AN ATTACHMENT DISORDER ASSESSMENT SCALE

An Important New Instrument to Assess Attachment in Children and Adolescents

Designed by a psychologist and 17 years in development, the Attachment Disorder Assessment Scale (ADAS-R) is the most validated instrument available to measure attachment and is now being commercially released for the first time. It is designed to measure a wide range of factors in order to accurately place a child on the continuum of attachment.

Attachment is the basis of social success throughout life and is the single most important ability related to social development for a child or adolescent. Problems in the area of attachment can seriously affect a person's perception of relationships and the world around him or her. Difficulties in attachment can affect a person's social, psychological, and even physical health throughout life. If attachment problems are identified early in life, proper treatment can help the person overcome the factors that can lead to a life of sadness and unhappiness.

The instrument can identify with great accuracy attachment issues (very frequent), attachment problems (less frequent), and a diagnosable Disorder Attachment Disorder. While most children (as well as adults) exhibit and to have some degree of attachment difficulties, a diagnosable disorder is very rare in the general population. The ADAS-R gives an accurate assessment of the level of attachment difficulty that a child or adolescent is experiencing so that an effective plan of care can be developed. Used in conjunction with other diagnostic information, the ADAS-R can be an invaluable tool to quickly and easily obtain a reliable level of attachment concern for a young person.

A psychologist, author, trainer, therapist, and foster parent, Dr. Douglas has worked professionally with attachment issues for more than 30 years and has successfully used the ADAS-R in his treatment centers for 17 years.

The ADAS-R kit includes a hard plastic carrier case, 23 protocol worksheets, and a 32-page manual that explains the scale, attachment problems, and treatment options. The kit is available for \$49.95. Extra worksheets are available in packs of 25 for \$24.95. Order by calling Doctor Publishing at 866-645-4553 or visit us online at www.doctorpublishing.com.
