educated began to develop a certain distaste for this ancient science largely because of the educational system in the country which distanced itself from the traditional branches of learning under a mistaken notion that by doing so it was proving its rational credentials. However, astrology being as good a science as any other of the modern ones has stood the test of time and in recent years has made a resurgent reappearance as a result of my revered father, Father of Modern Astrology, the Late Dr B V Raman's relentless efforts to propagate it as an academic subject. Astrology has now captured the interest of large segments of the educated public. The wave of resurgence has swept away this pseudo-rationalist resistance, bringing with it the realization of the invaluable role astrology can play in helping cope with the ills of modern society. There has been some kind of snowballing effect in educated circles both in our own country as well as in the west, primarily the United States of America, in their eagerness to retrieve, revive and restore Jyotish to its pristine glory. The ancient classical works on the subject are now being eagerly lapped up, but the problem begins because of the times when the astrological rules were first formulated, being so different from our own. The author has made effort to adapt and apply these rules in the form of dicta, Yogas and combinations to contemporary life in the process, seeking to bridge the gap between the ancient rules and their application value to the present.

GK win Degree System of Astrology Tirupur S.GopalaKrishnan(GK),2019-06-18 It is a simple method for prediction through which even a person with a basic knowledge of astrology can give predictions based on the birth chart. The method utilizes the degrees of the planets in the birth chart. The planets in the highest degree and lowest degree are taken into account. Even planets which are 6-8 positions away from each other will be combined when their degrees are close. Through this method we can predict whose relationship will be beneficial for him/her. We can also predict the planets which will support him throughout his/her life, the gods whom should be worshiped and so on. Predictions together with the planets in the transit and the birth chart are also easily given.

Shanker Adawal, The notion that astrologers can unfold lives and reveal what waits at the next bend is a thought that comes to all and populist claims have inspired the author to come up with a series of books that will discuss the various aspects in astrology, putting together the research and findings by various groups and the experience gained during his journey. The purpose of the encyclopedia is an attempt to put a clear understanding of the process of astrology, taking into account the first basic principles and dealing with different topics.
