British Computer Society Code of conduct

The British Computer Society (BCS) is the British national body for IT professionals. As a professional body the BCS has a responsibility to set rules and professional standards to direct the behavior of its members in professional matters. The BCS Code of Conduct describes standards of practice relating to the various multifaceted demands found in information technology (IT). It is intended to help you a member of the BCS by providing a framework of guidance into which your particular needs can be fitted. Members are expected to exercise their own judgment to meet the requirements of the code and seek advice if in doubt.

The BCS Code of conduct

1). In regard to public Interest

- a) Regard for the public health, safety, and environment.
- b) Regard legitimate rights of third parties.
- c) Have knowledge of and comply with relevant legislation, regulations and standards
- d) No discrimination
- e) No active or passive bribery

2). Duty to the Profession

- a) Uphold the reputation of the BCS

A Pathology of Computer Viruses David Ferbrache,2012-12-06 The 1980 s saw the advent of widespread and potentially damaging computer virus infection of both personal computer and mainframe systems The

computer security field has been comparatively slow to react to this emerging situation. It is only over the last two years that a significant body of knowledge on the operation, likely evolution and prevention of computer viruses has developed. A Pathology of Computer Viruses gives a detailed overview of the history of the computer virus and an in depth technical review of the principles of computer virus and worm operation under DOS, Mac, UNIX and DEC operating systems. David Ferbrache considers the possible extension of the threat to the mainframe systems environment and suggests how the threat can be effectively combatted using an antiviral management plan. The author addresses the latest developments in stealth virus operations, specifically the trend for virus authors to adopt extensive camouflage and concealment techniques which allow viruses to evade both existing anti viral software and to avoid detection by direct observation of machine behaviour. A Pathology of Computer Viruses addresses a distinct need that of the computer specialist and professional who needs a source reference work detailing all aspects of the computer virus threat.

BTEC National for IT Practitioners: Business Units: Core and Specialist Units for the IT and Business Pathway Sharon Yull, 2009-04-27 BTEC National for IT Practitioners Business Units has been written specifically to cover the business pathway of the BTEC National specifications. This book caters for one of the most popular pathways in the BTEC National specifications, bringing together all the key specialist units for students who have chosen the business route, including the core units specific to this pathway that aren't covered in the core unit book. When used alongside its companions for the core units and systems support pathways, this series delivers the most accessible and usable student textbooks available for the BTEC National Units covered: Unit 1 Exploring Business Activity, Unit 4 IT Project, Unit 2 Investigating Business Resources, Unit 34 E Commerce, Unit 3 Introduction to Marketing, Unit 35 Impact of the Use of IT on Business Systems. Unit 4 IT Project, Unit 34 E Commerce, Unit 35 Impact of the Use of IT on Business Systems. Written by an experienced tutor, each unit is illustrated with assessment activities, end of chapter questions, case studies and practical exercises. The result is a clear, straightforward textbook that encourages independent study and acts as a reference to various topics within the qualification.
