mysteries **Histories of Egyptology**

William Carruthers,2014-07-11 Histories of Egyptology are increasingly of interest to Egyptologists archaeologists historians and others Yet particularly as Egypt undergoes a contested process of political redefinition how do we write these histories and what or who are they for This volume addresses a variety of important themes the historical involvement of Egyptology with the political sphere the manner in which the discipline stakes out its professional territory the ways in which practitioners represent Egyptological knowledge and the relationship of this knowledge to the public sphere Histories of Egyptology provides the basis to understand how Egyptologists constructed their discipline Yet the volume also demonstrates how they construct ancient Egypt and how that construction interacts with much wider concerns of society and of the making of the modern world **Tutankhamun's Trumpet**

Toby Wilkinson,2022-11-01 Marking the one hundredth anniversary of the discovery of Tutankhamun s magnificent tomb its incredible treasures are revealed as never before In 1922 after fifteen years of searching archaeologists finally discovered the tomb of King Tutankhamun There buried alongside the king s mummy they found more than 5 000 unique objects from the mundane to the extravagant from the precious to the everyday Tutankhamun s spectacular gold mask is justifiably famous but the rest of the treasures remain largely unknown their stories untold In this rich and beautifully illustrated work of history renowned Egyptologist Toby Wilkinson allows one hundred artifacts from the boy king s tomb to speak again not only for themselves but as witnesses of the civilization that created them A gold decorated chariot reveals the impressive scale of Egyptian technology Loaves of bread baskets of fruit and jars of wine hint at the fertility of the Nile Valley and the abundant feasts enjoyed by its people Ebony and ivory from Nubia and a jewel of Libyan desert glass show the range of Egypt s trading and diplomatic networks Shaving equipment and board games provide a window into the everyday lives of the people And perhaps most poignant of all the objects in the tomb is one that conjures up a lost world of human experience Tutankhamun s silver trumpet Through these treasures Wilkinson bring us face to face with the culture of the pharaohs its extraordinary development its remarkable flourishing and its lasting impact Filled with surprising insights and vivid details Tutankhamun s Trumpet offers an indelible portrait of the history people and legacy of ancient Egypt Lost and Now Found: Explorers, Diplomats and Artists in Egypt and the Near East

Neil Cooke,Vanessa Daubney,2017-07-24 Long distance travel and mass tourism are not recent phenomena Papers from the 2015 ASTENE Conference in Exeter demonstrate that over the centuries many individuals and groups of people have left the safety of their family home and travelled huge distances both for adventure and to learn more about other peoples and places
