Friefeld, Rebecca S. Wingo, 2017 Homesteading the Plains offers a bold new look at the history of homesteading overturning what for decades has been the orthodox scholarly view The authors begin by noting the striking disparity between the public's perception of homesteading as a cherished part of our national narrative and most scholars harshly negative and dismissive treatment Homesteading the Plains reexamines old data and draws from newly available digitized records to reassess the current interpretation's four principal tenets homesteading was a minor factor in farm formation with most Western farmers

purchasing their land most homesteaders failed to prove up their claims the homesteading process was rife with corruption and fraud and homesteading caused Indian land dispossession Using data instead of anecdotes and focusing mainly on the nineteenth century Homesteading the Plains demonstrates that the first three tenets are wrong and the fourth only partially true In short the public's perception of homesteading is perhaps more accurate than the one scholars have constructed Homesteading the Plains provides the basis for an understanding of homesteading that is startlingly different from current scholarly orthodoxy

support former slaves who escaped to Union lines struck a bargain they would fight for the Union only if they were granted their freedom Williams importantly demonstrates that freedom was not simply the absence of slavery but rather a dynamic process enacted by self emancipated African American refugees which compelled Lincoln to modify his war aims and place black freedom at the center of his wartime policies
