

Detail of Stair Construction

These drawings show the stringer board and form of steps. To simplify fitting the board, the stringer of the board is cut at M. When the board is in place, the stringer part M, the part S, of the board, is placed in position by the board in dotted line at M. Then cut the stringer board to the top of the board and against the truss. For full treatment of stair construction see Chapter on Stairs in this volume.
